Management's Responsibility for the Consolidated Financial Statements

Scope of Responsibility

Management prepares the accompanying consolidated financial statements and related information and is responsible for their integrity and objectivity. The statements are prepared in conformity with International Financial Reporting Standards (IFRS). These consolidated financial statements include amounts that are based on management's estimates and judgments, particularly our provision for unpaid claims. We believe that these statements present fairly ICBC's financial position, results of operations and cash flows, and that the other information contained in the annual report is consistent with the consolidated financial statements.

Internal Controls

We maintain and rely on a system of internal accounting controls designed to provide reasonable assurance that assets are safeguarded and transactions are properly authorized and recorded. The system includes written policies and procedures, an organizational structure that segregates duties, and a comprehensive program of periodic audits by the internal auditors, who independently review and evaluate these controls. There is a quarterly risk assessment process, the results of which influence the development of the internal audit program. We continually monitor these internal accounting controls, modifying and improving them as business conditions and operations change. Policies that require employees to maintain the highest ethical standards have also been instituted. We recognize the inherent limitations in all control systems and believe our systems provide an appropriate balance between costs and benefits desired. We believe our systems of internal accounting controls provide reasonable assurance that errors or irregularities that would be material to the consolidated financial statements are prevented or detected in the normal course of business.

Board of Directors and Audit Committee

The Audit Committee, composed of members of the Board of Directors, oversees management's discharge of its financial reporting responsibilities. The Audit Committee recommends for approval to the Board of Directors the appointment of the external auditor and the external actuary. The Audit Committee meets no less than quarterly with management, our internal auditors and representatives of our external auditor to discuss auditing, financial reporting and internal control matters. The Audit Committee receives regular reports on the internal audit results and evaluation of internal control systems and it reviews and approves major accounting policies including alternatives and potential key management estimates or judgments. Both internal and external auditors and the appointed actuary have access to the Audit Committee without management's presence. The Audit Committee has reviewed these consolidated financial statements prior to recommending approval by the Board of Directors. The Board of Directors has reviewed and approved the consolidated financial statements.

Independent Auditor and Actuary

Our independent auditor, PricewaterhouseCoopers LLP, has audited the consolidated financial statements. Their audit was conducted in accordance with Canadian generally accepted auditing standards, which includes the consideration of our internal controls to the extent necessary to form an independent opinion on the consolidated financial statements prepared by management.

William T. Weiland of Eckler Ltd. is engaged as the appointed actuary and is responsible for carrying out an annual valuation of ICBC's policy liabilities, which include a provision for claims and claims expenses, unearned premiums and deferred premium acquisition costs. The valuation is carried out in accordance with accepted actuarial practice in Canada and regulatory requirements. In performing the evaluation, the appointed actuary makes assumptions as to the future rates of claims, frequency and severity, inflation, reinsurance recoveries and expenses, taking into consideration the circumstances of ICBC and the insurance policies in force. The appointed actuary, in his verification of the underlying data used in the valuation, also makes use of the work of the external auditor.

Mr. Weiland meets every year with PricewaterhouseCoopers' valuation actuaries and ICBC's management to discuss business developments, changes in claims processing and claims trends. These discussions assist the independent parties in developing expectations around and assessing management's estimate of the claims provision.

Independent Auditor's Report

To the Minister Responsible for the Insurance Corporation of British Columbia and the Board of Directors of Insurance Corporation of British Columbia

Our opinion

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the financial position of Insurance Corporation of British Columbia and its subsidiaries (together, the Corporation) as at March 31, 2022 and the results of its operations and its cash flows for the year then ended in accordance with International Financing Reporting Standards (IFRS).

What we have audited

The Corporation's consolidated financial statements comprise:

- the consolidated statement of financial position as at March 31, 2022;
- the consolidated statement of comprehensive income for the year then ended;
- the consolidated statement of changes in equity for the year then ended;
- the consolidated statement of cash flows for the year then ended; and
- the notes to the consolidated financial statements, which include significant accounting policies and other explanatory information.

Basis for opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the consolidated financial statements* section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Corporation in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in Canada. We have fulfilled our other ethical responsibilities in accordance with these requirements.

Other information

Management is responsible for the other information. The other information comprises the Annual Service Plan Report.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of management and those charged with governance for the consolidated financial statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with IFRS, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Corporation's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Corporation or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Corporation's financial reporting process.

Auditor's responsibilities for the audit of the consolidated financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether
 due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit
 evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting
 a material misstatement resulting from fraud is higher than for one resulting from error, as fraud
 may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal
 control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Corporation's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Corporation's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Corporation to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Corporation to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Actuary's Report

I have valued the policy liabilities, including reinsurance recoverables, in the consolidated statement of financial position of the Insurance Corporation of British Columbia as at March 31, 2022 and their changes in its consolidated statement of comprehensive income for the year then ended in accordance with accepted actuarial practice in Canada, including selection of appropriate assumptions and methods.

In my opinion, the amount of the policy liabilities, including reinsurance recoverables, makes appropriate provision for all policy obligations, and the consolidated financial statements fairly present the results of the valuation.

Notes to Consolidated Financial Statements

For the year ended March 31, 2022

1. Corporate Information

The Insurance Corporation of British Columbia (the Corporation or ICBC) is a wholly-owned Crown corporation of the Province of British Columbia (B.C.), not subject to income taxes under the *Income Tax Act (Canada)*, incorporated in 1973 and continued under the *Insurance Corporation Act* (ICA), R.S.B.C. 1996 Chapter 228. The head office of the Corporation is 151 West Esplanade, North Vancouver, British Columbia. The Corporation operates and administers plans of universal compulsory vehicle insurance (Basic) and optional vehicle insurance (Optional) as set out under the *Insurance (Vehicle) Act*, and is also responsible for non-insurance services under the *Insurance Corporation Act* and the *Motor Vehicle Act*. Non-insurance services include driver licensing, vehicle registration and licensing, violation ticket administration and government fines collection. The Corporation is subject to regulation by the British Columbia Utilities Commission (BCUC) with respect to Basic insurance rates and services (note 24).

Prior to May 1, 2021, Basic insurance included the following coverages: \$200,000 third party liability protection (higher for some commercial vehicles), access to accident benefits including a maximum of \$300,000 (note 3f) for medical and rehabilitation expenses and up to \$740 per week for wage loss (note 3f), \$1,000,000 underinsured motorist protection, and also protection against uninsured and unidentified motorists within and outside the Province of B.C.

As of May 1, 2021, the Corporation implemented a new care-based (Enhanced Care) insurance model and Basic insurance includes the following coverages: access to enhanced accident benefits providing care and recovery benefits with no overall limit, up to \$200,000 of basic vehicle damage coverage (BVDC), \$200,000 in third party liability protection, inverse liability protection, and underinsured motorist protection. Under the new insurance model, coverage for hit and run claims for vehicle damage is no longer being provided under Basic insurance, uninsured coverage no longer applies with respect to vehicle damage although BVDC will usually apply, and individuals are generally precluded from suing both with respect to bodily injuries covered by enhanced accident benefits and for vehicle damage in circumstances where BVDC may apply.

The Corporation also offers Optional insurance in a competitive environment, which includes, but is not limited to, the following coverages: extended third party liability, comprehensive, collision, loss of use, and hit and run.

The Corporation's Basic and Optional insurance products are distributed by approximately 900 independent brokers located throughout the Province of B.C. The Corporation has the power and capacity to act as an insurer and reinsurer in all classes of insurance; however, the Corporation currently only acts as a vehicle insurer.

On July 27, 2022, the Corporation's Board of Directors authorized these consolidated financial statements for issue.

