

## **Information Requirements in accordance with Regulation (EU) 2023/826**

The following information is provided in accordance with Regulation (EU) 2023/826 (Ecodesign requirements for external power supplies, including information requirements for end-user documentation and publicly available websites).

### **Model Identifier: Type 491-5698**

Power Consumption in No-Load Condition:

- No-load condition: 0.039 W at 115 V; 0.067 W at 230 V

### **Model Identifier: Type 492-5217**

Power Consumption in No-Load Condition:

- No-load condition: 0.032 W at 115 V; 0.051 W at 230 V

### **Model Identifier: Type 492-5218**

Power Consumption in No-Load Condition:

- No-load condition: 0.029 W at 115 V; 0.048 W at 230 V

### **Model Identifier: Type 492-5219**

Power Consumption in No-Load Condition:

- No-load condition: 0.022 W at 115 V; 0.038 W at 230 V

### **Model Identifier: Type 463-5221**

Power Consumption in No-Load Condition:

- No-load condition: 0.019 W at 115 V; 0.038 W at 230 V

**Model Identifier: Type 463-5222**

Power Consumption in No-Load Condition:

- No-load condition: 0.032 W at 115 V; 0.045 W at 230 V
