New Product Offer No. 26.060
Siloxa-Tek 8500

KreteTek Industries Inc.
66C River Rd.
Hudson, NH 03051

The New Product Evaluation Committee has designed a Website for products that have been submitted for evaluation and have been found by the Committee to have merit. The website will include some basic product information and manufacturer contact information to enable interested parties to see what's "out there" with respect to new and innovative ways to build a highway.

Your product, Siloxa-Tek 8500, will be listed on the NPE Website with a recommendation to allow its use on a project-by-project basis with accordance to [EDSM V.4.1.2](#). Please keep the Committee informed whenever this product is used on a DOTD project, in order to keep our database up to date. In addition, it will be imperative that you notify us of any changes in contact information or product availability in a timely manner to ensure the validity of the information posted on our web site.

This is the way for the Department of Transportation NPE Committee to display your product to possible interested parties. Please return the attached release at a suitable time. If you have any questions, please feel free to contact me at 225-248-4131.

Sincerely,

RICHIE CHAROENPAP, P.E.
NEW PRODUCT EVALUATION COORDINATOR
