---

Hi [REDACTED] – just to say if it's specific expense data, it's more likely we'll need [REDACTED] to remove the entries from [REDACTED] as it's the less intrusive way to deal with it. We'll need [REDACTED] to support that.

The weekend panic suggested we'd be taking large swathes of content down, but we'll take a look if / when the request comes through.

Thanks, [REDACTED]

**Importance:** High

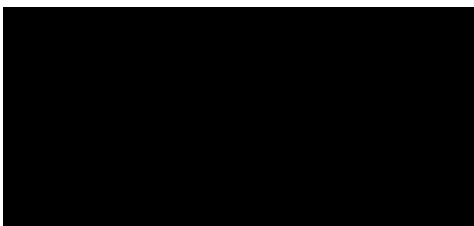

Hi all

Following the tragic events on Friday in Leigh-on-Sea we may be asked to [remove some of the data for Sir David Amess](#) from public view today.

At this stage we are waiting for this request to be made, but we thought it would be wise to get in touch to let you know this may be coming.

Would it be possible to let us know the actions needed to take down this specific set of data, and how quickly it could happen once the request is official?

Thanks very much
