# ACADEMY ACTION PLAN

## Academy Action Plan

An academy action plan establishes goals and strategic actions to implement the NAF design with fidelity for the continuous improvement of academy quality.

## Develop an Action Plan

1. Evaluate Snapshot 1 to assess academy design plan progress.
2. Identify the strategic actions designated "Not Started."
3. Review the YOP Evidence Checklist to determine the required evidence to validate the accomplishment of a strategic action during the graduation meeting.
4. Develop SMART goals and strategic actions to achieve the designated standards of practice and update the online Action Plan in ASH. The Action Plan tool outlines NAF standards, identifies support resources, and promotes the coordination of goals between academy leadership and NAF to support action steps. Resource Suggestion: Review NAF's Strategic Action Planning Tool aligned with the AA and Quality Review Rubric.
