

# PROTEO

## Haulier Enterprise – Map Based Planning

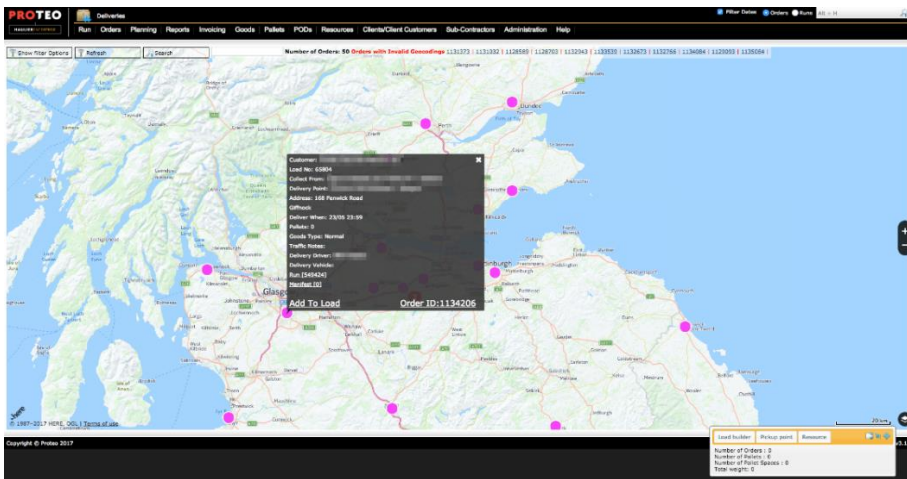

This function & view allows the Traffic Office & Planners to see all Collections & Deliveries displayed on a map. From this view the planner can click on an action or several and combine these into a load which will then be turned into a run. This method has proven popular when dealing with Pallet collections and deliveries.

This method of planning ensures the planner uses the most effective route possible ensuring the profitability of the business.

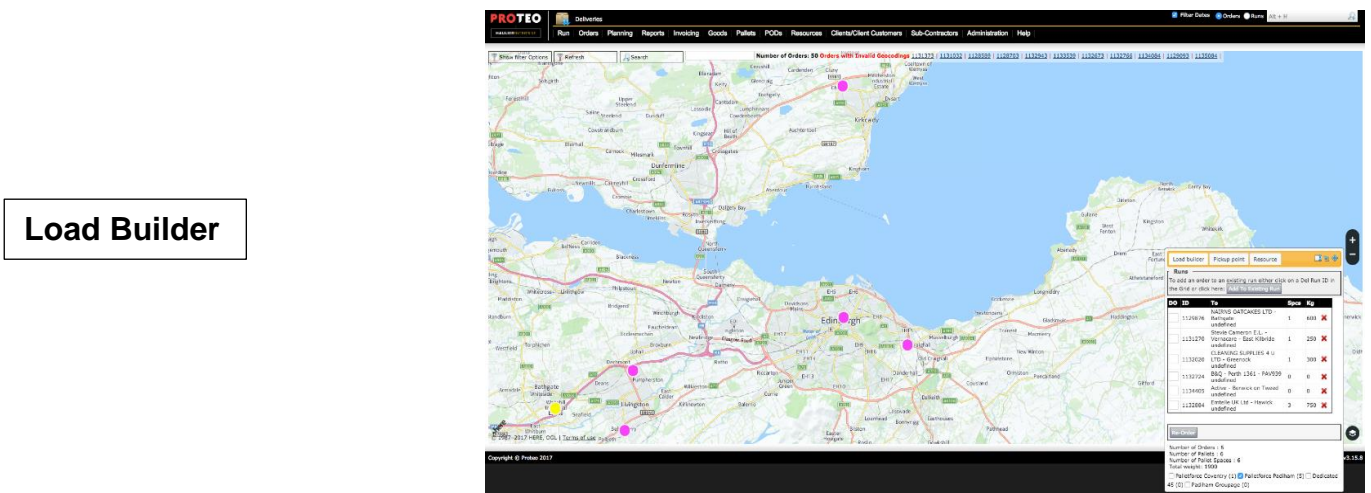

### Benefits

- Ensures most effective route used
- Ensures cost effectiveness
- Provides visual route planning
- Complete visibility of all jobs
- Easy to use
- Reduces Human Error
