# NAF

## BE FUTURE READY

NAF is a national education non-profit that brings schools and businesses together to better prepare students of all backgrounds. We help the next generation of leaders explore career options, create a plan for the future, and carve out a path to achieving their full potential. For nearly 45 years, NAF has led a movement for immersive, career-focused teaching and work-based learning.

NAF's design ignites students' passion for learning and gives businesses the opportunity to shape America's future workforce, by transforming the learning environment to include STEM-infused and industry-specific curricula and work-based learning experiences, including internships.

## IMPACT BY THE NUMBERS

**112,000<sup>+</sup>**  
**STUDENTS**

*in the 2024-25 school year*

*over half a million students have attended  
NAF academies in our nearly 45 year history*

**GRADUATES JOIN  
THE WORKFORCE  
IMMEDIATELY AFTER  
HIGH SCHOOL**

**600<sup>+</sup>**  
**ACADEMIES**

**34**

**STATES AND  
TERRITORIES**

## WHERE OPPORTUNITY BEGINS FOR...

### STUDENTS **on the cusp of making decisions about what their future holds**

NAF connects the working world with the academic world by integrating career-relevant curricula and work-based learning activities into the high school experience. Students build the skills they need to be college, career, and future ready. They define their future and start on their path to success — wherever they want to go.

### SCHOOLS

**striving to create more effective  
educational environments**

NAF partners with educators in transforming the high school experience so students can explore career options, plan for their futures, and take part in hands-on learning. Together, we can scale career-connected learning opportunities.

### COMPANIES

**to ensure they have the skilled  
workforce necessary to remain  
competitive**

NAF connects employers of all sizes with high schools to bring relevant career preparation experiences to students. Industries can then succeed with the diverse, highly skilled talent pipeline necessary for driving innovation, growth, and global competitiveness.
