

Release notes for One PA 3.3.0

Availability

- All terminals (L5000, L3000, iWL250, iCT250, SPc5, SPg7)
- All markets (FI/SE/NO/DK)
- Standalone
- Baxi Ethernet integrated (Lane only)

Release highlights

- BankAxept contactless on Spire terminals
- BankAxept cashback on Spire terminals

Release description and purpose

This is the first One PA release for Norway for Spire, focusing on national features required to enter the Norwegian market. This is also the first release to feature contact and contactless Cashback, currently restricted to Norway and the BankAxept scheme only.

Release content

- Norway enablers (Spire)
 - The national payment scheme, BankAxept
 - BankAxept contactless
- Cashback (Spire)
 - BankAxept contact cashback
 - BankAxept contactless cashback
- Improved ECR integration features
 - Previous financial transaction result for integrated terminals
 - MS-TMS synchronization for ECR parameters
- Fraud prevention
 - Access code complexity requirements
- Important fixes
 - ID control is no longer asked for all Swedish transactions
 - Print offlines now correctly prints all stored transactions

Upgrading from earlier versions

- Version 3.0.1 needs to be upgraded to an intermediate version 3.0.3 before upgrading to 3.3.0
- Versions 3.0.3 and 3.2.0 can both be upgraded directly to 3.3.0

Known issues and limitations

- Memory leak in iCT250 might restrict heavy usage