2. Summary of Significant Accounting Policies

The significant accounting policies applied in preparation of these consolidated financial statements are set out below. They have been prepared under the historical cost convention, as modified by the revaluation of certain financial assets at fair value.

a) Basis of reporting

The consolidated financial statements of the Corporation have been prepared in accordance with the IFRS as issued by the International Accounting Standards Board (IASB) and required by the *Budget Transparency and Accountability Act*. The consolidated financial statements include the accounts of the Corporation and its subsidiary companies. The Corporation's reporting currency and functional currency for all of its operations is the Canadian dollar, unless otherwise stated.

The Corporation reports revenues and expenses attributable to Basic insurance separately from the other operations of the Corporation (note 24). The Corporation presents investment income separately from underwriting results as this reflects how the business operations are managed and provides more relevant, reliable, comparable and understandable information of these consolidated financial statements. The Corporation also provides a number of non-insurance services on behalf of the Province of B.C. The costs associated with these non-insurance activities are borne by the Corporation. The amounts collected and remitted as well as the related costs are accounted for and presented separately in the consolidated statement of comprehensive income under non-insurance operations for greater transparency (note 21).

The preparation of consolidated financial statements in conformity with IFRS requires the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the Corporation's accounting policies (note 3). The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are disclosed in note 3.

b) Basis of consolidation

Control

The Corporation consolidates the financial statements of all subsidiary companies. Control is achieved when the Corporation is exposed to, or has rights to, variable returns from the entity and has the ability to use its power to affect the amount of the returns. Entities are fully consolidated from the date on which control is transferred to the Corporation. All but one of the Corporation's investment properties (note 6b) are held individually in nominee holding companies. The Corporation also invests in financial investments (note 6a) through a number of investment entities, some of which are wholly-owned and therefore consolidated. The Corporation does not have any active operating subsidiary companies. All inter-company transactions and balances are eliminated.

Non-controlling interest (NCI), presented as part of equity, represents the portion of a subsidiary's profit or loss and net assets that are not attributable to the Corporation. The Corporation attributes total comprehensive income or loss of entities between the parent and the NCI based on their respective ownership interests.

When the Corporation loses control over an entity, it derecognizes the assets and liabilities of the entity, and any related NCI and other components of equity. Any resulting gain or loss is recognized in profit or loss. Any interest retained in the entity is measured at fair value when control is lost.

Significant influence

Associates are entities over which the Corporation has significant influence, which means it has the power to participate in the financial and operating decisions of the investee but does not have control or joint control over the financial or operating policies. Associates generally involve a shareholding of 20% to 50% of the voting rights.

In some cases, voting rights in themselves are not sufficient to assess power or significant influence over the relevant activities of the investee. In such cases, judgment is applied through the analysis of management agreements, the effectiveness of voting rights, the significance of the benefits to which the Corporation is exposed and the degree to which the Corporation can use its power or significant influence to affect its returns from investees.

Associates are accounted for using the equity method. The Corporation has determined that it does not have significant influence in any investments in which the Corporation has 20% or more holdings (note 3b).

Joint operation

The Corporation classifies joint arrangement investments based on the Corporation's contractual rights and obligations, rather than the legal structure of the joint arrangement. The Corporation owns a 50% share of each of its three joint operations, one of which is with a Limited Partner. The joint operations are all investment properties in Canada.

The Corporation recognises its direct right to the assets, liabilities, revenues and expenses of the joint operations and its share of assets, liabilities, revenues and expenses.

c) Service fees

Service fees on the Corporation's payment plan are recognized monthly over the term of the policy. For six or twelve month term Autoplan policies, the Corporation's payment plan enables customers to make monthly or quarterly payments. The related interest bearing receivables are carried at amortized cost as determined using the effective interest method.

d) Insurance contracts

The Corporation issues insurance contracts, which result in contingent payments of benefits subject to the occurrence of an insured event. The Corporation accounts for insurance contracts as follows:

Premiums earned

The Corporation recognizes vehicle insurance premiums on a straight-line basis over the term of each vehicle policy written. Driver premiums are earned over the term of the policy.

Unearned premiums are the portion of premiums relating to the unexpired term, net of any premium refunds.

Deferred premium acquisition costs

To the extent premium acquisition costs such as commissions and premium taxes are recoverable from unearned premiums, they are deferred and amortized to income over the term of the related policies. An actuarial evaluation is performed to determine the amount allowable for deferral. The method followed in determining the deferred costs limits the amount of the deferral to the amount recoverable from unearned premiums, after giving consideration to the investment income, claims costs, and adjustment expenses expected to be incurred as the premiums are earned. A premium deficiency exists when future claims and related expenses are expected to exceed unearned premiums. When this occurs, the premium deficiency is recognized as a liability and any deferred premium acquisition costs are written down.

Provision for unpaid claims

The provision for unpaid claims represents the estimated amounts required to settle all unpaid claims. It includes amounts for claims that are incurred but not reported plus development on known case reserves and loss adjustment expenses, and is gross of recoveries from reinsurance. The provision for unpaid claims also includes an estimate of direct expenses to be incurred in settling claims net of the expected salvage and subrogation recoveries. It is carried on a discounted basis and therefore reflects the time value of money. To recognize the uncertainty in establishing best estimates, the Corporation includes a provision for adverse deviations (PfAD).

Reinsurance

Reinsurance balances are presented separately on the consolidated statement of financial position and on the consolidated statement of comprehensive income.

Reinsurance assets, including both reinsurance recoverable on unpaid claims and reinsurance receivable on paid claims, are shown on the consolidated statement of financial position. A PfAD is included in the discounted amount recoverable from reinsurers. The PfAD is applied on a consistent basis with the underlying provision for unpaid claims and includes a reinsurance recovery portion that reflects considerations relating to potential collectability issues with reinsurers.

e) Cash and cash equivalents

Cash and cash equivalents are short-term, liquid investments that are subject to insignificant changes in fair value, including cash on hand, deposits with financial institutions that can be withdrawn without prior notice or penalty, and directly held money market securities with a term less than 90 days from the date of acquisition.

f) Assets held for sale

Non-current assets that are expected to be recovered primarily through sale rather than through continuing use, and the sale is considered to be highly probable, are classified as held for sale. The Corporation classifies an asset as held for sale when the following conditions are met:

- Management is committed to a plan to sell;
- The asset is available for immediate sale;
- An active programme to locate a buyer is initiated;
- The sale is highly probable, within 12 months of classification for sale;
- The asset is being actively marketed for sale at a reasonable purchase price; and
- Actions require to complete the plan indicate that it is unlikely the plan will significantly changed or withdrawn.

Immediately before classification as held for sale, the assets are remeasured at cost less accumulated depreciation and impairment losses. Thereafter, the assets are measured at the lower of their carrying amount and fair value less costs to sell. Impairment losses on initial classification as held for sale, and subsequent gains and losses on remeasurement, are recognized in profit or loss; these gains are not recognized in excess of any cumulative impairment loss. Once classified as held for sale, non-current assets are no longer amortized or depreciated (note 6).

g) Financial assets

The Corporation categorizes its financial instruments as fair value through profit or loss (FVTPL), loans and receivables (Loans) or available for sale (AFS) depending on the purpose for which the financial assets were acquired. Monetary assets are assets that are to be received in a fixed or determinable number of units of currency. Monetary financial assets include fixed-income investments except mortgage funds and bond funds. Non-monetary financial assets include mortgage funds, bond funds, equities, and other financial investments.

