Current (Max)(AMP)	7.9
Pad Speed (RPM)	165 rpm
Pad Size (IN)	16/17
Sound Level	66 dB
Drive System	Triple-planetary 11:1 Gears
Dust Port	N/A
Operation Method	Manual

DESCRIPTION

The Grind 17 is a cost-effective, dependable entry-level grinder built for basements, tight spaces, and smaller jobs—yet versatile enough to handle areas up to a two-car garage. Its compact design delivers excellent control where larger machines can't operate. Its innovative head and integrated dust pickup system capture debris at the source, while the 2" top-mounted port connects easily to standard vacuums for efficient dust control. Powered by a durable 180-frame TEFC dual-capacitor motor and a severe-duty 11:1 helical gear drive, the Grind 17 provides the strength, reliability, and performance contractors need to get the job done right.
