

– FIND YOUR FUTURE –

## TIME for Kids and the Crucial Role of Career Exploration

Embarking on a career path is a monumental decision. It's not merely about choosing a job; it's about identifying your interests and what success looks like for you. Our [Your 🔥 Job](#) platform aims to help kids ages 8 to 14 develop awareness and curiosity about the many career opportunities that exist. It also provides resources to build their soft skills as they prepare for their future. Your 🔥 Job's mission is to show kids that there's no single route to success, and that anything is possible.

### Discovering Purpose

Career exploration allows us to engage with our interests and values. It's a journey of self-discovery that helps us find a sense of purpose. When your work is fulfilling, you're excited about doing it. Your 🔥 Job guides young people through the process of discovering what fulfillment means to them. Users entering the platform are introduced to the [Skills Explorer](#). They follow a series of prompts to reflect on what interests them, what they enjoy doing, and where they excel. The result is a breakdown of their top traits, which helps the platform curate a customized feed of career-related articles and videos.

### Adapting to a Changing World

The world is changing rapidly, due to technological advancements, globalization, and societal shifts. A career that was highly valued a decade ago might be less relevant today and even less so when our young audience enters the workforce. Your 🔥 Job identifies careers across multiple industries that are future-focused and gaining momentum. We feature these careers on virtual trading cards that provide at-a-glance information.

### Developing Soft Skills

While hard skills are crucial for getting your foot in the door, it's soft skills that help you excel and advance in your career. Skills such as time management and problem-solving are of paramount importance in the professional world. Your 🔥 Job has recently launched a collection of quick and easy-to-access [skills courses](#) to help kids build out these critical skills. Users will learn how soft skills differ from the skills they're taught in class, and how they can practice these life skills now.

At TIME for Kids, we believe in career exploration at a young age. And we believe that today's fast-paced, ever-changing job market makes the cultivation of soft skills critical for success. So let's work together to empower our young people to embrace the future and develop the skills necessary to thrive there.