Regular way purchases and sales of financial assets are recognized on trade dates, being the date on which the Corporation commits to purchase or sell the asset. Financial assets are derecognized when the rights to receive cash flows from the financial assets have expired or have been transferred along with substantially all the risks and rewards of ownership.

The Corporation's financial assets are accounted for based on their classification as follows:

Fair value through profit or loss

A financial asset is 'classified', by default, as FVTPL if it is acquired or originated principally for the purpose of selling in the short-term. A financial asset can be 'designated' in this category if doing so results in more relevant information.

FVTPL financial assets are recorded at fair value on initial recognition and for subsequent measurement. Transaction costs and changes in the fair value are recognized in investment income on the consolidated statement of comprehensive income.

Loans and receivables

Loans are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. The Corporation has classified its directly held mortgages, mortgage bond, premiums and other receivables as Loans.

Loans are recorded at fair value on initial recognition and subsequently measured at amortized cost using the effective interest rate method. Transaction costs are included in the initial carrying amount of the assets in addition to the fair value. Impairment losses on loans are recognized in investment income on the consolidated statement of comprehensive income.

Available for sale

Non-derivative financial assets that are not classified as Loans or FVTPL are accounted for as AFS. The Corporation has classified its bonds portfolio, bond funds, mortgage funds, money market securities, other financial investments and equity portfolios as AFS except for one global mezzanine pooled fund, which is designated as FVTPL.

AFS financial assets are recorded at fair value on initial recognition and for subsequent measurement. Transaction costs are included in the initial carrying amount of the assets in addition to the fair value.

Changes in the fair value, other than due to foreign exchange, of an AFS financial asset are recorded in other comprehensive income (OCI), until the financial asset is disposed of or becomes impaired, at which time the gain or loss will be recognized in investment income or impairment loss. Changes in the fair value due to foreign exchange on a non-monetary AFS financial asset are recorded in OCI. Changes in fair value due to foreign exchange on a monetary AFS financial asset are recorded in investment income. Interest calculated using the effective interest method is accrued daily and recognized in investment income. Dividends are recognized in investment income when the right to receive payments is established on the exdividend date.

h) Translation of foreign currencies

Foreign currency transactions are translated at exchange rates at the date of the sale or purchase. Monetary assets and liabilities denominated in foreign currencies are translated at exchange rates in effect at the year-end date. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities at year-end are recognized in investment income.

Translation differences on non-monetary AFS financial assets, such as equity securities and other financial investments, are recognized as part of the change in fair value in OCI until the security is disposed of or impairment is recorded. Translation differences on monetary AFS financial assets and non-monetary financial assets classified or designated as FVTPL are recorded in investment income.

i) Fair value of financial assets

In accordance with IFRS 13 Fair Value Measurement, the Corporation defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurement is classified as Level 1, 2 or 3, based on the degree to which inputs to the fair value measurement are observable:

- Level 1 inputs to the valuation methodology are quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 inputs to the valuation methodology include inputs other than quoted prices
 included within Level 1 that are observable for the asset or liability, either directly or
 indirectly.
- Level 3 inputs to the valuation methodology are not based on observable market data.

An asset's or liability's classification within the fair value hierarchy is based on the lowest level of significant input to its valuation.

Specific valuation techniques used to determine the fair value of financial instruments include:

- For AFS and FVTPL the use of quoted prices where available, other observable market information, where available or valuation models and techniques that are based on nonobservable market data.
- For Loans the yield curve of Government of Canada bonds to the corresponding maturity dates of the underlying mortgages, plus an estimated risk premium. The risk premium is determined by factors such as the location of the property, tenant profile, and degree of leverage of the property.

These valuations are reviewed at each reporting date by management.

j) Derivative financial instruments

The Corporation uses derivative financial instruments such as foreign currency forward contracts and foreign exchange swaps to manage foreign exchange risks and interest rate swaps to manage interest rate risks (note 7).

Derivative financial instruments are measured on the consolidated statement of financial position at fair value and are accounted for at FVTPL with all changes in fair value recorded immediately in investment income on the consolidated statement of comprehensive income. The Corporation does not apply hedge accounting.

k) Investment properties

Properties held for rental income or capital appreciation that are not occupied by the Corporation are classified as investment properties.

The estimated fair value of the Corporation's investment properties is based on independent appraisals by professionally qualified external valuators made during the year or using the income

approach to estimate fair value through the direct capitalization method and/or the discounted cash flow analysis as determined by an external investment manager.

The Corporation has certain properties that serve dual purposes: investment and own-use. If the investment and own-use portions can be sold separately, or leased out separately under a finance lease, the portions are accounted for separately. If the portions cannot be sold separately, the property is accounted for as an investment property only if an insignificant portion is held for own use in the supply of services or for administrative purposes. Where the portion held for own-use is significant, then the property is treated as property and equipment. The Corporation has two properties that serve a dual purpose and are classified as investment properties.

Investment properties are initially recognized at the fair value of the purchase consideration plus directly attributable costs. Subsequent to initial recognition, the investment properties are carried at cost, less accumulated depreciation, for the building portion, and impairment, if any.

Depreciation is provided on a straight-line basis at 2.5% to 5.0% of initial carrying value annually over the investment properties' useful life.

1) Investment-related liabilities

Investment-related liabilities include mortgage debt associated with investment properties (note 2k) and are initially recognized at fair value, net of transaction costs incurred, and subsequently measured at amortized cost.

m) Net bond repurchase agreements

The Corporation participates in the sale and repurchase of Government of Canada and Provincial bonds, which are sold and simultaneously agreed to be repurchased at a future date. These sale and repurchase arrangements are accounted for as financial liabilities and are initially recognized at fair value and subsequently measured at amortized cost. The interest rate at the time of the sale is the cost of borrowing the funds and is recognized as interest expense.

The Corporation also participates in the purchase and sale of Government of Canada and Provincial bonds, which are purchased and simultaneously agreed to be resold, to the same counterparty, at a future date with the market repurchase rate determining the forward contract price. These agreements are initially recognized at fair value and subsequently measured using effective interest method. These reverse repurchase arrangements have an offsetting effect to enhance performance by reducing interest expenses on the repurchase agreements and by economically hedging the interest rate, counterparty and collateral risks.

Assets transferred under repurchase or reverse repurchase agreements are not derecognized or recognized as substantially all the risks and rewards of ownership are retained by the Corporation or the counterparty in the case of the reverse repurchase agreements. The Corporation records a liability equal to the consideration received in repurchase agreements and offsets the liability equal to the purchase price in reverse repurchase agreements.

n) Accounts payable and accrued charges

Accounts payable and accrued charges are obligations to pay for goods and services that have been acquired in the ordinary course of business from suppliers. Accounts payable and accruals are measured at amortized cost.

o) Provisions

Provisions are recognized when the Corporation has a present legal or constructive obligation as a result of past events, and it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. These provisions are included in the accounts payable and accrued charges and provision for premium rebates/refunds as presented on the consolidated statement of financial position. Future operating losses are not recognized.

Where the provision amounts are due more than 12 months after the reporting date, they are measured at the present value of the expenditures expected to settle the obligation using a discount rate that reflects current market assessments of the time value of money and the risks specific to the obligation.

p) Pension and post-retirement benefits

The amounts recognized in net income in respect of defined benefit pension plans and post-retirement benefits are as follows:

- The Corporation's portion of the current service costs;
- Non-investment costs;
- Interest costs:
- Past service costs; and
- Impact of any curtailment or settlements during the year.

The current service cost is equal to the present value of benefits earned by members during the reporting year.

The non-investment costs are equal to expenses paid from the plans in the reporting year relating to the administration of the plans. The interest costs are calculated using the discount rate at the beginning of the reporting year and applied to the net liability at the beginning of the reporting year.

