

HOW TO MEASURE YOUR RING SIZE

Before printing, ensure this guide is set to print at 100% scale and that you are printing on standard A4 paper (210mm x 297mm). If you are unsure as to whether you have printed the correct size, or if you are measuring on a screen, place a credit card on the guide.

OPTION 1

The easiest way to work out your ring size is to use an existing ring. Simply match the inside of the ring to one of the circles below. You should only be able to see the black circle inside of your ring and little to no white paper. If your ring fits between two sizes, we recommend taking the larger size.

OPTION 2

After you cut out the ruler, cut the line to create an opening. Wrap the ruler around your finger with the numbers visible. The number that appears closest to the opening is your ring size. Try moving the ruler across your knuckle, we recommend selecting a size that goes on and off your finger easily. Please note, ring size may vary slightly depending on the ring style.
