Trade Office/ Agent

It is the intermediate responsibility to risk evaluate all suppliers producing for our brands and to present social compliance documentation to Eurosko Gruppen AS.

When a new producer is added to our portfolio social compliance documentation must be presented to Eurosko Gruppen AS CSR department.

Sub-Contracting

If you as a supplier find it necessary to sub-contract parts of any of Eurosko Gruppen AS orders it must be approved by the CSR department in a written document containing:

1. The physical address of the production facility.
2. The % of the order which is being contracted.
3. Description of working and environmental conditions.
4. Appropriate argumentation as to subcontracting.

We kindly ask for your corporation in this matter so we can have a better understanding of what happens in our supply chain in relation to our CoC.

Risk Assessment of the supply chain

Our goal is to increase the efficiency and scope of our work toward an ethical supply chain, by strengthening the dialog and cooperation between Eurosko Gruppen AS and its suppliers.

Risk Assessment

Suppliers must provide a list of factories, tanneries and subcontractors every season. We expect social compliance documentation for all sites.

Tannery

We encourage our suppliers to choose sustainable tanneries and to develop a longterm relationship. Our company policy require our suppliers to buy from Leather Working Group audited tanneries.

Social audits

We kindly ask of factories producing for our brands to share existing inspection reports preformed within 3 years. The objective is to identify risk areas where improvements are necessary and to collab-orate with supplier to meet the required measures.

Is a committing partnership between companies, trade unions, organizations and public institutions, in regards to strength-en workers' rights and improve environmental practices in their value chains. They are a resource center and an advocate for ethical trade practices.

Eurosko Gruppen AS commits to actively work in accordance to Ethical Trade Norway's guidelines based on internationally accepted standards, national laws and regulations on human rights, worker rights and environmental protection.
