

# HIVE

Save money  
with a smarter,  
greener home

# HIVE

Welcome to greener living,  
lower bills and eco-tech that  
feels like home

## This is Hive

# The home of greener energy

Since 2013, our team of engineers has been developing a range of technology designed to help you live greener, lower your bills and control your home like never before.

From electric vehicle chargers to solar panels and waaay smarter heating, choose Hive for the home you love and the planet we share.

**Because net zero isn't next. It's right now.**

The only way we're ever going to get there is together.  
Smart, sustainable and money-saving energy should be for everyone.

## Why trust Hive?

**We're in over 2 million UK homes – and counting. That's more than any other smart home brand.**

And you can rest assured you're in safe hands as we're part of the British Gas family, which has been heating Britain's homes for over 200 years.

## Hive is...

### Money-saving

Our eco-tech can help lower your bills by using less energy around the home.

### Hassle-saving

Connect Hive smart devices to automate your home and control it all with the Hive app – freeing up time to do what you love instead.

### Eco-friendly

Hive helps you to cut your energy use while still keeping you cosy – so it's great for the kids now, and great for their future too.

**Since launching, Hive has helped save £453m on energy bills and enough carbon to:**

- Power **476,648** homes a year
- Charge **496 billion** smartphones
- Drive **5 million** car miles
- Fly London-New York return **900,000 times**

# HIVE

## Cheaper heating? Hive is how

**Our award-winning thermostats work with your existing boiler and heating system to control your home like never before - and could cut your energy bills by up to £175 a year.<sup>1</sup>**

- Control your heating and hot water from any device
- Manage and change schedules from wherever you are
- Prevent frozen pipes with automatic Frost Protection
- Unlock even more money-saving tools with Hive Plus

1. Saving based on Ofgem 'Medium' energy use (Gas use: 11,500 kWh) at the January 2025 UK average unit price. Actual savings will vary dependent on individual circumstances.

# HIVE

## Hive Thermostat

Simple to use and compatible with most boilers, the award-winning Hive Thermostat gives you total control of your heating.

## Hive Thermostat Mini

Smaller, sleeker and cheaper, Hive Thermostat Mini is the new generation of smart heating – spend less, save just as much.

Keep your Thermostat or Thermostat Mini securely in place, in any part of your house, with our stylish thermostat stand.

# HIVE

## Hive Hub

Connects your Hive devices together over Wi-Fi (3rd generation) or ethernet (earlier models).

## Hive Receiver

Links your boiler to your thermostat and Hub, for control with the Hive app. Supports OpenTherm for compatible Combi boilers.

## Hive Radiator Valves

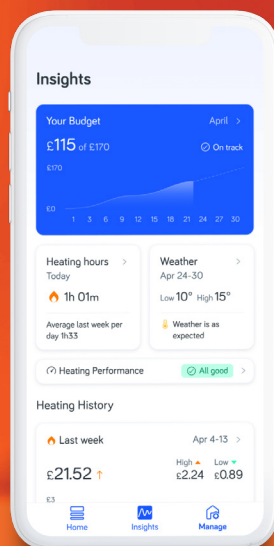

Pop these on all your radiators to control the temperature of each room individually.

## Hive App

Control your home from anywhere with the Hive app. A quick tap is all it takes to boost your heating, adjust your lights or turn things on, off, up or down.

## Hive Actions

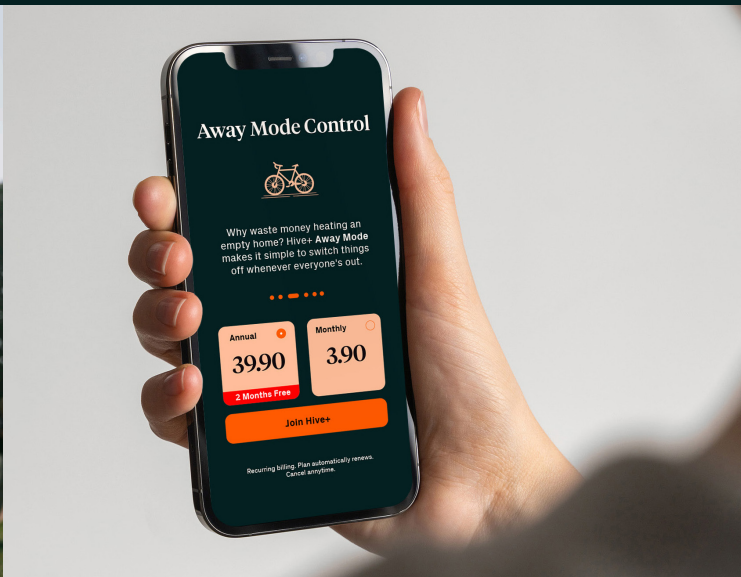

Bring your home to life by connecting your devices so things work seamlessly around you. Set lights, plugs and heating to switch off automatically when you walk out the door – without lifting a finger – so you never waste energy.

# You can save up to £18\* per month with Hive Plus

Join the 100,000+ members already cutting their bills with Hive Plus. Sign up now to unlock advanced tools and exclusive offers - and get personalised tips to cut your carbon footprint and shrink your bills with smart eco-tech like our Budget Tracker. It's the smoother way to save energy.

# HIVE<sup>+</sup>

## The Hive Plus Promise: save the cost of your membership and more

You will get access to a credit or a special tariff when you join Hive Plus and choose any fixed dual fuel tariff from our friends at British Gas – so you'll never be out of pocket with Hive Plus.

\*£18 is the average monthly saving for all customer who achieved a saving using the Hive Plus Budget Tracker feature.

A person is lying on their back on a light-colored sofa, wearing a light-colored long-sleeved shirt and dark leggings. They are wearing large white over-ear headphones and have their hands near their ears. Their legs are raised and bent at the knees. A bright orange cushion is behind their head. In the foreground, a wooden coffee table holds a black remote control, a teal book, and a white square Hive thermostat. The background is a plain wall.

## Hive devices for a smarter, more sustainable home

### Hive Smart Bulbs

Stay on the sofa while you set the scene with smart light bulbs. And schedule them to turn off and on automatically while you're away, so it looks like someone's home.

### Hive Sensors

Connect these with other devices for even smarter home control – like turning on a lamp when someone walks past it. Monitor your home so you can relax knowing that everything's OK while you're away.

### Hive Plugs

The easy way to turn an appliance into a smart one and switch it on or off from anywhere.

EO Mini Pro 3

# Hive EV Charging at home

## Hive EV Charging. Almost as good as car-free

---

**The greenest option is leaving  
your car at home. The second best  
is charging it there.**

---

Hive EV Charging makes it as easy and affordable as possible by automatically synching with your tariff, so you charge when it's cheapest and greenest. And you can stay in control and manage your charging with the Hive app.

### Smart, stylish and easily installed

The small yet mighty EO Mini Pro 3 charger combines cutting-edge tech with advanced money-saving features.

# HIVE

## Solar & battery

Get Hive solar panels installed – then supercharge your savings with an exclusive tariff that lets you sell spare energy back to the grid.

## Heat pumps

**The cleaner, greener way to heat your home.**

You'll get all the comfort of a gas boiler, but way less carbon.

# Hive makes smart homes easy

**Over 2 million households use Hive every single day.
