¶ Early adopter pricing is applied when a customer commits to subscribing before 31st January 2023. After this point standard pricing will be applied. Please note that standard payment terms apply. If you have any questions, or may struggle to commit before 31st January 2023, contact subscriptions@ems.press.

1) Individual subscription rates available on request from subscriptions@ems.press

2) P&P included

3) CHF, Individual and Member rates available on request from subscriptions@ems.press

4) Reduced rate available for Italian subscribers on request from subscriptions@ems.press

5) EMS Magazine is available in print upon request for EMS Members. Please contact subscriptions@ems.press

6) Each edition of MEMS will be counted as a discrete volume. Print volumes will be priced individually, and are available for purchase via <https://ems.press/mems>

Customers in Germany are advised that these prices are not VAT inclusive. VAT will be applied on invoicing.

Packages

EMS Essentials Package | From €1,365

The EMS Essentials Package offers subscribers the three flagship publications of the European Mathematical Society at a discounted bundle price. It is composed of *Journal of the European Mathematical Society*, *EMS Surveys in Mathematical Sciences*, and *Memoirs of the European Mathematical Society*, a newly-launched publication in 2022. The bundle represents 5,400 pages over 3 titles.

We now offer Multi-year package subscriptions, which give a discount for long-term commitment and fixed pricing for the

duration of the agreement. These are available on a 3 to 5 year basis.

EMS Essentials Package subscribers may also purchase printed copies of any title at 'deep discount' prices (DDP), calculated as the difference between a digital and print subscription per title. A detailed description of each title can be found on our journal pages at ems.press/journals.

EMS Journals Package | from €5,775

The EMS Journal Package is our comprehensive journal subscription deal, providing digital access to all of our journals including archive issues. The package offers a discount of €1,435 across our journals portfolio and represents more than 25,000 pages over 23 titles.

We now offer multi-year package subscriptions, which give a discount for long-term commitment and fixed pricing for the duration of the agreement. These are available on a 3

to 5 year basis. EMS Journal Package subscribers may also purchase printed copies of any title at 'deep discount' prices (DDP), calculated as the difference between a digital and print subscription per title.

A complete title list is provided in the price list and catalogue, and detailed descriptions of each title can be found at ems.press/journals.

EMS & MSP Joint Package | from €8,075 / \$8,485

EMS Press has teamed up with Mathematical Science Publishers to bring you a combined package offering the EMS Journals Package plus titles from the MSP Portfolio at a heavily discounted price.

MSP have introduced tiered pricing - more information about how the tiers are applied and why this decision was taken can

be found on the [MSP website](#). In addition, both publishers have introduced early adopter pricing for 2023. To find out more visit our [information for libraries](#) page.

A complete title list can be found in our journal catalogue, and detailed descriptions of each title can be found at ems.press/journals and msp.org.

All EMS Press package subscriptions - including DDP add-ons - can be ordered via subscriptions@ems.press or via your usual subscription agent. Please contact subscriptions@ems.press for all related enquiries.

Subscribe To Open

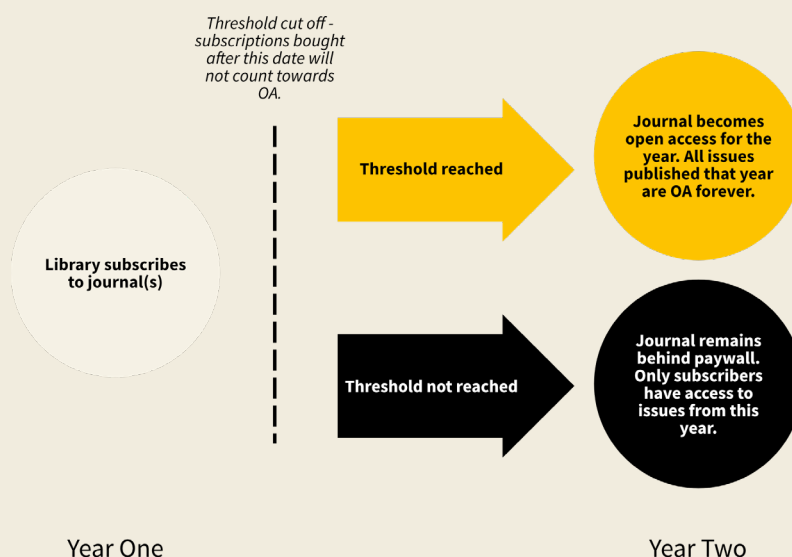

Subscribe To Open (S2O) is a sustainable and equitable model for open access. Institutions continue to subscribe to journals for the coming year, as they always have (with the usual subscriber benefits, such as archive and online-first access).

At the beginning of the new subscription year, if a journal has reached a sustainability threshold set by the Press, then that journal becomes open access for all issues published in that subscription year. If not then it remains behind a paywall and only subscribers have access. Where there is a funder requirement for open access EMS Press will publish articles under Green Open

Access, ensuring that the article is freely available regardless of the overall journal status.

The only way to guarantee access to any of the Press's journals is to subscribe, and doing so has the added effect of flipping titles to open access once a threshold is achieved, benefitting the whole mathematics research community.

Open access content provided through our S2O programme is done so under the CC-BY 4.0 license, and we have a comprehensive repository policy on our [website](#).

S2O has clear benefits for all participants in the publishing ecosystem:

For the subject librarian

- Retain control of budgets and collection;
- Administratively, subscriptions operate as before but now support OA;
- Guaranteed access to journal content when subscribing (including online-first and full archive), regardless of outcome.

For the researcher

- No APCs or other financial barriers to publication;
- Publish where you choose, not where your institution has a deal;
- Support an equitable system for all researchers based on relevance and quality, not cost.

Please contact info@ems.press if you have any questions about our Subscribe To Open programme.

Also from EMS Press

EMS eBooks Package 2023 | €9,115 (€900 renewal)

Purchase a full institution-wide, multi-user access licence for the entire EMS Press eBooks portfolio of more than 200 titles plus forthcoming 2023 titles with more than 40% discount on the total list price, at just €9,115 for first time subscribers. For those renewing the price is €900.

This includes DRM-free access to over 85,000 pages of high quality research, all fully downloadable as PDF files. We offer a number of library-friendly features including easily available metadata (XML, MARC and ONIX), perpetual access and no annual maintenance fees. All of our content is archived in CLOCKSS, and subscriptions are valid on a campus-wide basis with no restrictions on simultaneous downloads.

Print copies are available to eBook Package subscribers at discounted rates too; €9,115 for all books published 2004 to 2022, or just €500 for titles published in 2023, delivered at the point of publication, with approximately 10 new titles per year.

To purchase our eBooks package, renew your existing subscription, or enquire about adding print volumes please email EMS Press directly at subscriptions@ems.press, or enquire via your usual subscription agent. If you would like to subscribe for the current year - 2022 - please contact subscriptions@ems.press.

View the [complete EMS title list](#) online now.

Early Adopter Pricing Information

This year we are introducing “early adopter” pricing; if you commit to your subscription renewal or upgrade before 31st January 2023 then you will receive the lower price. Subscriptions received after 31st January will be billed at the higher rate. These pricing bands will be applied to all of our journals, including our journal packages. We have chosen to introduce this pricing system because, while we are limited in our options regarding

price rises this year, we would like to thank those subscribers who show clear support for our publishing and Subscribe to Open open access programme with this reward initiative. If you would like to commit but are concerned about payment please contact subscriptions@ems.press to discuss how we can best facilitate you.

For all subscription enquiries please contact subscriptions@ems.press.
