

“ As Scandinavia’s largest footwear retailer, we see it as our responsibility to become a leading steward of social responsibility in the footwear industry.

Euro Sko Norge AS

Responsible Business Partnership (RBP)

This is an essential element of Euro Sko Norge Sustainable Business Strategy. We believe our social and environmental responsibility extends beyond the limit of our own organization.

The purpose of this brochure is to strengthen the dialog and understanding of corporate social responsibility in our supply chain.

Euro Sko Norge has developed a strategy that forms the foundation of our company’s ethical and environmental commitment.

The strategy is based on our Code of Conduct and the membership obligation of the Ethical Trade Initiative Norway.

Sustainability Information

Euro Sko Norge AS is the largest shoe retailer in Scandinavia with operations in Norway, Sweden and Denmark.

The organization consists of approx. 330 stores with 5 different retail concepts. The business was established in 1982 and the essence of the chain organization is development and import of our own brands.

IMPORTANT

All suppliers are responsible for forwarding the information listed below to all levels in our supply chain.

- Responsible Business Partnership (RBP)
- Code of Conduct (CoC)
- Restricted Substance List(RSL)
- Animal Welfare Policy

When agents, suppliers and sub-contractors accept the order(s) from Euro Sko Norge AS, they automatically accept and confirm our CoC.

Risk Assessment of the supply chain

Our goal is to increase the efficiency and scope of our work toward an ethical supply chain, by strengthening the dialog and cooperation between Euro Sko Norge and its suppliers.

Risk Assessment

Suppliers must provide a list of factories, tanneries and subcontractors every season. We expect social compliance documentation for all sites.

Tannery

We encourage our suppliers to choose sustainable tanneries and to develop a longterm relationship. Our company policy require our suppliers to buy from Leather Working Group audited tanneries.

Social audits

We kindly ask of factories producing for our brands to share existing inspection reports preformed within 3 years. The objective is to identify risk areas where improvements are necessary and to collab-orate with supplier to meet the required measures.

Is a committing partnership between companies, trade unions, organizations and public institutions, in regards to strength-en workers' rights and improve environmental practices in their value chains. They are a resource center and an advocate for ethical trade practices.

Euro Sko Norge commits to actively work in accordance to Ethical Trade Norways guidelinesbased on internationally accepted standards, national laws and regulations on human rights, worker rights and environmental protection.
