OVERVIEW

The Manual is intended to serve as a practical guide for the Board and Management in fulfilling their respective roles and responsibilities in an effective manner.

The governance framework in this Manual defines the roles, responsibilities and processes for accountability at the Board and Management levels of the Corporation.

The Board assumes responsibility for the Corporation's governance practices and ensures they meet the needs of the Government, the Corporation, and the public.

The Corporate Secretary serves as the primary source of governance expertise to the Board and Management, and is responsible for promoting strong corporate governance practices throughout the Corporation.

The Governance and Technology Committee reviews this Manual on an annual basis and makes recommendations to the Board when appropriate.

The framework described in the Manual reflects the Corporation's governance structure in effect as at the date of writing.

The Corporation's governance practices outlined in this Manual take into consideration the [Best Practice Guidelines – BC Governance and Disclosure Guidelines for Governing Board of Public Sector Organizations](#) (2005, Board Resourcing and Development Office).

BOARD GOVERNANCE GUIDELINES

INTRODUCTION

The Board Governance Guidelines (the “Guidelines”) outline how the Board will operate to carry out its duties of stewardship and accountability, and supplement the governance practices in the Manual and the By-Law. The Guidelines are for the benefit of the Board and Management, and such employees as may be delegated from time to time to support the operation of the Board and its Committees.

1. Legislative Authority

ICBC is a Crown corporation continued under the *Insurance Corporation Act*, RSBC 1996, c. 228. The Corporation operates and administers a plan of automobile insurance as established under the *Insurance (Vehicle) Act*, RSBC 1996, c. 231 and, as required by legislation, reports the revenues and expenses attributable to that plan separately from other operations of the Corporation. In addition to providing Basic vehicle insurance, ICBC offers various Optional vehicle insurance coverages.

2. Government Mandate Letter

The Mandate Letter is signed by the Board and the Minister. It is an agreement between the Corporation and the Minister and confirms their shared understanding of the corporate mandate, public policy issues, strategic priorities, respective expectations and performance deliverables.

3. Board Relationship with Minister

The Board Chair is the Board’s principal contact with the Minister. The Board Chair should be in regular contact with the Minister, by both phone and in-person meetings. These meetings are an opportunity for the Board Chair to advise the Minister regarding important strategic and other considerations of relevance to the Corporation’s business, and for the Minister to inform the Board of evolving priorities and issues of concern to the Government that might affect the Corporation.

4. Best Interests of the Corporation

Although Directors are appointed to the Board to bring specialized expertise or a point of view to Board deliberations, the best interests of the Corporation are paramount at all times. The Board recognizes certain challenges that may arise in balancing ICBC’s commercial interests with the public policy mandate assigned to it by the Government.

5. Communications

The Board Chair and the CEO act as the primary spokespersons for ICBC and its subsidiaries.

The Board recognizes the need for the Board Chair and the CEO to have regular meetings and communications with the Minister and other senior Government officials. The Board Chair and the CEO are expected to keep the Board informed on key matters from meetings

BOARD GOVERNANCE GUIDELINES

and communications with the Minister and senior officials. The Board Chair and the CEO will keep the Board apprised of emerging public policy issues that are of major strategic importance and provide advice on how the Corporation may respond on these matters.

It is expected that the Government and the public will occasionally communicate their concerns and questions to Directors rather than to Management. It is important that Directors inform the Board Chair, CEO and/or Corporate Secretary of such communications, so that the Corporation can respond properly and accurately.

Directors may be approached directly to speak publicly about ICBC. In all cases, Directors are asked to inform the Board Chair. The Corporate Secretary, on behalf of the Board Chair, is responsible for ensuring that Director communication activities are properly coordinated and that Directors are provided with full assistance in preparing and making any public statements or presentations.

6. Corporate Policies and Strategy

The Board has overall responsibility of managing the Corporation's affairs.

The Board is responsible for setting major corporate policies and for monitoring compliance with such policies. The Board provides direction to Management, who is responsible for the day-to-day conduct of business.

