

Haulier Enterprise – Arrivals Board

The Arrivals Board is all about visibility for the Haulier, Planner and the Customer and can Integrate with your existing Telematics Solution. As a haulier, it can display a real-time view of your fleet, resources and the status of all customer orders including all ETA's, providing a greater operational grip of the business.

The haulier **can** also grant the customer a secure view of all **their** collections and **deliveries** in real time, not only reducing the need for frequent phone calls by the customer but strengthening the relationship and building confidence in the service. The Arrivals Board may be viewed in many ways and showing all available data in many formats depending on the individual user requirements.

Benefits

- All data is in Real-Time
- Visability of the Fleet
- Integration with Telematics
- Visability of all ETA.s
- Extensive search capability
- Key Account Manager View
- Planners View
- Dynamic Updateing Notes
- Secure Customer View
- Pallet Status Integration
