## Cancel an item(s), or cancel whole order

To cancel an individual line from a multi-line order, simply click the red cross icon next to the line you'd like to remove. To cancel the whole order, click the 'cancel order' button to the right:

## Customer satisfaction survey

3 days after most orders have been dispatched, we invite our customers to complete a short online survey about their experience of using our website and their overall impression of dealing with us. Surveys should take no more than a couple of minutes to complete, yet will be really valuable in helping us improve our future quality of service.

**Sorry! A survey for this specific transaction is not yet available for completion. Please re-visit this page after 3 days when a link to our survey will appear automatically.**