Past service costs arise from plan amendments that increase or decrease the obligation. Past service costs are recognized immediately in net income.

The changes in the defined benefit obligation and the changes in the fair value of plan assets that result from a curtailment or settlement of plan liabilities during the reporting year are recognized in net income.

A plan's surplus is equal to the excess, if any, of the plan's assets over its obligations. For plans in surplus, an asset is recognized on the consolidated statement of financial position to the extent that

the Corporation can realize an economic benefit, in the form of a refund or a reduction in future contributions, at some point during the life of the plan or when the plan liabilities are settled. For plans in deficit, the resulting net liability is recognized on the consolidated statement of financial position.

The value recognized on the consolidated statement of financial position for each defined benefit pension plan and for post-retirement benefits is calculated at the end of the reporting year as follows:

- The defined benefit obligation of the plan;
- Less the fair value of the plan assets out of which the obligations are to be settled directly; and
- Adjusted for the net change of any surplus derecognized.

The Corporation recognizes all actuarial remeasurements (i.e., gains or losses) in the reporting year in which they arise, through OCI on the consolidated statement of comprehensive income.

Certain current and former employees of the Corporation who were formerly employed in the Motor Vehicle Branch are members of a separate plan, the BC Public Service Pension Plan. This is a multi-employer defined benefit plan for which the Corporation applies defined contribution accounting. Since the BC Public Service Pension Plan pools risks amongst the current and former members of many employers, there is no consistent or reliable basis for allocating the Corporation's portion of the obligation, assets, and costs. As a result, the Corporation expenses the contributions made. Contributions are subject to change in the future, depending on the funded status of the plan, and are split equally between all participating employers and all contributing active plan members.

q) Property and equipment

Property and equipment are initially recorded at fair value and subsequently measured at cost less accumulated depreciation and impairment losses. Cost includes expenditures that are directly attributable to the acquisition or construction of the items, including retirement costs. Subsequent costs, such as betterments, are included in the asset only when it is probable that future economic benefits associated with the item will flow to the Corporation. All other subsequent expenditures are recognized as repairs and maintenance. Capitalized software that is an integral part of the equipment is accounted for as equipment. Property and equipment are depreciated when they are available for use, on a straight-line basis over the estimated useful life of each asset, taking into account the residual value, at the following annual rates:

Buildings
 Furniture and equipment
 Leasehold improvements
 2.5% to 10%
 10% to 20%
 Term of the lease

The assets' residual values and useful lives are reviewed annually and adjusted, if appropriate, at each reporting date.

Gains and losses on disposals are determined by comparing the proceeds with the carrying amount and recorded in net income.

r) Lease assets and liabilities

At inception of a contract that conveys rights to the Corporation to use an identified asset, the Corporation assesses whether the contract is or contains a lease. This assessment involves exercising judgment to determine whether the Corporation has the right to control the use of an identified asset for a period of time in exchange for considerations. If the arrangement is, or contains a lease, the Corporation recognizes a lease asset and a lease liability at the commencement of the lease. Lease assets include both tangible and intangible assets.

The lease asset is initially measured based on the present value of future lease payments plus directly attributable cost, less any lease incentive received. Directly attributable costs are incremental costs of obtaining a lease that would not have otherwise been incurred and that are directly attributable to negotiating and securing a lease. The lease asset is amortized on a straight-line basis over the lesser of the lease term or the asset's useful life. The lease asset is subject to testing for impairment if there is an indicator for impairment.

Lease liability consists of fixed payments less incentive receivable, variable lease payments that depend on an index or a rate, residual value guarantee, and purchase options price less termination costs. Lease liability is measured at the present value of the remaining lease payments using the incremental borrowing rate implicit in the lease.

When the lease contains an extension or purchase option that the Corporation considers reasonably certain to be exercised, the exercise price of the option is included in the lease liability.

s) Intangible assets

Capitalized software that is not an integral part of the equipment is accounted for as an intangible asset. Software development costs, which are comprised of labour and material costs for design, construction, testing, and other costs directly attributable to bringing the asset to a condition where it can be applied in its intended use, are capitalized for projects expected to be of continuing benefit to the Corporation, or expensed where the potential future benefits are uncertain or not quantifiable. Where software in development is not available for its intended use, the software development costs are classified as an asset under construction. Once the asset is available for intended use, it will be classified as an intangible asset.

Finite life intangible assets are initially recorded at fair value and subsequently carried at cost less accumulated amortization and impairment losses. Intangible assets with finite useful lives are amortized over their estimated useful lives when they are available for use on a straight-line basis at 10% to 20%, taking into account the residual value.

Indefinite life and not available for use intangible assets are not subject to amortization, but are assessed for indicators of impairment at each reporting date.

The assets' residual value and useful lives are reviewed annually and adjusted, if appropriate, at each reporting date.

t) Impairment of assets

Impairment of financial assets

Financial assets not carried at FVTPL are assessed at each reporting date to determine if there is objective evidence of impairment such as deterioration in the financial health of the investee, industry and sector performance, changes in technology, financing and operational cash flows, and the significance of any deterioration in the fair value of the asset below cost. In addition, for equity and other financial investments, a prolonged decline is also considered objective evidence of impairment. Where objective evidence of impairment exists, an impairment loss will be recognized as follows:

- For AFS financial assets, the related unrealized loss charged to OCI is reclassified to impairment loss.
- For Loans, the related difference between the amortized cost carrying amount and the fair value, calculated as the present value of the estimated future cash flows, directly from the loan or the sale of collateral, discounted at the asset's original effective interest rate, is recognized in investment income.

If the fair value of a previously impaired debt instrument classified as AFS or a financial asset measured at amortized cost increases, and the increase can be objectively related to an event occurring after the impairment loss was recognized, the impairment loss is reversed in investment income. Impairment losses on equity and other financial investment instruments are not reversed.

Impairment of non-financial assets

The Corporation's non-financial assets consist primarily of investment properties, property and equipment, intangible assets and lease assets. An impairment review is carried out at the end of each reporting year to determine if there are any indicators of impairment. When indicators of impairment exist, the Corporation assesses the asset for impairment. Investment properties are assessed for impairment as separate and identifiable cash-generating units, distinct from the other operations of the Corporation. All other assets are assessed as a group as their cash flows are generated from the operations of the Corporation. If an asset is impaired, the Corporation's carrying amount is written down to its estimated recoverable amount when material. The recoverable amount is the higher of fair value less costs to sell and value in use. Non-financial assets that suffered an impairment are reviewed for possible reversal of the impairment at each reporting date. If there is a change in estimate of the recoverable amount, an impairment loss is reversed to net income on the consolidated statement of comprehensive income only to the extent that the asset's carrying value does not exceed the carrying value that would have been determined, net of depreciation, if no impairment loss had been recognized.

u) Current and non-current classification of assets and liabilities

Assets are considered current when expected to be realized within one year of the reporting date. Liabilities are considered current when expected to be settled within one year of the reporting date.

The Corporation presents the statement of financial position on basis of liquidity. The classification of current and non-current of assets and liabilities is disclosed in the notes to the financial statements.

