EXPLORING ORAL HEALTH
MODULE 4, LESSONS 7 & 8

NAF

Module 4 introduces students to the technological advancements and innovations shaping the field of dentistry. We highlight tools like patient portals, front-of-the-house technologies, and privacy regulations such as HIPAA, emphasizing their importance in improving patient experience and care. Next, we delve into emerging technologies, such as AI diagnostics, teledentistry, and 3D printing, showcasing their transformative impact on oral health practices and the careers needed to support them.

LESSON #	DESCRIPTION	# OF 50 MINUTE PERIODS
7	Tools and Resources to Support Patient Care	1
8	Exploring the Future of Oral Health	2

Directions to copy or download the unit folder are on the next page

COPY UNIT MATERIALS TO GOOGLE DRIVE
(Google account needed)

1. **Open Google Drive:** Go to drive.google.com and sign in with your Google account.
2. **Open Shared Folder:** Click on the link to the shared curriculum folder provided by NAF.
3. **Make a Copy:** Right-click on the folder name. Select "Make a copy".
4. **Choose a destination:** Select a folder in your Drive to save the copy.
5. **Organize:** Once copied, you can rename and reorganize the folder and its contents as needed.
6. **Edit:** You can now edit and modify the copied materials for your specific classroom needs.

DOWNLOAD FOLDER TO COMPUTER
(No Google account needed)

1. **Open the shared folder link:** Click on the link to the shared curriculum folder provided by NAF.
2. **Select the folder:** Click on the folder to select it.
3. **Download the folder:** Right-click on the folder and select "Download."
4. **This will download a ZIP file** containing the entire folder and its contents to your computer.
5. **Extract the folder:** Once the download is complete, extract the ZIP file to your desired location on your computer.
