Designed, tested, and final processing in the USA. Cells made in China.

NUMBER OF BATTERIES NEEDED

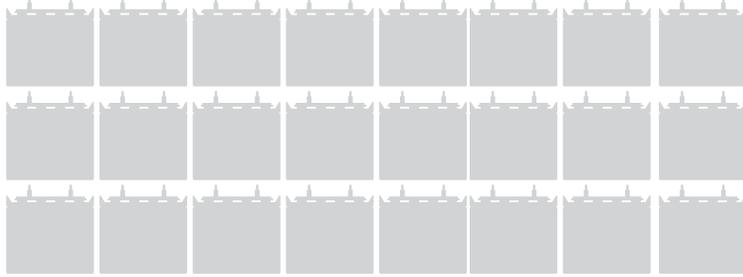

(IN ONE VEHICLE, OVER 10 YEARS)

TROJAN LITHIUM
ONEPACK

(\$\$)

VS.

FLOODED LEAD ACID (\$\$\$\$)

*You only need one Trojan Lithium OnePack battery vs. six (8V) flooded lead acid in a 48V vehicle.
Over ten years that equals one lithium-ion battery versus 24 lead acid batteries.***

TROJAN LITHIUM ONEPACK BUNDLE

Trojan offers complete bundles to get you powered up fast. Bundle includes***:

- Trojan Lithium OnePack Battery (48V, 105Ah)
- Dashboard Gauge Kit & Power Button
- Trojan Standard Fan Charger
- Battery Mounting Bracket Kit

WHY TROJAN?

For over a 100 years, we have helped shape deep-cycle battery technology. We offer:

- A complete range of premium deep-cycle flooded lead acid, Trojan AES AGM, and lithium-ion batteries
- An expert Technical Support Team
- A worldwide network of Master Distributors and Authorized Trojan Dealers

Scan for the Charger Compatibility Guide. Consult your Trojan Authorized Dealer for charger algorithm updates and support.

Visit trojanbattery.com to learn more and find your local Trojan Authorized Dealer.

- * Front Page: Actual driving range will vary depending on factors including, but not limited to, temperature, load, terrain, and equipment.
** Back Page: Based on a 2-person low speed vehicle with standard stock motor controller. Assuming the need to replace lead acid batteries four times over ten years.

MYTH Lithium-ion batteries are too expensive.

TRUTH It's true the upfront costs of lithium-ion are higher than traditional batteries. However, the cost over their 10-year lifetime should be less.

HOW Trojan Lithium-ion batteries last ten years, eliminating 4-5 lead acid replacements. Plus, you need less lithium-ion batteries in each vehicle.