Development and implementation of corporate strategy is a continuous, iterative process. Management is responsible for the development of an overall corporate business strategy to be presented to the Board. The Board's role is to: ensure there is a strategic and business planning process; become engaged in the process; review, question, validate and ultimately endorse the strategy for the Corporation; and monitor performance. In preparing for strategic planning sessions, Directors will be consulted on areas of strategic importance and matters for discussion. The Strategic Planning Process is outlined in Tab 2.5.

7. Top Corporate Risks

The Board should have a continuing understanding of the top corporate financial and non-financial risks associated with the Corporation's objectives. It is Management's responsibility to ensure the Board and its Committees are kept well informed of changing risks. The principal mechanisms through which the Board reviews risks are the strategic planning process, updates from the Committees and ongoing reports to the Board.

8. Spending and Payment Authority

Once the Board approves the Financial Plan, the CEO empowers Management to incur expenditures within the parameters established by their departmental or divisional budgets. These parameters are outlined in the [Spending and Payment Authority Policy](#).

BOARD GOVERNANCE GUIDELINES

9. Internal Controls and Management Information Systems

Integral to the Board's overall responsibilities is the existence of control systems. A balance has to be achieved between imposing controls that give the Board reasonable assurance that its responsibilities are being discharged, and avoiding the creation of an unnecessarily bureaucratic and costly system of controls. Through the CEO, Management will establish systems to ensure that appropriate internal controls are in place for the Corporation.

10. The Board Chair and the Vice Chair/Lead Director

The preference under most circumstances is that the CEO and Board Chair roles be separated. The Board may, from time to time, decide that it is appropriate for the CEO and Board Chair roles to be combined.

The Board may appoint a Vice Chair at any time. Where the position of the Board Chair and CEO are held by the same individual, the Board must appoint a Vice Chair/Lead Director with specific responsibilities that reinforce the Board's ability to function independently.

The Vice Chair/Lead Director provides leadership in guiding the Board and coordinating its activities in the absence of the Board Chair. In the event that the Board Chair is incapacitated, the Vice Chair/Lead Director assumes all duties and obligations of the Board Chair. At the request of the Board Chair, the Vice Chair/Lead Director may represent the Corporation at public gatherings and serve as a spokesperson for ICBC.

11. Board Committees

Board Committees permit deeper examination of issues than could reasonably be given by the full Board. The role of each Committee is to support, not supplant, Board responsibility.

The Board has developed a set of guidelines that apply to all Committees (Tab 4.1). Each Committee operates according to a Board-approved mandate outlining its duties and responsibilities. The established Board Committees are: Audit Committee; Human Resources and Compensation Committee; Investment Committee; Governance and Technology Committee; and Operations and Planning Committee.

12. Board Relations with Management

Board policies and guidelines shall be made available to Management. Directors may direct questions or concerns regarding Management performance to the Board Chair and CEO, or raise them at Board and Committee meetings.

The Board and Management must work at developing a sense of trust and confidence in each other's abilities and performance. There must be a clear understanding and respect for the roles, responsibilities and expectations between the Board and Management.

BOARD GOVERNANCE GUIDELINES

Directors must respect the organizational structure of Management. As a rule, a Director has no authority to direct staff. An exception to this would involve the unique roles of members of the Audit Committee, who may have occasion to provide direction to the Internal Auditor. A Director's request for information must be coordinated through the CEO or Corporate Secretary.

13. Information Flow to the Board

The Board requires clear, consistent and reliable information and analysis that is focused on the key strategies and critical issues facing the Corporation. The type, quality and timing of information are critical to achieving good governance at ICBC.

The Board will receive regular reports from Management that provide appropriate information on the measured performance against the annual and multi-year financial, services and capital plans. Information that enables the Board to fulfill its decision-making and oversight responsibilities will be based on identified key performance measures that are directly linked to the Corporation's strategic objectives.

The Board and Management will agree on the type, the form, the extent and the regularity of information that will allow Directors to assess the Corporation's performance against its strategic and operational plans.

14. Board Meetings, Agendas and Minutes

The date, time and place of a regular meeting of the Board shall be fixed and written notice shall be provided at least three (3) business days in advance of the meeting. The Board Chair and CEO, in consultation with the Corporate Secretary, will develop and issue the agenda for each Board meeting.

