DESCRIPTION

The DF23 is a high-performance machine engineered for serious surface prep. Featuring a powerful motor and robust gear-driven transmission, it delivers exceptional grinding force and consistent results across concrete, stone, and epoxy floors. Its planetary design ensures smooth, even coverage, while the reverse function enhances versatility during tough jobs. Adjustable side weights allow for customizable head pressure, boosting efficiency on demanding surfaces. Designed with operator convenience in mind, it folds for compact storage, includes integrated LED lights for clear visibility, and is equipped with a dust-proof shroud for cleaner, safer operation.
