| BASE COAT SOLUTIONS

EPOXY MAX™ 100
100% SOLIDS BASE COAT

Two-component, 100% solids, self-leveling epoxy designed to coat concrete floors with high and low build capabilities. Has excellent impact and chemical resistance. Combines the highest quality epoxy resins and is the perfect base coat for any clear, solid color, flake and/or metallic epoxy floor system.

Sizes: 3 Gallon Kit
Finishes: High Gloss

Function	Base Coat
Carrier	N/A
Solids	100%
Coverage*	50-150 ft²/gallon
Components	2
Thickness	10-30 mils WFT
VOC Level	<30 g/L

VAPOR-TEK™ 440
MOISTURE VAPOR BARRIER (MVB)

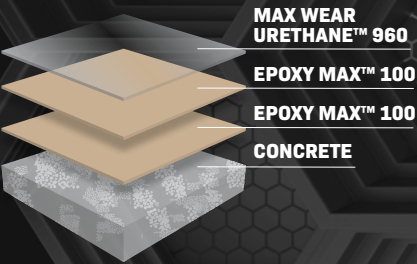

A revolutionary two-component epoxy coating designed to control moisture vapor emission rates up to 20lb / 24hr / 1,000ft. It reduces the permeance of moisture vapor through concrete substrates to levels that are acceptable for the application of epoxy floor systems, vinyl, rubber, tile, cementitious overlays, terrazzo, wood, or carpet. Meets ASTM F3010 for vapor permeance.

Sizes: 3 Gallon Kit
Finishes: High Gloss

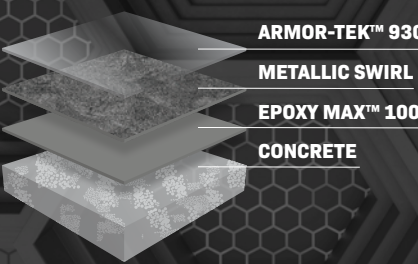

Function	MVB / Primer
Carrier	N/A
Solids	100%
Coverage*	100 ft²/gallon
Components	2
Thickness	16 mils WFT
VOC Level	<30 g/L

UNLIMITED OPTIONS

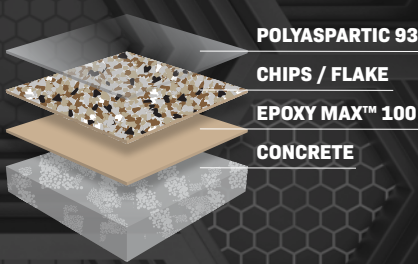

Our formulas are designed to offer infinite design possibilities and the ability to customize and optimize colors, patterns, and finishes.

EPOXY FLOORS
RISE ABOVE THE COMPETITION

Our Ghostshield Resin Floors offer exceptional performance even in the most challenging environments. Our floor systems resist chemicals, abrasions, and impacts, ensuring long-lasting durability.

More solutions, more spaces. It's not just about offering a product; it's about delivering a solution. With our turnkey approach, we ensure that you have everything required to satisfy the requirements of architects, engineers, contractors, facility managers, and consumers.

Function	Top Coat
Carrier	Solvent
Solids	83%
Coverage*	300-500 ft²/gallon
Components	2
Thickness	2-5 mils WFT
VOC Level	<100 g/L

ARMOR-TEK™ 830
POLYSILOXANE TOP COAT

A high performance, two-component, high solids, isocyanate-free, epoxy polysiloxane floor coating that provides superior resistance against abrasion, chemicals, corrosion, UV exposure and weathering. Armor-Tek™ 830 provides the benefits of a high performance epoxy and polyurethane in one coating.

Sizes: 1 Gallon Kit
Finishes: High Gloss, Satin

Function	Top Coat
Carrier	Solvent
Solids	93%
Coverage*	150-200 ft²/gallon
Components	2
Thickness	8 mils WFT
VOC Level	<250 g/L

POLYASPARTIC 930
RAPID CURING TOP COAT

This long setting / fast cure polyaspartic is a two-component coating designed to protect concrete floors, epoxies, metallics, and flakes by providing incredible UV protection, abrasion, and chemical resistance.

Recommended for areas with high risk of exposure to chemical spills, fuel, and heavy equipment. Rapid cure is ideal for commercial floors that require minimal downtime.

Sizes: 2 Gallon Kit
Finishes: High Gloss

Function	Top Coat
Carrier	Solvent
Solids	96%
Coverage*	500-800 ft²/gallon
Components	3
Thickness	2-3 mils WFT
VOC Level	95 g/L

MAX WEAR
URETHANE™ 960
HIGH SOLIDS TOP COAT

High solids, three-component urethane designed to be a tough, durable top coat for epoxy floor systems. Provides outstanding UV stability, incredible abrasion resistance while remaining durable and flexible. Recommended for high traffic areas such as industrial warehouses and auto repair shops.

Sizes: 1 Gallon Kit
Finishes: Satin