The agenda of such meetings shall generally be distributed not less than five (5) business days in advance but, in special circumstances, not less than 24 hours in advance. Management shall submit to the Board Chair notice and an outline of all agenda items it intends to bring forward, at least 10 days in advance. All Directors are permitted to suggest additions to the agenda.

The Board Chair shall be provided with the draft minutes of each meeting of the Board within 14 calendar days of its occurrence and the Directors shall be provided with the draft minutes of the previous meeting at the next Board meeting. The approved minutes serve as the official record of the Board meeting.

15. Material for Board and Committee Meetings

Material distributed to Directors in advance of Board and Committee meetings should be concise, yet complete, and prepared in a way that focuses attention on critical issues to be considered and provides details needed for the decisions requested.

BOARD GOVERNANCE GUIDELINES

Material assembled in support of meetings will be coordinated by the Corporate Secretary who will use best efforts to distribute them with the meeting agenda, not less than five (5) business days prior to the meeting.

All material submitted for consideration by the Board or by a Committee becomes part of the record of the Board, and shall be deposited with the Corporate Secretary's Office for maintenance, safekeeping and access. Official Board and Committee minutes will be maintained by the Corporate Secretary in accordance with the [Board of Directors and Committees of the Board Vital Records Safekeeping Policy](#).

Reports may be presented during meetings by Directors, Management, staff, and invited outside advisors. Presentations should be designed to maximize the time available for questions from the Directors and discussion. Presenters should briefly summarize the matter, identifying the significant issues, impacts and principal decisions required. Presenters should then engage the Board or Committee in discussion.

Matters that are brought to the Board for a decision will be in a format and at a level and type of information that enables the Board to make a decision. The Board and Management will agree on the format of information required for the Board to make a decision.

In limited cases, due to the confidential nature of matters to be discussed, written materials may not be provided in advance of a meeting. These confidential materials will be provided at the appropriate Board or Committee meeting, and will be made available to the Corporate Secretary's Office for inclusion as part of the official record of the Board.

16. Board and Committee Deliberations and Confidentiality

Directors and Management will respect that the official record of the Board's or Committee's deliberations is provided through the approved minutes of the meeting. The views and opinions of individual Directors or Managers shall be treated with respect and confidence.

17. Board and Committee Meetings without Management

The last agenda item at each Board and Committee meeting shall be an in-camera session in respect of which the CEO, Corporate Secretary, Management, Management Directors and any staff in attendance shall withdraw.

Any issues arising in these sessions that bear on the relationship between the Board and Management should be communicated quickly and directly by the Board Chair to the CEO. In absence of the Board Chair, or if the same person is serving as both the Board Chair and CEO, this should be done by the Vice Chair/Lead Director.

BOARD GOVERNANCE GUIDELINES

18. Non-Directors at Board and Committee Meetings

The Board appreciates the value of having members of Management attend Board and Committee meetings to provide information and opinions to assist the Directors in their deliberations.

The Board, through the Board Chair and the CEO, will determine Management attendees at Board meetings. For issues which fall within the terms of reference of a Committee, a Committee Chair may also recommend Management attendees to the Board Chair.

No third party shall attend or table material at the Board without prior approval of the Board Chair and, in the case of Committee meetings, the Committee Chair.

19. Outside Advisors for Committees and Directors

Occasionally, a Committee or a Director may require the services of a consultant or an advisor to assist with matters involving their responsibilities. A Committee or Director who wishes to engage an outside advisor at the expense of the Corporation must first obtain the authorization of the Board Chair or the Vice Chair/Lead Director, in either case in consultation with the CEO.

20. Director Recruitment, Selection and Appointment

Directors are appointed under the *Insurance Corporation Act*. The Act sets the minimum size of the Board to be three (3) members appointed by the Lieutenant Governor in Council. The Government sets the actual Board size through the appointment process.

The Board annually reviews the skills, experience, and diversity of the Board. From time to time, the Board may make recommendations to the Government as to the different skills, experiences and backgrounds that would assist the Board. The Board may also develop a list of suitable candidates to be considered for appointment.

The Board Chair has the responsibility to encourage the Government to consider the needs of the Corporation when making its appointments. The Board Chair may communicate the criteria, if any, developed by the Board, and provide a list of candidates for appointment.

