

TROJAN LITHIUM OnePack™

HIGH PERFORMANCE

BREAK FREE FROM THE ORDINARY.

Trojan's OnePack™ High Performance (HP) is engineered for the extraordinary. With a maximum continuous draw of 300 amps and a maximum instantaneous draw of 1,000 amps (0.2 seconds), HP offers more power for more speed, more torque, bigger hills, and more aftermarket additions, all at a safer 48 volts. At 171 Ah capacity, HP can carry passengers up to 75 miles* per charge without sacrificing performance. Your ride isn't ordinary, don't power it with an ordinary battery.

- Feel the power with a maximum continuous draw of 300 amps
- Climb bigger hills, carry heavier loads, and increase your top speed
- Explore aftermarket additions with the confidence that you can power them
- Feel the pure acceleration of a 1,000-amp capable battery
- Serious power for the serious carting enthusiast
- Maximum discharge of 750 amps at 2 seconds
- Serious power in a highly compatible package
- No installation of 72V (high voltage) components required
- Outperforms many 72V batteries
- Go fast, go hard or do both with a large 171 Ah Capacity with the High-Performance characteristics cart enthusiasts demand
- More Miles per charge offers flexibility for when you want to charge
- Range anxiety can be put to the wayside without sacrificing performance

DOWNLOAD THE APP NOW.

OnePack HP includes Bluetooth® connectivity to our Trojan SmartBattery® App that gives you the battery status on your smart phone.

Designed, tested, and final processing in the USA. Cells made in China.

WHICH ONEPACK IS RIGHT FOR YOU?

No matter the application or terrain, there's a OnePack to handle it.
