

EMS Press 2021 Price List

Journals

	Subscribe To Open	ISSN	eISSN	Volume Number	Issues	Pages (Approx)	Digital Price	Print plus Digital Price ^{1,2}
Algebraic Geometry (AG)		2313-1691	2214-2584	8	6	800	€0 ⁶	€200
Annales de l'Institut Henri Poincaré D (AIHPD)		2308-5827	2308-5835	8	4	600	€240	€300
Commentarii Mathematici Helvetici (CMH)		0010-2571	1420-8946	96	4	800	€330	€400
Elemente der Mathematik (EM)		0013-6018	1420-8962	76	4	180	€80	€90
EMS Surveys in Mathematical Sciences (EMSS)	✓	2308-2151	2308-216X	8	2	400	€200	€250
Groups, Geometry, and Dynamics (GGD)	✓	1661-7207	1661-7215	15	4	1500	€380	€440
Interfaces and Free Boundaries (IFB)	✓	1463-9963	1463-9971	23	4	500	€400	€440
Journal of Combinatorial Algebra (JCA)	✓	2415-6302	2415-6310	5	4	400	€200	€240
Journal of the European Mathematical Society (JEMS)	✓	1435-9855	1435-9863	23	12	4000	€900	€1,000
Journal of Fractal Geometry (JFG)	✓	2308-1309	2308-1317	8	4	400	€200	€240
Journal of Noncommutative Geometry (JNCG)	✓	1661-6952	1661-6960	15	4	1500	€340	€410
Journal of Spectral Theory (JST)	✓	1664-039X	1664-0403	11	4	2000	€400	€470
L'Enseignement Mathématique (LEM)		0013-8584	2309-4672	67	2	450	€200	€240
Mathematical Statistics and Learning (MSL)	✓	2520-2316	2520-2324	4	2	300	€180	€220
Oberwolfach Reports (OWR)		1660-8933	1660-8941	18	4	3200	€220	€310
Portugaliae Mathematica (PM)		0032-5155	1662-2758	78	4	300	€200	€250
Publications of the Research Institute for Mathematical Sciences (PRIMS)		0034-5318	1663-4926	57	4	1000	€310	€360
Quantum Topology (QT)	✓	1663-487X	1664-073X	12	4	800	€240	€300
Rendiconti Lincei - Matematica e Applicazioni (RLM)		1120-6330	1720-0768	32 (Series 9)	4	800	€250 ³	€300
Rendiconti del Seminario Matematico della Università di Padova (RSMUP)		0041-8994	2240-2926	145/146	-	500	€200	€240
Revista Matemática Iberoamericana (RMI)		0213-2230	2235-0616	37	6	2200	€470	€550
Zeitschrift für Analysis und ihre Anwendungen (ZAA)		0232-2064	1661-4354	40	4	500	€200	€240
Newsletter of the European Mathematical Society (NEWS)		1027-488X	-	-	4	220	€0 ⁴	€80 ⁵

1) P&P included

2) Individual subscriber rates available on request

3) Reduced rate available for Italian end customers

4) EMS Newsletter is available digitally free of charge

5) EMS Newsletter is included with EMS Membership

6) The digital edition of Algebraic Geometry is open access

Packages

The EMS Journals Package | €4,900

The EMS Package is our comprehensive journal subscription deal, offering digital access to all of our journals at a discounted rate. Purchased separately, this would cost €6,140 but package subscribers benefit from the lower price of **€4,900**.

As an EMS Package subscriber you can also purchase print copies of any title at a heavily discounted Deep Discount Price (DDP) - this is the difference between the Print plus Digital Price and the Digital Price. ems.press/info/packages

A full list of titles can be viewed on our website ems.press/info/packages

To purchase a package subscription, or to enquire about DDP purchases, please email EMS Press directly at subscriptions@ems.press, or enquire via your usual subscription agent.

The EMS eBooks Package | €5,790 (€900 renewal)

The entire EMS Press eBooks portfolio of more than 200 titles from 2004 onwards plus forthcoming 2021 titles is available to purchase with more than 50% discount on the total list price, at just **€5,790** for first time subscribers. For those renewing in 2021 the price is **€900**.

This includes DRM-free access to over 85,000 pages of high quality research, all fully downloadable as PDF files. We offer a number of library-friendly features including easily available metadata (XML, MARC and ONIX), perpetual access and no annual maintenance fees. All of our content is archived in CLOCKSS, and subscriptions are valid on a campus-wide basis with no restrictions on simultaneous downloads.