21. Term of Service

Directors serve at the pleasure of the Lieutenant Governor in Council.

Directors are appointed for an initial term and eligible for reappointments, for a total of six (6) years of service. In exceptional circumstances, it may be appropriate that Directors serve for more than six (6) years.

BOARD GOVERNANCE GUIDELINES

22. Compensation and Expenses

Director compensation and expenses are paid in accordance with the [Remuneration Guidelines for Appointees to Ministry and Crown Agency Boards](#) (Treasury Board Directive 2/24). Details regarding Director compensation and expenses are set out in the [Director Compensation and Expense Guidelines](#).

23. Board Governance Guidelines Review

The Governance and Technology Committee annually reviews these Guidelines and recommends any changes to the Board for approval.

- (a) written signature; or
- (b) electronically verifiable means

by all the directors or by all of the members of a committee is as valid as if it had been passed at a duly called and held meeting of the directors or committee, as the case may be. A consent resolution may be in counterparts, each of which when executed and delivered (by signed document, fax, or electronically verifiable means) is deemed to be an original, and all of which together constitute one consent resolution.

DIRECTOR ORIENTATION AND DEVELOPMENT PROGRAM

I. INTRODUCTION

The Board, with the assistance of Management, ensures there is an orientation program for new Directors and a development program for existing Directors.

II. NEW DIRECTOR ORIENTATION

The orientation program is aimed at increasing new Directors' familiarity with the Corporation. It is designed to equip Directors with sufficient information and resources to ensure they are fully informed to make decisions and discharged their responsibilities.

The orientation program educates Directors on the Corporation's business, operations, finances, current issues and strategies, conflicts of interest, corporate governance framework and the Government expectations.

Every new Director will participate in the orientation. The orientation will be coordinated by the Corporate Secretary and will involve the Board Chair, Committee Chairs as required, the CEO, the Chief Financial Officer and other members of Management.

The orientation will be comprised of the following three stages:

1. Upon appointment – delivery of letter of introduction and fundamental Board materials;
2. Within one month of appointment – initial orientation; and
3. Within six months of appointment – detailed orientation.

The Corporate Secretary will ensure the Board Chair and the CEO are apprised of all contact with the new Director and will also facilitate engagement with the Board Chair and the CEO.

1. Upon appointment

Upon notification of appointment, the Corporate Secretary will immediately contact the new Director. The Corporate Secretary will deliver the fundamental Board materials to the new Director.

A sample of the draft letter to the new Directors and an index of the information included, are accessible on the online Board portal.

DIRECTOR ORIENTATION AND DEVELOPMENT PROGRAM

2. Within one month of appointment

An initial orientation will occur shortly after appointment and preferably before the new Director's first Board meeting.

The purpose of the initial orientation is to address the functional/housekeeping matters relating to directorship, and to meet with the CEO and Corporate Secretary.

The new Director will be provided the opportunity to receive a tour of ICBC's Head Office and arrangements will be made to set up electronic devices and access to Board materials.

3. Within six months of appointment

A detailed orientation will commence within the first month of appointment and be completed within six months.

The Corporate Secretary will work with the new Director to arrange meetings with Management and the other Directors.

The detailed orientation will provide in-depth briefings on the Corporation's business, including its operations, finances, strategies and current issues. It will also include a half day education session on ICBC's business and at least one visit to a claims facility and a driver licensing operations facility. Additional orientation can be arranged at the request of the Director.

An outline of the orientation for new Directors can be found at Attachment "A". Supporting materials for the orientation can be found under Orientation Materials on the online Board portal.

Ongoing development activities focus on informing Directors on issues of strategic importance to the Corporation, and will take place periodically. The sessions may be scheduled separately from regular Board and Committee meetings.

The Governance and Technology Committee is responsible for identifying the educational and training needs of the Board. The Committee continually looks for opportunities to ensure that the Directors have the knowledge and skills necessary to meet their obligations to the Corporation.

At the same time, individual Directors have a responsibility to advise the Board Chair or Chair of the Governance and Technology Committee if they or the Board would benefit from specific skills training or education respecting matters falling within the responsibility of the Board or relating to the business and operations of the Corporation.

