RELEASE NOTES

Npay Payment Terminals

Table of Contents

1. INTRODUCTION

The purpose of this release is to introduce improvements to the previous production version, 23.1.3. The production release version is 23.2.0.

The previous release included the following updates:

- Improvement for network status logging to Nexi gateway

- Resolution of incidents

    o Fix for JSONPOS Print handling for multi-part receipts (V3M2 Mobile)

    o Fix CVM on receipts

For information or questions regarding this release, please contact your local support team or Account Manager. For further information on the terminal range, please consult the user guides/quick guides on the Nets website.

The information shall not be used, published, or redistributed without the prior, written consent of Nets A/S.

This release is for:

› The Npay software
› Terminal models: V3M2 Mobile, V3P3 Cashier (Castles Technology)
