5 key DFDS performance drivers 2019 face some headwind

1. Growth benefits from Mediterranean expansion: Full-year UNRR impact and expanded cooperation with Ekol Logistics

2. Well prepared for Brexit

3. Route network to be strengthened by three new freight ferries

4. Digital business projects go live

5. Improvement and efficiency projects expected to support earnings with DKK 100m

- New route: Gothenburg-Zeebrugge
- Turkish recession and fast capacity ramp-up creates earnings headwind
- Some customers not prepared for ‘no-deal’
- Deliveries and operation progressing as planned
- Emphasis on increased awareness and bookings
- All projects on track
EBITDA-margin lowered by stockpiling reversal in Q2

**Revenue** growth of 9% driven by Mediterranean

**Margin** reduced by lower freight volumes from reversal of Q1 UK stockpiling

**EBITDA** increase driven by Mediterranean FY impact and higher passenger earnings

**Depreciations** up DKK 50m mainly due to Mediterranean FY impact

**ROIC** now fully reflecting Mediterranean impact