TERMS OF REFERENCE FOR THE MANAGEMENT PENSION PLAN COMMITTEE

I. INTRODUCTION

ICBC is the sponsor of the ICBC Pension Plan for Management and Confidential Employees (the "Plan") and has established and maintained a trust fund in respect of the Plan (the "Fund"). ICBC performs and exercises in connection with the Plan all roles and authorities of a sponsor of a pension plan, including the power to amend or terminate the Plan and the responsibility to ensure that the Plan is funded to a level that secures all promised benefits under the Plan.

For pension legislation purposes, ICBC is also the "administrator" of the Plan and the Fund. As administrator, it is responsible for administering the Plan in accordance with its terms and all applicable legislation, including, among other things, ensuring contributions are made, submitting regulatory filings, enrolling employees, communicating to members, investing the Fund, and paying benefits.

ICBC's dual role as both "sponsor" and "administrator" of the Plan is expressly permitted by British Columbia's *Pension Benefits Standards Act* ("PBSA"), but creates a situation where ICBC's duty under the PBSA to act in the best interest of Plan members, former members and other beneficiaries of the Plan may conflict with ICBC's interests. Decisions involving or affecting a statutory power, duty or responsibility of ICBC as the Plan's administrator may result in conflicting duties.

The Board has established the Management Pension Plan Committee (the "Committee"), a committee of senior management employees of ICBC. The Board has delegated to the Committee, as provided in these Terms of Reference, certain duties required to be done by ICBC, in its capacity as the administrator of the Plan and in its capacity as sponsor of the Plan.

The Board has also established the Management Pension Employee Advisory Council ("MPEAC") as a forum for communication and feedback between ICBC, Management and Plan members. The MPEAC is not a decision-making body and does not report to the Committee.

I. PURPOSE

The purpose of the Committee is to take steps in the name of ICBC in overseeing the administration, operation, and financial reporting of the Plan and the Fund. The Committee is responsible for reporting to the Board in respect of the administrative aspects of the Plan, compliance with Plan documents and applicable legislation, and any concerns it may have in respect of the administration and operation of the Plan.

TERMS OF REFERENCE FOR THE MANAGEMENT PENSION PLAN COMMITTEE

II. COMPOSITION

The Committee consists of five or more senior management employees, ideally with representation from the Corporation's investment, finance, legal and human resources groups. Committee members are appointed by the Board on the recommendation of the CEO.

Members of the Committee serve at the pleasure of the Board unless they have been appointed to serve for a specified term.

Despite the foregoing, in the event that at any time the Committee has fewer than five members, the CEO may appoint to the Committee such number of individuals as may bring the complement of the Committee up to five, each of whom shall serve as members of the Committee until the Board next addresses the Committee's composition.

III. MEETINGS

The Committee will meet at least once in respect of each quarter and at any other time at the call of any member of the Committee.

Notice of each meeting shall be given to each member of the Committee not less than 24 hours in advance of the meeting. A Committee member may waive notice of any meeting.

If the member of management responsible for pension plan administration is not a member of the Committee, they, or their designate, shall nevertheless be entitled to be given notice of and attend all Committee meetings.

The senior member of human resources management on the Committee from time to time shall serve as the chair of the Committee. In the absence of that person from a meeting, the Committee members present shall select from their number a chair for that meeting. For greater certainty, a member of management responsible for pension plan administration may be selected to act as chair, even if not a member of the Committee.

A quorum for a meeting shall be a majority of Committee members.

The Committee shall keep minutes of its meetings. The minutes will include all decisions of the Committee and the factors which the Committee may have considered in reaching such decisions.

Each Committee member shall have one vote. The Committee shall decide matters by majority vote.

TERMS OF REFERENCE FOR THE MANAGEMENT PENSION PLAN COMMITTEE

The Committee may invite from time to time such persons as it sees fit to attend meetings and take part in discussions.

IV. DUTIES AND RESPONSIBILITIES

TERMS OF REFERENCE FOR THE MANAGEMENT PENSION PLAN COMMITTEE

SUCCESSION PLANNING PROCESS

GENERAL

The Board has two primary accountabilities regarding a succession plan for senior executive positions in the Corporation and its subsidiaries:

- a) The Board is accountable to identify and develop successors for the CEO position; and
- b) The Board is accountable to ensure that the CEO has a process to identify and develop successors for the executive positions that report to the CEO.