3. Critical Accounting Estimates and Judgments

In preparation of the consolidated financial statements, the Corporation makes judgments in applying the Corporation's accounting policies. The judgments that have the most significant effect on the amounts recognized in the consolidated financial statements include the assessment of impairment indicators in determining the impairment, if any, in the financial investment portfolio and non-financial investments. In addition, management makes assumptions in developing estimates in preparing the consolidated financial statements. Estimates subject to uncertainty include the provision for unpaid claims, the valuation of Level 3 investments, and the valuation of pension and post-retirement benefit obligations. Management believes its estimates and judgments to be appropriate; however, due to estimation uncertainty the actual results may be materially different. Particular sources of estimation uncertainty include the impacts of product reform and Enhanced Care and the related costs and savings on the provision for unpaid claims and deferred premium acquisition costs. Other sources of economic uncertainty include the effects of economic conditions, including inflation, potential impacts of the recent Russian invasion of Ukraine, and the COVID-19 pandemic on the future development of the Corporation's assets and liabilities. These areas of judgment and critical accounting estimates are described below.

Significant accounting estimates and judgments include:

Areas of Judgment

a) Impairment of financial assets

Judgment is required to determine if there is objective evidence of impairment of financial assets. The Corporation evaluates, among other factors, the financial health of the investee, industry and sector performance, changes in technology, financing and operational cash flows, and the significance of deterioration in the fair value of the asset below cost. In addition, for equity and other investments, a prolonged decline is considered objective evidence of impairment (note 11).

b) Significant influence

The Corporation owns more than 20% of various investment entities. However, the Corporation does not have significant influence in any of these entities. In determining whether the Corporation has significant influence over an entity, judgment is applied considering all the facts such as whether or not it has the power or only protective rights to exert influence over investment activities.

Estimates Subject to Uncertainty

c) Provision for unpaid claims

The provision for unpaid claims is established according to accepted actuarial practice in Canada. An unbiased estimate (best estimate) of claims costs is produced and discounted to determine a

present value as of the reporting date, and a PfAD is included based on the uncertainty associated with the estimate. Methods of estimation have been used which the Corporation believes produce reasonable results given current information (note 15).

The Corporation's provision for unpaid claims is an estimate subject to volatility, which could be material in the near term. The estimation of claims development involves assessing the future behaviour of incurred claims, taking into consideration changes to the insurance product, as well as the closure rates, payment patterns, consistency of the Corporation's claims handling procedures, the legal representation status of claims, historical delays in reporting of claims, and the historical and forecasted levels of inflation. In general, the more time required for the settlement of a group of claims, the more uncertain the estimates will be. Variability can be caused by receipt of additional information, significant changes in the average cost or complexity of claims over time, significant changes in the Corporation's claims operations, the timing of claims payments, product and legal reforms with limited or no experience, and future rates of investment return and inflation.

The ultimate cost of claims that settle over a long period of time is particularly challenging to forecast for several reasons, which include changes in the legal environment, case law or legislative amendments, and periods of time between the occurrence date of a claim and the date it is reported to the Corporation. The Corporation is subject to litigation arising in the normal course of conducting its insurance business, which is taken into account in establishing the provision for unpaid claims and other liabilities. Provisions for such liabilities are established by examining the facts of tendered claims and are adjusted in the aggregate to reflect ultimate loss expectations based upon historical experience patterns, current socio-economic trends and for certain claims, structured settlements that are provided in the form of consistent periodic payments as opposed to lump-sum payments.

To recognize the uncertainty in establishing a best estimate of the provision for unpaid claims, and consistent with the requirements of the Standards of Practice of the Canadian Institute of Actuaries, the Corporation includes a PfAD, consisting of three elements: an interest rate margin, a reinsurance margin, and a claims development margin. The interest rate margin reduces the expected investment rate of return used for discounting to make allowance for i) asset liability mismatch risk, ii) uncertainty in the timing of claims settlement, and iii) credit risk within the investment portfolio. The reinsurance margin makes allowance for the collectability of recoverable amounts from reinsurers and is a reduction in the expected amount of reinsurance recoverable. The claims development margin makes allowance for the various factors that can create greater uncertainty in the estimates of ultimate claims costs, including i) changes in the Corporation's operations (e.g., claims practices), ii) the underlying data upon which the unpaid claims estimates are based, and iii) the nature of the lines of business written. The claims development margin is a percentage of the unpaid claims, gross of reinsurance, and is larger for injury lines that generally require more time for claims to settle and close.

The Corporation also assesses the adequacy of its insurance liabilities at the end of each reporting period to ensure that they are sufficient to capture expected future cash outflows. All changes to the estimate since the end of the last reporting period are recorded in the current period as a 'Change in estimates for losses occurring in prior years' in the consolidated statement of comprehensive income.

The Corporation has considered the impacts of tort reform and the new Enhanced Care insurance model in the estimation of the provision for unpaid claims. The impact of these changes creates additional source of estimation uncertainty, as there is limited historical experience under the tort reform and no historical experience under the Enhanced Care insurance model.

d) Pension and post-retirement benefits

The cost of pension and post-retirement benefits earned by employees is actuarially determined using the Projected Unit Credit Method and management's best estimate of future compensation levels and healthcare costs.

The key assumptions used in calculating the cost of pension and post-retirement benefits are the discount rate, rate of compensation increase, inflation rate, life expectancies and extended healthcare cost trends. Together with plan member data, these and other assumptions are used to estimate future benefit eligibility, amount and duration of payments. The rate determined for each of the key assumptions is disclosed in note 18.

The discount rate is used to calculate the present value of the expected future benefit payments and to calculate interest on the net liability. The discount rate is based on high-grade corporate bond yields at the measurement date.

The rate of compensation increase reflects individual job progression, general price level increases, productivity, seniority, promotion, and other factors.

The inflation rate assumption is based on an assessment of historical data, the Bank of Canada target inflation range and the inflation expectations implied by the Government of Canada nominal and real return long-term bond yields.

Life expectancies are based on Canadian mortality tables, and contain a provision for future longevity improvements.

The extended healthcare trend rate is based on an analysis of plan experience, assumptions about the trend in total healthcare costs, and the proportion that will be covered by private plans.

With the exception of the discount rate, which is based on market conditions at the financial statement date, all other assumptions are management's best estimate (note 18).

e) COVID-19 economic uncertainty

In March 2020, the World Health Organization declared a global pandemic related to COVID-19. The magnitude of the impact of the COVID-19 pandemic on local and global commerce continues to evolve as it depends on future development of measures taken by government and central banks to stabilize the economy. Hence, there continues to be ongoing uncertainty surrounding the extent and duration of the impact that COVID-19 might have on the investment portfolio of the Corporation, claims costs (frequency and severity), premium revenues and receivables, and post-retirement benefit obligations (fair value of investments and the obligation for pension benefits and the related funding requirements).

The Corporation has considered the impact of COVID-19 in the estimation of the provision for unpaid claims. The impact of COVID-19 creates additional sources of estimation uncertainty as the estimation of claim frequency and severity may be affected by the reduction of vehicles on the road, changes in the timing of reporting claims, and delays in legal, medical, and vehicle repair services; and as the discount rate may be affected by changes in investment values and cash flows.

