Press Pack

Digital asset infrastructure developed in partnership with pioneering institutions

About Copper

We build infrastructure that will shape the financial services industry for a generation to come.

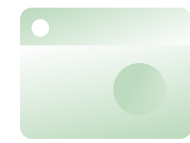

We do it with the guiding principle that the problems our clients face can be solved efficiently, collaboratively, and securely, to the benefit of the entire digital asset ecosystem.

copper.co

The easiest way to create bank clearable digital asset AMCs

Inter-Exchange Custody

A secure ecosystem to manage assets across 45+ exchanges

Settlement & Clearing

Exceeding the standards and efficient of traditional finance

copper.co

Key people

Dmitry Tokarev

Chief Executive
Officer

As the former CTO of a London- based asset manager, combined with in-depth knowledge of computer engineering, and background as a quantitative analyst, Dmitry is uniquely positioned to bridge the worlds of technology and financial services.

Boris Bilowitzski

Chief Revenue
Officer

As Copper's Chief Revenue Officer, and with more than 15 years' experience in finance on both the buy and sell sides, Boris has built and leads the company's global sales strategy. He has a background in business development and relationship management in both traditional financial services and fintech.

Lord Hammond of Runnymede

Senior Adviser

Philip has had a distinguished career in British politics as a Member of Parliament from 1997 to 2019. He held a range of Senior cabinet posts, most recently serving as Chancellor of the Exchequer from 2016 to 2019. He also served as Foreign Secretary, Defence Secretary, and Transport Secretary.

Backed by

\$85 million in funding raised across Series A and B. A \$25m extension to the Series B funding round in June this year was led by Alan Howard.