With an effective succession plan that encompasses the CEO position, along with the executive positions that report to the CEO, the Board ensures that the business plan and strategy can be executed with continuity and without significant risk should a Management position become vacant.

RESPONSIBILITIES OF THE BOARD

On an annual basis the Board will review the succession plan for the CEO position, and the senior executive positions.

With respect to the CEO position, the Board will consider the skills, experience, and attributes required for the position against an assessment of these same factors of potential successors in order to assess the readiness of potential successors to assume the position. The Board will identify any development experiences necessary to increase the readiness of candidates for the position. In conjunction with the CEO, the Board will affect the identified development experiences.

With respect to the executive positions that report to the CEO, including the executive of the subsidiaries, the Human Resources and Compensation Committee (the "Committee") of the Board will review the CEO's recommendation on successors, on the readiness of successors, and on the required development plans for potential successors. The Committee is responsible to endorse the plan, or to direct the CEO to adapt the plan until the Committee is in a position to endorse the plan. The Committee is responsible to advise the Board that they have a succession plan in place which they have endorsed. The Committee will report to the Board on this matter at least once each year.

PROCESS

The following are the steps for the CEO succession planning process:

- 1) The Committee should complete a review of the role of the CEO. The review should take into account the strategic imperatives of the Corporation, and the necessary leadership, business acumen, technical knowledge and experience necessary to lead such a mission. Attention should be paid to future deliverables sought by the Board as well as the competitive landscape. The product of the review would be the CEO role profile and candidate attributes sought by the Board.

SUCCESSION PLANNING PROCESS

- 2) Candidates should be identified based on their close comparability to the CEO profile, their ability to meet development challenges in the short-term, their perceived drive and interest in the CEO role as well as their willingness to take on development challenges to complete their preparation for the advancement. This assessment is of the long-term potential of the candidate, not focused on the most recent annual results. The Committee and the CEO will discuss suggested candidates who might have the potential to succeed as CEO.
- 3) From the internal talent pool, two separate pools of high potential CEO successors should be identified. The first group would consist of short-term (under two years) succession candidates and the other long-term (two to five years) succession candidates, if any can be identified. The development challenges of each should be closely reviewed by the Committee and the CEO. Beyond observation of work performance and the CEO and Division Lead's estimate of potential for advancement, the Committee and the CEO should rely on real business results delivered by the candidate, as well as, on the results of psychometric assessments, annual 360° review reports, individual annual performance management approvals and the results of annual development plans.
- 4) A specific development plan should be put in place for each candidate. The plan should be measurable and answer development challenges. The candidate should have input into the development plan, and the resources necessary (particularly time) should be allotted. Development plans will likely be dominated by real work experience opportunities rather than focus on formal learning. Outside coaching and consulting can play a role as well.
- 5) Once the Committee and CEO have reached agreement on the short-term candidate list, the CEO should meet with each short-term candidate to ascertain their: 1) interest and ambition they have in the CEO role; 2) their willingness to take on additional assignments and responsibilities to develop in areas in which they are challenged; and 3) their acceptance of added scrutiny by the Board on their work performance.
- 6) For long-term candidates, the CEO should meet with each to ascertain their: 1) interest and ambition they have in the CEO role; 2) their willingness to take on additional assignments and responsibilities to develop in areas in which they are challenged; and 3) their acceptance of added scrutiny by the Board on their work performance. Long-term CEO candidates will be preferred over other candidates when major development opportunities become available.
- 7) The Committee and the CEO should review the progress of short-term candidates and long-term candidates annually. These reviews should focus on the candidate's development plan progress, and should include the results of discussions between the CEO and the candidate. The Committee should be aware of the candidate's annual performance plan progress. An unsatisfactory annual performance result should not automatically mean that the candidate's high potential status is lost, but it will occasion a greater examination of the cause of the performance setback, and any linkage to the candidate's potential for further role enrichment and advancement.

