

Pacaso

Booking time equitably

Easy scheduling

Our innovative SmartStay™ system lets owners book stays from 2 days to 24 months out, in real time, with no fixed selection periods. And it's all at your fingertips, using the Pacaso app.

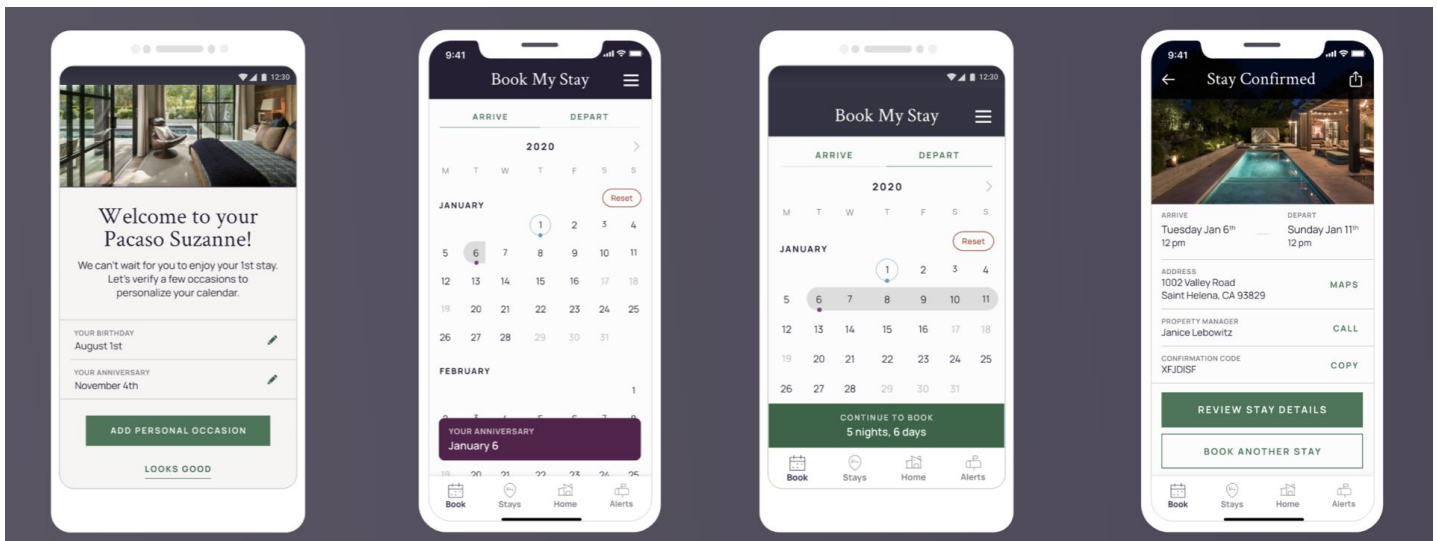

What do you get for your share?

	1/8 share	1/4 share	1/2 share
General stay holds	6	12	24+
Special date stays	1	2	4+
Max stay length	14 nights	28 nights	42 nights
Annual stay nights	44+	88+	176+

How scheduling works

The SmartStay system supports general and short-notice stays. As the owner of a single share, you have ongoing access to 44+ stay nights within any 365-day window.

- General stays are booked 8 days to 24 months in advance, and you can hold up to six at one time.
- Short-notice stays are booked 2-7 days in advance, and there's no limit on bookings.
- The duration of your stay can be from 2 to 14 nights. Stays of 2-7 nights count as one general stay, while stays of 8-14 nights count as two general stays.
- Using our SmartStay system, owners are guaranteed one "special date" holiday per share and can book up to 24 months in advance. So if you don't get a specific holiday this year, you can book it in the future.
