HydroLink Receives 2015 Sanitary Maintenance Distributor Choice Award

SANTA FE SPRINGS, Calif., June 17, 2015 – [HydroLink™](#) single-point battery watering system from [Trojan Battery](#) Co., LLC, has been selected as a 2015 Sanitary Maintenance Distributor Choice Award Winner by readers of [Sanitary Maintenance magazine](#).

The Sanitary Maintenance Distributor Choice Awards Program recognizes the most innovative and useful sanitary supply products of the year, as determined by sanitary supply distributors who voted in an online campaign. The voters are readers of Sanitary Maintenance magazine, which reaches 15,000 of every type of distributor active in the sanitary supply marketplace, including janitorial, paper, foodservice, industrial and wholesale. Winners are featured in the [June issue](#) of the magazine.

Trojan Battery's HydroLink™ watering system simplifies the task of maintaining flooded batteries, saving time and money. HydroLink can fill a set of batteries in less than 30 seconds, and features built-in water level indicators and automatic valve shut-off. The built-in independent water level indicator provides accurate readings of electrolyte levels, and the valve shut-off feature

controls electrolyte levels, automatically shutting off water flow eliminating potential overflow or acid splash caused by overfilling.

HydroLink also is equipped with dual flame arrestors, important safety features not standard on many watering systems. The internal flame arrestors prevent internal sparks from passing through the watering system to neighboring cells, while the external flame arrestor prevents external sparks from entering the battery.

“Trojan’s HydroLink watering system enables customers to maximize the performance and life of our deep-cycle flooded batteries by easing the task of routine battery watering,” said Elke Hirschman, vice president of marketing for Trojan Battery. “Trojan understands the importance of continually incorporating technology advances into its deep-cycle battery designs to make floor machine ownership and operation more productive and cost effective. Trojan’s HydroLink ensures maximum productivity and worry-free operation of equipment on the job site.”

About Trojan Battery Company

Trojan Battery is the world’s leading manufacturer of deep-cycle batteries and a battery technology pioneer, having built the first golf car battery in 1952. Trojan batteries provide power for a wide variety of applications that require deep-cycle battery performance, including aerial work platform, floor cleaning equipment, golf and utility vehicles, marine/RV, material handling, oil/gas and renewable energy.

Founded in 1925, the company is ISO 9001:2008 certified with operations in California and Georgia, and maintains two of the largest and most extensive research and development centers in North America dedicated to engineering new and advanced battery technology.