SUCCESSION PLANNING PROCESS

- 8) To augment its review of internal talent, the Committee should retain an external search firm to conduct a market review of potential external CEO candidates to provide a rough benchmark for comparison to internal candidates and to pre-determine target candidates in the event that internal succession fails.
- 9) Added goals and stretch targets should be part of the candidate's development plan. ICBC should also consider providing increased incentive rewards for successor candidates that meet development goals. This will both provide an incentive to the employee, but will also serve as a retention device.
- 10) A report should be prepared for the Board by the Committee and the CEO about the progress of succession planning. The Committee and the CEO should be able to explain the relative progress of candidates.
- 11) The Committee and the CEO should create ways for talent to develop by having a clear understanding of the career interests of all senior executives.
- 12) The Committee and CEO should find ways to increase the visibility and interaction between Board members and potential CEO candidates. The social distance should be reduced between short-term candidates and the Board, and opportunities should be created to allow short- and long-term candidates to make presentations to the Board and be involved in strategy level discussions with the Board.

SUBSIDIARY COMPANIES MANDATE AND REPORTING REQUIREMENTS

I. INTRODUCTION

ICBC creates wholly owned subsidiary companies from time to time to accomplish specific objectives or tasks. While it is recognized that these subsidiaries have a separate board of directors and management, for governance purposes, the subsidiaries are treated as if they were divisions of ICBC. These requirements are not applicable to subsidiary companies which are created within ICBC investment portfolio as holding companies for real property.

II. MANDATE

Subsidiaries are accountable to ICBC in the following ways:

- A. ICBC appoints the board of directors of the subsidiary. The ICBC Board has determined that a majority of the subsidiary board members will be either ICBC Directors or members of ICBC senior management.
- B. The president of the subsidiary is appointed to that position by the subsidiary board of directors. Although the president of the subsidiary reports directly to the subsidiary board of directors, the subsidiary president has a reporting relationship to the ICBC CEO or delegate.
- C. The ICBC CEO has the responsibility to ensure that subsidiary companies' strategies and performance are reported to the ICBC Board.
- D. The ICBC Board monitors each subsidiary company's performance and, when required, provides direction to the subsidiary board of directors on matters of corporate business strategy.
- E. Each subsidiary will be reviewed on an annual basis to determine the status of the strategic direction that has been approved by the subsidiary and the ICBC Board.
- F. ICBC's governance and corporate policies also apply to its subsidiaries and their subsidiaries. In some instances, due to the unique requirements of a particular subsidiary, a special governance protocol may exist between a subsidiary company and ICBC; however, it in no way substitutes or replaces these guidelines.
- G. The subsidiaries are governed by British Columbia's *Business Corporations Act* or the equivalent companies legislation in effect in the jurisdiction in which the subsidiary in question is incorporated (the "Act") and their own Articles of Incorporation or equivalent constating documents ("Articles"). Except where inconsistent with the Act and Articles, the Terms of Reference and guidelines for ICBC's Board, Board Chair, and CEO apply to the board of directors and CEOs of the subsidiaries where applicable.

SUBSIDIARY COMPANIES MANDATE AND REPORTING REQUIREMENTS

III. REPORTING REQUIREMENTS

In addition to the reporting relationship between the subsidiary president and the ICBC CEO or delegate:

- A. Subsidiary board of directors generally meet quarterly, except where business needs necessitate additional meetings. When requested, minutes of subsidiary board of directors will be provided to the ICBC Board so that significant items dealt with by the subsidiary can be reviewed, ratified or approved as necessary.
- B. Each subsidiary will present reports to the ICBC Board when called upon by the ICBC Board to do so. In addition, the subsidiary president submits operational and project status reports to the ICBC CEO or delegate at such intervals as the ICBC CEO directs, and to the ICBC Board when called upon to do so.
- C. The subsidiary president will review proposed officer appointments with ICBC CEO, prior to making a recommendation to the subsidiary board of directors.
- D. Subsidiaries will submit their audited financial statements to their board of directors for review and approval by the end of February in each year. Following approval, the subsidiary corporate secretary will ensure that the balance sheet is signed by the subsidiary directors and that all necessary corporate filings are made and a copy forwarded to ICBC's Office of the Corporate Secretary for review and approval by the ICBC Board.
- E. The president of the subsidiary will report monthly to ICBC's Chief Financial Officer on the subsidiary's financial performance against its approved annual business plan.

