

1st floor entrance lobby, wall B + elevator doors

Väriprofiili CoateFogra 39 (cmyk). 5 mm bleed.

Elevator doors

There are three customer elevators in the store. These have twelve (12) doors / ad surfaces towards the lobby, divided between four floors with three doors on each floor, and six (6) doors / ad surfaces inside the elevators, two inside each elevator.

The inside surfaces will each have the same ad, the outside surfaces can either all have the same ad or two alternating ones (this is preferred), as seen in the sample pictures.