Print copies are available to eBook Package subscribers at discounted rates too; **€3,900** for all books published 2004 to 2020, or just **€500** for titles published in 2021, delivered at the point of publication.

To purchase our eBooks package, renew your existing subscription, or enquire about adding print volumes please email EMS Press directly at subscriptions@ems.press, or enquire via your usual subscription agent.

Our complete title list is available online at ems.press/books.

The EMS & MSP Joint Package | €6,395 / \$7,185

EMS Press has teamed up with Mathematical Science Publishers to bring you a combined package offering the EMS Journals Package plus titles from the MSP Portfolio at a heavily discounted price. Purchased separately, digital subscriptions to these journals would cost €9,245 / \$11,000 (USD), but we are able to offer a combined subscription price of just **€6,395 / \$7,185 (USD)**.

To purchase a joint package subscription, or to enquire about DDP purchases, please email either EMS Press or MSP directly at subscriptions@ems.press / contact@msp.org, or enquire via your usual subscription agent.

Full terms and conditions for all purchases and subscriptions are available at ems.press/info/libraries. All prices exclusive of VAT.

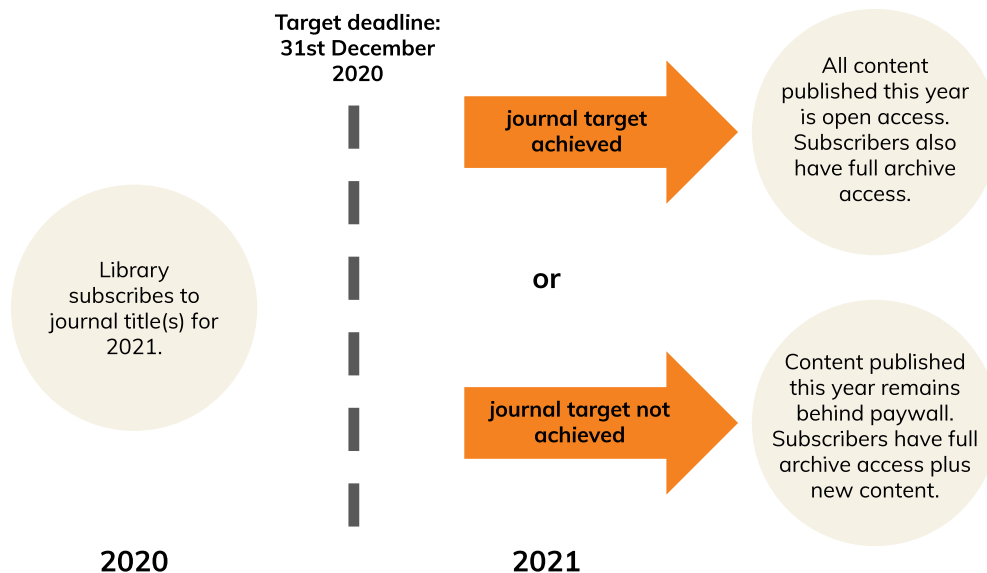

Subscribe To Open at EMS Press

Subscribe To Open (S2O) is the new open access (OA) business model of EMS Press.

S2O retains the familiar subscription framework; libraries subscribe to journals as they would usually and when a revenue target is achieved, the journal becomes open access for the subscription year. Where a researcher is required to published OA due to funding stipulations, we will publish as Green OA regardless of the journal's target or status.

We have 10 journals operating on this model for 2021 (see price list), and aim to have our complete portfolio as S2O within the next few years.

Why should I support S2O?

S2O is a model of open access that depends on community support, and supports the entire community in return. It is a symbiotic system in which the only way to guarantee access to our journals is by continuing to subscribe, and this is also the only sustainable way to support full and inclusive OA for our journals.

We believe that this model is the fairest for our community ensuring that the best research from all over the world can be published with us, without the barriers of complicated fee waiver systems, or expensive and complex read-and-publish deals.

All subscriptions continue to provide access to archive content of subscribed titles in perpetuity and ensure that our primary focus is always on publishing mathematical research of the highest standard.

Our mission is to serve the mathematics community through the publication of high-quality, accessible and open research.

Sitting at the heart of our community we strive for modern and inclusive publishing, with an emphasis on fairness and sustainability.