FINANCIAL REPORTING REQUIREMENTS

The Board and Management are accountable for the Corporation's performance to the Legislative Assembly through the Minister. Corporate accountability will be achieved primarily through the development of plans and budgets, and timely reporting of financial and operational performance results to the Board, the Government, and the BC Utilities Commission ("BCUC"). The following legislation sets out ICBC's reporting requirements:

A. *Insurance Corporation Act*

ICBC must annually prepare and provide to the Minister for the preceding fiscal year:

- i. A report on the Corporation's operations;
- ii. A financial statement showing the Corporation's operations, assets and liabilities at the end of the year. The financial statement must show the optional insurance business separately from the rest of the Corporation's business;
- iii. A report, prepared by an actuary who is not an employee of the Corporation, as to whether the Corporation's Optional automobile insurance policy liabilities have been valued in accordance with accepted actuarial principles; and
- iv. A report, prepared by an accountant who is not an employee of the Corporation, as to whether:
 - a. The Corporation's Optional automobile insurance costs have been attributed to Optional automobile insurance in accordance with generally accepted accounting principles and in compliance with section 49, which prohibits subsidization of Optional insurance products with Basic premiums and any orders made by the BCUC under that section; and
 - b. The Corporation's Basic insurance costs and its non-insurance costs related to driver and vehicle licensing and road safety have been attributed to Basic insurance in accordance with generally accepted accounting principles and in compliance with section 49 and any orders made by the BCUC under that section.

The Minister is required, by August 31 after the end of the preceding fiscal year, to lay the financial statement before the Legislative Assembly or, if the Legislative Assembly is not in session, file the financial statements with the Legislative Assembly.

In addition, the Corporation must file an annual report on its condition and affairs with the Superintendent of Financial Institutions, within 30 days of the corresponding financial statement being laid in front of the Legislative Assembly.

FINANCIAL REPORTING REQUIREMENTS

B. *Financial Information Act*

The Corporation must prepare a statement of financial information annually within three (3) months of the end of each fiscal year, which includes a statement of assets and liabilities, an operational statement, a schedule of debts and a schedule of guarantee and indemnity agreements.

Further, within six (6) months of the end of each fiscal year, the Corporation must prepare schedules showing total remuneration and expenses for each employee who earned more than \$75,000.00, a consolidated total of all remuneration paid to all other employees, the total amount paid to each supplier of goods or services greater than \$25,000.00 and a consolidated total of all payments made to other suppliers of goods or services.

These reports must be available at the Corporation's head office for inspection by any person.

C. *Budget Transparency and Accountability Act*

ICBC must present the Service Plan addressing the current fiscal year and the following two (2) fiscal years to its Minister for tabling in the Legislative Assembly. Following tabling in the Legislative Assembly, ICBC is required to make the Service Plan publicly available. It must include a statement of goals, identify specific objectives and performance measures, include information about major capital projects and include any other information prescribed by the Lieutenant Governor in Council.

In addition, ICBC must present the Annual Service Plan Report to its Minister for public release. It must compare actual results for the preceding fiscal year with the expected results identified in the Service Plan for that fiscal year. ICBC may submit one annual report to the Minister, satisfying the requirements of both the *Budget Transparency and Accountability Act* and the *Insurance Corporation Act* (outlined in Section A). The Crown Agencies and Board Resourcing Office develops guidelines with specific direction as to the content of the Annual Service Plan Report.

D. *Public Sector Employers Act*

ICBC must make certain reports to the Public Sector Employers' Council regarding its compensation structure. ICBC is also required under that Act to make available to the public all contracts of employment for employees earning over \$125,000.00 per year.

E. *Utilities Commission Act*

ICBC must submit all of its rate schedules with respect to universal compulsory vehicle insurance to the BCUC. The BCUC is also empowered, as part of its oversight role, to make orders requiring ICBC to report on a wide range of matters. ICBC is required to comply with any order made by the BCUC.

FINANCIAL REPORTING REQUIREMENTS

In addition to the above reporting requirements, ICBC's quarterly financial results are reviewed by the Audit Committee and approved by the Board quarterly. ICBC then posts its quarterly financial results on its public website icbc.com.
