

# Intermodal

A fast and flexible alternative

[dfds.com](https://dfds.com)

# Intermodal uses a huge network

Next time you're planning your shipment, think connected and see if an intermodal solution isn't the smartest way from A to B

### Intermodal is flexible

We can handle everything from standard and mega trailers to 45 feet containers

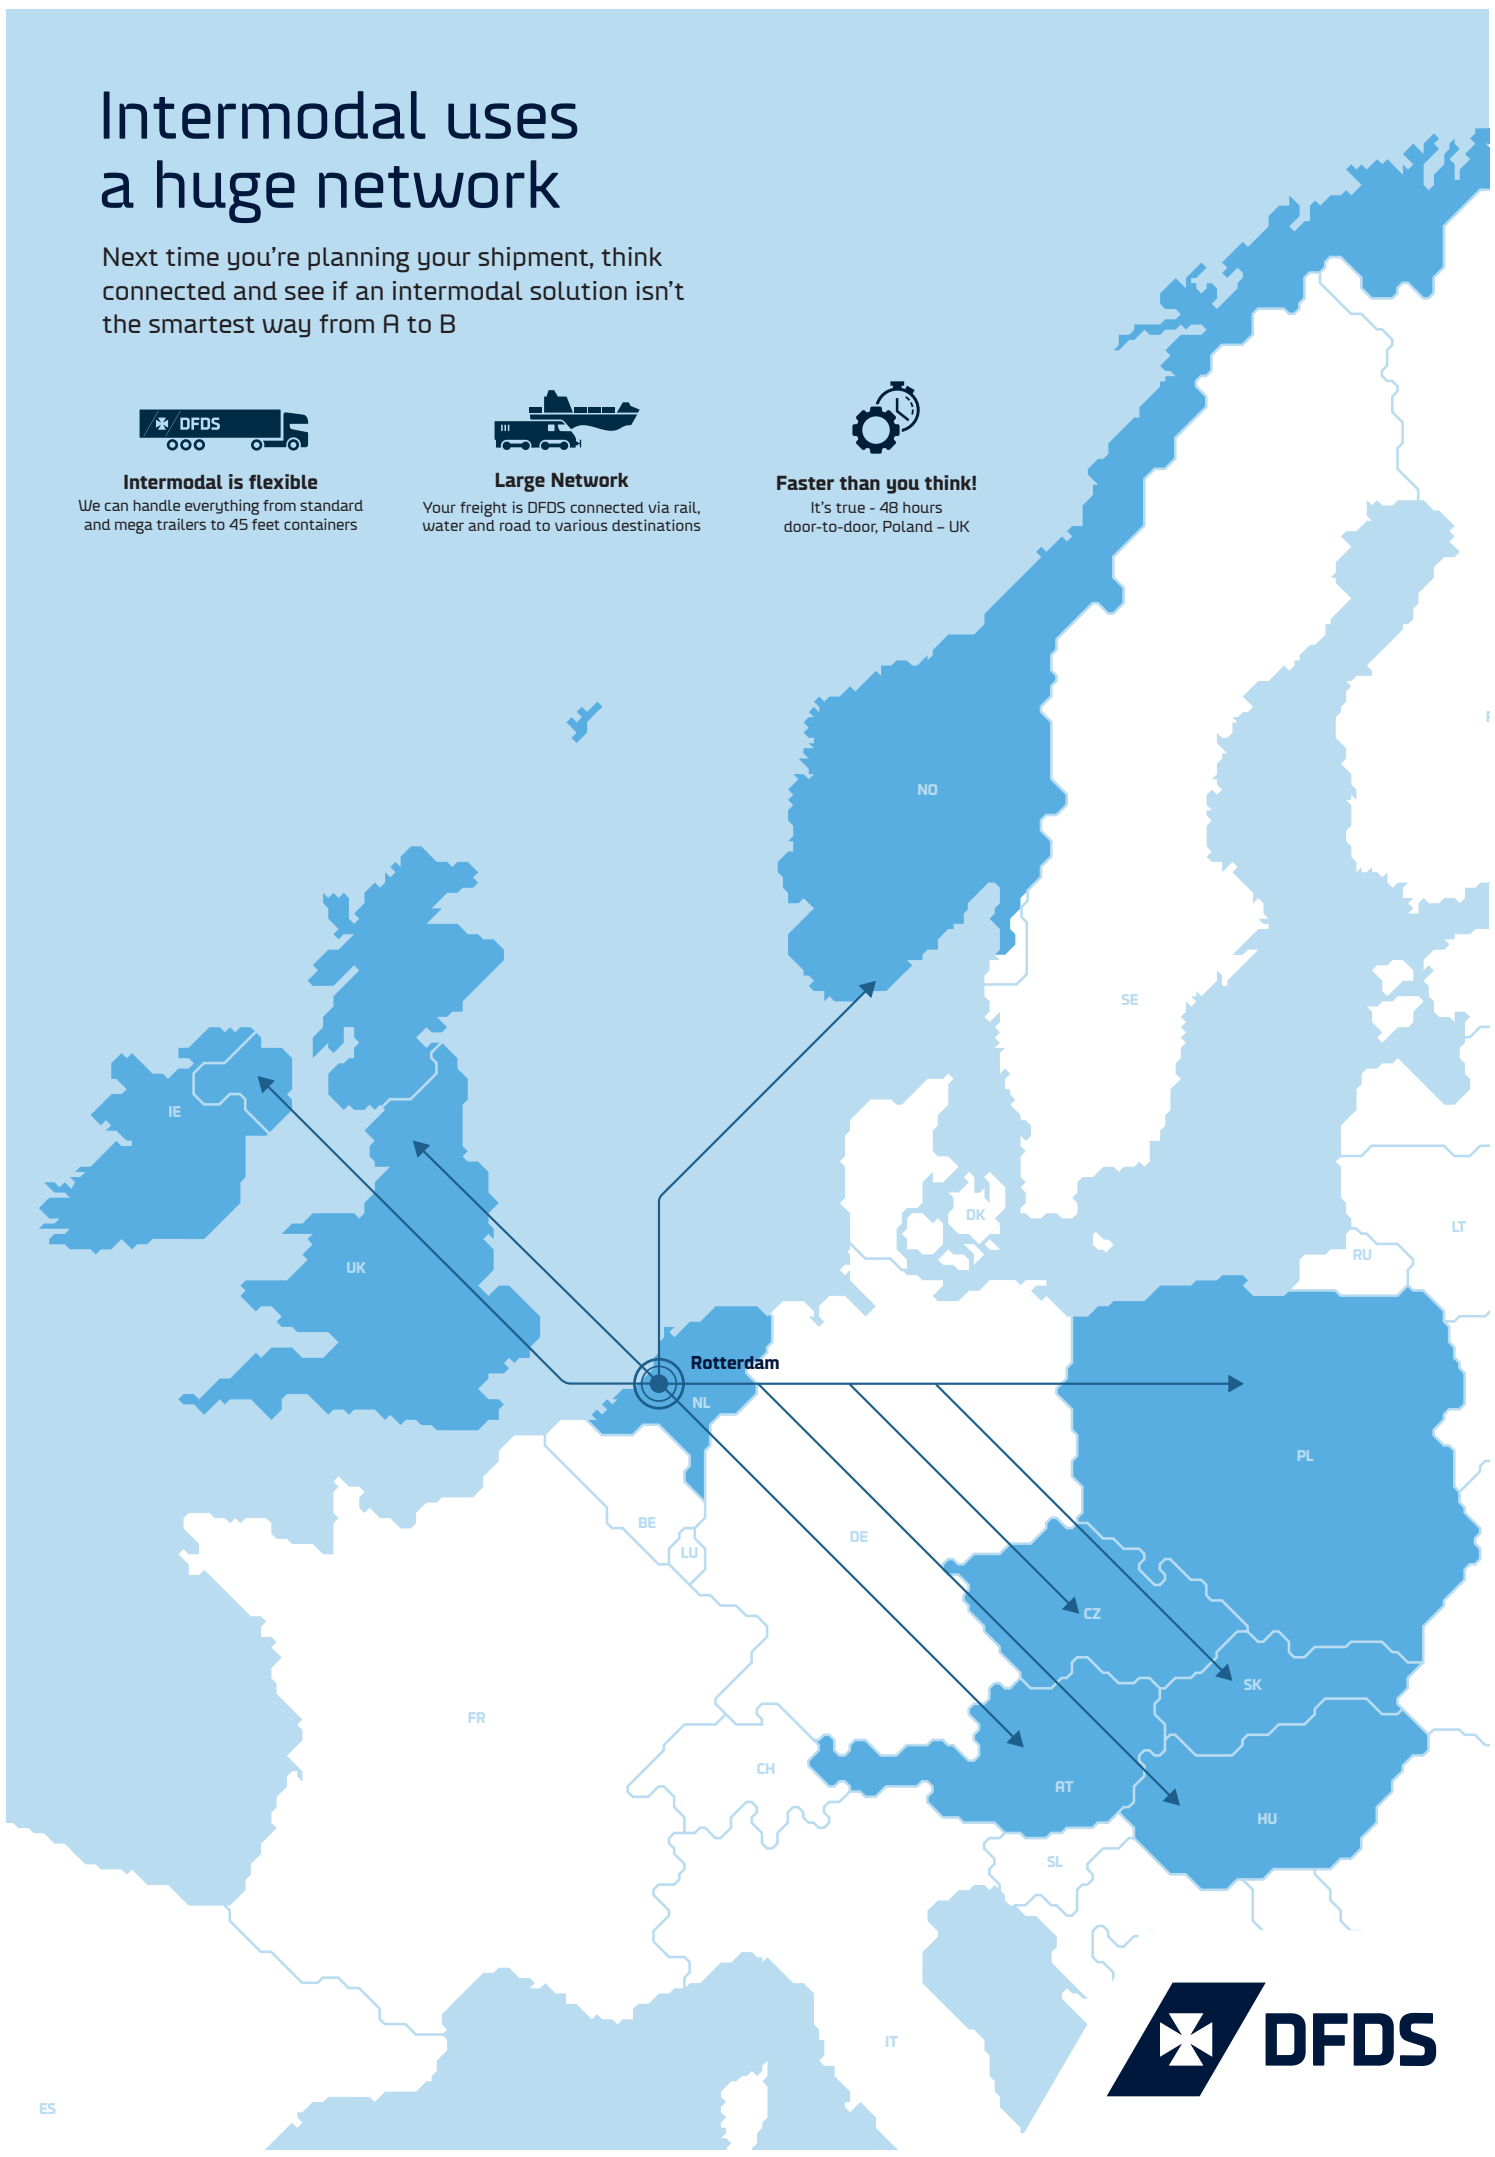

### Large Network

Your freight is DFDS connected via rail, water and road to various destinations

### Faster than you think!

It's true - 48 hours door-to-door, Poland - UK

# For flexibility it's hard to beat an intermodal solution

We can handle everything from standard and mega trailers to 45 feet containers. And when you factor in real-time track and trace to the mix via our online platform with GPS navigation - and the fact that intermodal is eco-friendly and safe - you get a great flexible alternative for your next shipment.