The long-term impact of COVID-19 on the pension and post-retirement benefits assumptions is also uncertain and introduces additional estimation uncertainty. As a result of the uncertainty, actual results may differ materially from the Corporation's estimates. The valuation of pension assets and the discount rate were determined at the reporting date based upon the best available information. The Corporation has considered if COVID-19 would have an impact on any of the other assumptions and has concluded, based on the information currently available, that the long-term assumptions remain appropriate. As new information emerges, assumptions will be updated as necessary and the consequential impact will be recorded in future reporting periods.

f) Russian invasion of Ukraine

As a result of the Russian invasion of Ukraine, beginning on February 28, 2022, sanctions were put in place to halt trading of Russian securities in major stock exchanges and major index providers have removed Russian equities from their indexes. As a result, the Corporation's investment manager has fully written off investments with Russian exposure. The Corporation has determined that there is minimal residual impact on its financial investments. However, there is ongoing uncertainty surrounding the extent of the potential macroeconomic impact on the Corporation's investment portfolio and business activities as the war continues to evolve. The Corporation is developing business practices to ensure compliance with the sanctions related to Russia via the *Special Economic Measures (Russia) Regulations*.

g) Product reform

Legislation was enacted on May 17, 2018 to reform the Basic insurance product to limit pain and suffering payouts for minor injuries and create an independent dispute resolution process for injury claims effective April 1, 2019 (note 23). The product reform significantly decreased claims costs associated with accidents occurred on or after April 1, 2019. Key factors that contributed to the overall reduction in claims cost pressures include: a) the limit on general damages of \$5,500 apply to minor injuries, b) the enhancements in accident benefits coverage, c) other insurance (collateral benefits) are primary for most medical and wage loss amounts when it is available and, d) bodily injury claims disputes valued up to \$50,000 are resolved by the Civil Resolution Tribunal (CRT) instead of the Supreme Court of B.C. As a result, the premium deficiency from the beginning of fiscal year 2019 was eliminated and deferred premium acquisition costs continue to be recognized and amortized in future years, as outlined in note 20.

The impact of the product reform has been favourable and contributed to improvement in the Corporation's financial stability. Given the limited history of the product reform, there is material estimation uncertainty in the measurement of these costs. Any recognition of additional impact has been reflected in the change in estimates for losses occurring in prior years.

h) Enhanced Care

On May 1, 2021, the Corporation implemented a new care-based insurance model (note 1). The impact of the new insurance model has been reflected in the estimate of current year claims costs, and affects the estimate of claims costs used in determining the asset associated with the deferred premium acquisition costs (note 20). Given the lack of historical experience under this model, there is estimation uncertainty in the measurement of these costs.

i) Fair value of level 3 investments

The fair value of financial instruments where no active market exists or where quoted prices are not otherwise available are determined by using valuation techniques and relying on significant unobservable inputs. In these cases, the fair values are estimated from observable data in respect of similar financial instruments, unobservable data using models or both. Where market observable inputs are not available, they are estimated based on appropriate assumptions. Where valuation techniques (for example, models) are used to determine fair values, they are validated and periodically reviewed by an external qualified personnel independent of those that sourced them (note 2i).

Inherently there is significant estimation uncertainty arising from the judgments and assumptions in determining fair value of these investments.

4. New Accounting Pronouncements

a) Standards and interpretations effective for the year ended March 31, 2022

The Corporation has adopted the standards and interpretations that are relevant to the operations of the Corporation and effective for the year ended March 31, 2022. There were no material impacts to the Corporation's consolidated financial statements from the adoption of new standards.

b) Standards and interpretations issued but not yet effective and not early adopted

Standards and interpretations issued that are relevant to the operations of the Corporation, but not yet effective include:

• IFRS 9 Financial Instruments. Effective for annual periods beginning on or after January 1, 2018; early adoption is permitted. The Corporation has deferred the implementation of IFRS 9 until its fiscal year beginning April 1, 2023, as allowed under the amendments to IFRS 4 Insurance Contracts. IFRS 9 brings together the classification and measurement, impairment and hedge accounting to replace IAS 39 Financial Instruments: Recognition and Measurement. IFRS 9 introduces a principles-based approach to the classification of financial assets based on an entity's business model and the nature of the cash flows of the asset. All financial assets are measured at FVTPL, fair value through OCI or amortized cost. For financial liabilities, IFRS 9 includes the requirements for classification and measurement previously included in IAS 39. IFRS 9 also introduces an expected loss impairment model for all financial assets at amortized costs. The model has three stages: (1) on initial recognition, 12-month expected credit losses are recognized in profit or loss and a

loss allowance is established; (2) if credit risk increases significantly and the resulting credit risk is not considered to be low, full lifetime expected credit losses are recognized; and (3) when a financial asset is considered impaired, interest revenue is calculated based on the carrying amount of the asset, net of the loss allowance, rather than its gross carrying amount. Finally, IFRS 9 introduces a new hedge accounting model that aligns the accounting for hedge relationships more closely with an entity's risk management activities, permits hedge accounting to be applied more broadly to a greater variety of hedging instruments and risks and requires additional disclosures. The Corporation has selected its accounting policies and is currently evaluating the impact of this standard on its consolidated financial statements.

- IFRS 17 Insurance Contracts. Effective for annual periods beginning on or after January 1, 2023. Early adoption is permitted for entities that apply IFRS 9 and IFRS 15 on or before the initial application of IFRS 17. The standard establishes the principles of recognition, measurement, presentation and disclosure of insurance contracts and supersedes IFRS 4. The standard was issued in May 2017 and requires all insurance contracts to be accounted for in a consistent manner, benefiting both investors and insurance companies. Insurance obligations will be accounted for using current values. The information will be updated regularly, providing more useful information to users of financial statements. The standard will be effective for the Corporation on April 1, 2023, and reflected in the Corporation's consolidated financial statements for the year ending March 31, 2024. The Corporation has considered the impact of this standard on its consolidated financial statements, finalized the selection of accounting policies, and adopted a technological solution to assist with the IFRS 17 reporting. The Corporation is in the continuing process of implementing the technological solution and continuously evaluating the impact of this standard on its consolidated financial statements.
- IAS 1 Presentation of Financial Statements, Classification of Liabilities as Current or Non-current. Effective for annual periods beginning on or after January 1, 2023; early adoption is permitted. Amended to clarify that the classification of liabilities as current or non-current should be based on the rights that are in existence at the end of the reporting period, the classification is unaffected by expectations of the entity or events after the reporting date, and the definition of settlement. The standard will be effective for the Corporation on April 1, 2023, and reflected in the Corporation's consolidated financial statements for the year ending March 31, 2024. The adoption of this amendment is not expected to have a material impact to the Corporation's consolidated financial statements.
- IAS 1 Presentation of Financial Statements, Disclosure of Accounting Policies (Amendment). Effective for the annual periods beginning on or after January 1, 2023; early adoption is permitted. Amended to require entities to disclose their material accounting policies rather than their significant accounting policies. The standard will be effective for the Corporation on April 1, 2023, and reflected in the Corporation's consolidated financial statements for the year ended March 31, 2024. The adoption is not expected to have a material impact to the Corporation's consolidated financial statements.
- IAS 8 Accounting Policies, Changes in Accounting Estimates and Errors, Definition of Accounting Estimates (Amendment). Effective for the annual periods beginning on or after

January 1, 2023; early adoption is permitted. Amended to clarify the definition of "accounting policies" and "accounting estimates" by making those two definitions more distinct and concise. The standard will be effective for the Corporation on April 1, 2023, and reflected in the Corporation's consolidated financial statements for the year ended March 31, 2024. The adoption is not expected to have a material impact to the Corporation's consolidated financial statements.

- IFRS 10 Consolidated Financial Statements and IAS 28 Long term Interests in Associates and Joint Ventures (Amendment). Effective for the annual periods beginning on or after a date to be determined by IASB; early adoption is permitted. Changes to these standards amend the accounting for sales or contribution of assets between an investor and its associate or joint ventures, and accounting guidance for a parent in the loss of control of a subsidiary. The adoption is not expected to have a material impact on the Corporation's consolidated financial statements.
- IAS 16 Property, Plant and Equipment (Amendment). Effective for annual periods beginning on or after January 1, 2022; early adoption is permitted. Amends to prohibit a company from deducting from the cost of property, plant and equipment amounts received from selling items produced while the company is preparing the asset for its intended use. Instead, a company will recognize such sales proceeds and related cost in profit or loss. The standard will be effective for the Corporation on April 1, 2022, and reflected in the Corporation's financial statements for the year ending March 31, 2023. The adoption is not expected to have a material impact on the Corporation's consolidated financial statements.

5. IFRS 9 deferral disclosure

The Corporation has elected to defer implementation of IFRS 9 to the fiscal year commencing April 1, 2023, based on an assessment of the Corporation's consolidated financial statements as at December 31, 2015, as permitted by the amendments to IFRS 4 issued on June 25, 2020.

The Corporation qualifies for this deferral as IFRS 9 has not previously been applied and the carrying amount of its liabilities arising from insurance contracts was significant (greater than 90%) when compared to the total amount of liabilities of the Corporation as at December 31, 2015. The Corporation's predominant business activity therefore continues to be in connection with insurance contracts and the eligibility to defer IFRS 9 implementation remains.

The following table distinguishes the Corporation's financial assets that give contractual rise to cash flows that are solely payments of principal and interest (SPPI), excluding those held for trading, and all other financial assets. The assets are presented at fair value for the year ended March 31, 2022.

(\$ THOUSANDS)		2021		
	1	Fair Value		
Financial assets				
SPPI (excluding held for trading)				
Cash and cash equivalents	\$	29,654	\$ 19,641	
Accrued interest		40,024	59,943	
Other receivable ¹		528,545	484,248	
Type 2 structured settlements		16,099	17,537	
Money market securities		6,019	3,498	
Bonds		7,293,745	11,145,959	
Mortgages		420,743	778,119	
	\$	8,334,829	\$ 12,508,945	
Other financial assets				
Non-SPPI bonds		146,284	168,431	
Pooled funds classified as debt instruments		10,850,343	7,594,180	
Investments held through investment entities		1,055,085	636,597	
Equities		238,144	208,782	
	\$	12,289,856	\$ 8,607,990	
¹ Given the short-term nature of other receivable, the carrying amount has been used as a rea	sonable approximati	on of fair value.		

Credit risk

IFRS 9 will require the Corporation to recognize a loss allowance for expected credit losses on financial assets that meet the SPPI conditions and are held for the purpose of collecting contractual cash flows. The credit risk rating for money market securities and bonds in the above table that meet these conditions (SPPI, excluding held for trading) can be found in note 10b. Mortgages and other receivables (including type 2 structured settlements) are assessed for significant increases to credit risk based on past due analyses. All directly held mortgages are current as at March 31, 2022. See note 10b for an aging table for other receivables.

The Corporation's investment in pooled funds are denominated 96.1% (2021 – 95.3%) in Canadian dollars. The Corporation's investment held through investment entities are denominated 100% (2021 – 100%) in Canadian dollars. The above equity and other financial investment disclosure presents the Corporation's interest in pooled funds and investments held through investment entities by looking through the funds, and classifying by the type of the underlying investments, which is consistent with how the Corporation manages risk and monitors performance.

Money market securities, bonds, bond funds, mortgage funds, equity and other financial investments are carried at their fair value. The fair value of directly held mortgages is determined to be consistent with Level 3 investments based on the inputs to the valuation technique used (note 2i). Directly held mortgages are measured at amortized cost and have an estimated fair value of \$420.7 million (2021 – \$778.1 million). The fair value of the directly held mortgages is determined by applying a discount rate ranging from 1.3% to 4.0% (2021 – 1.6% to 3.4%).

Pooled funds and investments held through investment entities

The Corporation invests in pooled funds and investments held through investment entities; the investment strategies of some of these funds and investments include the use of leverage. As at March 31, 2022, the Corporation's interest in pooled funds range from 1.9% to 36.2% (2021 – 1.4% to 30.5%) and investments hold through investment entities range from 7.0 % to 100% (2021 – 7.0% to 100%) of the net assets of the respective funds and investments. The funds and investments are managed by external asset managers. The Corporation has a percentage ownership in each of the pooled funds and investments that entitle the Corporation to a proportional share in the respective fund's net assets. The carrying value of the Corporation's investments in pooled funds (including investments held through investment entities) as at March 31, 2022 is \$11.91 billion (2021 – \$8.23 billion).

The change in fair value of each AFS pooled fund is included in the OCI section within the consolidated statement of comprehensive income in 'Net change in available for sale financial assets'. One of the pooled fund investments is designated as FVTPL and as a result, the change in fair value is recorded in investment income on the consolidated statement of comprehensive income.

The Corporation's maximum loss exposure from its interests in the pooled funds is equal to the total fair value of these investments.

Asset-backed securities

The Corporation purchases bonds that are secured by various assets as part of its investment strategy. The majority of the bonds are issued by Canadian corporate entities and are secured by credit card, auto, or equipment receivables. Also, the Corporation invests in AAA rated senior securities issued by securitization trusts that have a first lien on assets. The weighted-average duration of the asset-backed securities in the Corporation's portfolio is 1.3 years (2021 - 2.3 years) and the coupon interest rates range from 2.3% to 2.6% (2021 - 2.3% to 2.6%).

As at March 31, 2022, the carrying value of asset-backed securities included in financial investments in the consolidated statement of financial position is \$22.4 million (2021 – \$23.3 million). This amount also represents the maximum exposure to losses at that date.

The Corporation also has one mortgage backed security with a carrying value of \$16.9 million (2021 - one at \$17.3 million) and an estimated fair value of \$17.3 million (2021 - \$18.5 million). The mortgage backed security is included in financial investments as a mortgage and is secured by a first priority mortgage charge on a Class A real estate property. The fixed interest rate on the mortgage backed security is 4.9% (2021 - 4.9%) and the mortgage will mature in less than two years.

b) Investment properties

The movement in the carrying value of investment properties is as follows:

(\$ THOUSANDS)	2022	2021
Cost		
Balance, beginning of year	\$ 695,017 \$	731,736
Capital improvements	8,347	6,832
Reclassification to assets held for sale	(252,446)	(68,174)
Reverted from assets held for sale to investment properties	-	30,762
Disposals	(95,107)	-
Impairment loss	 (1,106)	(6,139)
Balance, end of year	354,705	695,017
Accumulated depreciation		
Balance, beginning of year	136,684	121,654
Depreciation	19,191	21,688
Reverted from assets held for sale to investment properties	-	2,552
Disposals	(12,188)	-
Reclassification to assets held for sale	 (44,026)	(9,210)
Balance, end of year	99,661	136,684
Carrying value, end of year	\$ 255,044 \$	558,333

The fair value of investment properties is 0.40 billion (2021 - 0.76 billion) and based on the inputs to the valuation technique used, the valuation of these investment properties is Level 3. As at March 31, 2022 and March 31, 2021, the estimated fair value is based on independent appraisals, by professionally qualified external valuators or using the income approach to estimate fair value through the direct capitalization method and/or the discounted cash flow analysis as determined by an external investment manager.

As at March 31, 2022, four (2021 – two) investment properties remain in assets held for sale.

c) Lease income

The Corporation leases out its investment properties. As of March 31, 2022, the future minimum lease cash receipts under non-cancellable leases over the next five years and beyond are as follows:

(\$ THOUSANDS)	2022					2021				
	Lea	Net Present Lease Income Value				se Income	No	et Present Value		
Up to 1 year	\$	22,403	\$	21,608	\$	36,176	\$	35,304		
Greater than 1 year, up to 5 years		55,518		49,398		96,187		88,878		
Greater than 5 years		24,999		20,126		52,510		45,359		
	\$	102,920	\$	91,132	\$	184,873	\$	169,541		

7. Financial Assets and Liabilities

a) Fair value hierarchy

The following table presents the fair value hierarchy for financial assets and liabilities measured at fair value in the consolidated statement of financial position. During fiscal years 2022 and 2021, there were no transfers between Level 1, Level 2 and Level 3. The Corporation's policy is to recognize transfers into and out of fair value hierarchy levels as of the date of the event or change in circumstances that caused the transfer.

(\$ THOUSANDS)	HOUSANDS) Fair Value Measurements at Reporting Date								
		Fair Value		Quoted Prices in active Markets for Identical Assets (Level 1)		ignificant Other bservable Inputs (Level 2)		Significant Unobservable Inputs (Level 3)	
March 31, 2022									
Cash and cash equivalents	\$	29,654	\$	-	\$	29,654	\$	-	
Fixed-income investments, excluding directly held mortgages		11,331,266		-		10,493,217		838,049	
Equity investments		5,538,357		238,144		5,300,213		-	
Other financial investments		2,719,997		-		-		2,719,997	
Total financial assets	\$	19,619,274	\$	238,144	\$	15,823,084	\$	3,558,046	
March 31, 2021									
Cash and cash equivalents	\$	19,641	\$	-	\$	19,641	\$	-	
Fixed-income investments, excluding directly held mortgages		12,675,593		-		11,900,279		775,314	
Equity investments		5,259,109		208,782		5,050,327		-	
Other financial investments		1,822,745		-		-		1,822,745	
Total financial assets	\$	19,777,088	\$	208,782	\$	16,970,247	\$	2,598,059	

Cash and cash equivalents (Level 2) is valued using the end of day exchange rates. Level 2 money market securities within fixed-income investments and equity investments (pooled funds) are valued using net asset value or pricing matrices derived from yield quotations, or if one does not exist, cost plus accrued interest. Bonds and money market pooled fund within Level 2 fixed-

income investments are valued using the quoted market price or dealer quotes for similar instruments exchanged in active markets.

The table below shows the movement of financial assets where fair value has been determined based upon significant unobservable inputs (Level 3). Level 3 investments consist of all the pooled funds and investments held through entities or collectively, the other financial investments and the mortgage funds.

The fair values of the real estate pooled investments are provided by the investment managers and are based on the appraised or calculated market value plus the net assets and liabilities combined with any cash flows. The global mezzanine debt funds valuations are provided by the investment managers and are based on the discounted cash flow method using yields of assets with similar characteristics combined with cash flows. The global infrastructure valuations are provided by the investment manager and are based on various methods such as the discounted cash flows, appraisals and audited financial statements. The private fixed-income funds and private equity funds valuations are provided by the investment manager and are based on the observed external price, if one exists, or if one does not exist, discounted cash flows using the yields of externally priced comparable private or public fixed-income assets. The consolidated mortgage fund's value is provided by the investment manager and is based on a discounted cash flow that uses a risk-free rate of return and a mortgage credit spread for fixed term mortgages, for variable mortgages, valuations are based on the principal balance plus accrued interest and for other mortgage investments, valuations may be based on audited financial statements and discounted cash flows.

(\$ THOUSANDS)		Measurements using vel 3 Inputs
	_	nd Other Financial
March 31, 2022		
Balance, beginning of year	\$	2,598,059
Additions		2,504,708
Disposals		(1,635,871)
Market value adjustment		91,150
Balance, end of year	\$	3,558,046
March 31, 2021		
Balance, beginning of year	\$	2,152,773
Additions		2,338,423
Disposals		(1,805,246)
Market value adjustment		(87,891)
Balance, end of year	\$	2,598,059

The fair value of derivative instruments not designated as accounting hedges is as follows:

(\$ THOUSANDS)	2022					2021					
		Notional				Notional					
		Amount		Fair Value		Amount		Fair Value			
Non-designated derivative instruments											
Assets											
Forward contracts	\$	2,187,494	\$	24,019	\$	548,143	\$	8,082			
Foreign exchange swaps		-		-		805,921		15,515			
	\$	2,187,494	\$	24,019	\$	1,354,064	\$	23,597			
Liabilities											
Foreign exchange swaps	\$	154,579	\$	1,395	\$	-	\$	-			
Interest rate swap - investment properties		-		-		91,850		984			
	\$	154,579	\$	1,395	\$	91,850	\$	984			

The Corporation uses foreign exchange forward contracts and swaps to hedge the foreign exchange risks associated with its foreign currency financial investments. All forward contracts and swaps have settlement dates within one year.

The non-designated derivative financial instruments are classified as Level 2. Forward contracts are valued based on the difference between the forward rate at the contract initiation date and the remaining forward term rate on the reporting date. Swap contracts are valued at the present value of their expected cash flows on the reporting date.

b) Other financial assets

Other financial assets include accrued interest, premiums and other receivables, and reinsurance assets. The fair values of the other financial assets excluding structured settlements and reinsurance recoverables approximate their carrying values due to their short-term nature. The fair value of the structured settlements and reinsurance recoverable are based on present value of future cash flows. The non-current portion of the other financial assets is \$65.4 million (2021 – \$47.1 million).

c) Financial liabilities

Financial liabilities include cheques outstanding, accounts payable and accrued charges, provision for premium rebates/refunds, net bond repurchase agreements, investment-related and other liabilities, and lease liabilities. All financial liabilities are carried at cost or amortized cost. Except for lease liabilities, investment-related and other liabilities, the fair values of financial liabilities approximate their carrying values due to their short-term nature. The estimation of fair value of investment-related and other liabilities is discussed in note 8, and for lease liabilities in note 9.

As at March 31, 2022, the general ledger bank balances representing deposits in transit were \$122.6 million (2021 – \$160.8 million) and the general ledger bank balances representing outstanding cheques were \$253.4 million (2021 – \$227.0 million), netting to a cheques outstanding balance of \$130.8 million (2021 – \$66.2 million) on the consolidated statement of financial position.

During fiscal year 2021, the Corporation approved the issuing of two COVID-19 rebates totalling \$950.0 million to policyholders as a result of claims costs savings net of lower premiums from customers cancelling and reducing coverage related to the pandemic. Costs savings experienced were due to lockdown restrictions that reduced driving activity resulting in fewer crashes. As at March 31, 2022, the COVID-19 rebates have been paid in full.

In addition, the Enhanced Care Coverage insurance model became effective on May 1, 2021 and the Corporation provided refunds to customers for the difference between their existing Autoplan coverage and the new, lower-cost Enhanced Care coverage, for the portion of their existing policy that went past May 1, 2021. As at March 31, 2021, the Corporation was obligated to provide the Enhanced Care refund to the customers given the legislative approval of the Enhanced Care Coverage Bill in August 2020. The total amount of Enhanced Care refund was \$594.5 million. As at March 31, 2022, Enhanced Care refunds have been paid in full.

During fiscal year 2022, the Corporation approved the issuing of a Relief Rebate totalling \$396.0 million to policyholders who had an active eligible Basic insurance certificate that was in effect at any time during the month of February 2022. As at March 31, 2022, the Relief Rebate payable of \$396.0 million is presented as a provision for premium rebates/refunds in the consolidated statement of financial position.

8. Net Bond Repurchase Agreements, Investment Related and Other Liabilities

(\$ THOUSANDS)	2022			2021
	Carrying Value			Carrying Value
Net bond repurchase agreements	\$	1,947,260	\$	2,097,612
Investment-related liabilities		121,328		164,730
Other liabilities		600,449		7,169
Total net bond repurchase agreements, investment-related, and other liabilities	\$	2,669,037	\$	2,269,511
Non-current portion	\$	5,371	\$	48,295

Investment-related liabilities are comprised of mortgages payable of \$121.3 million (2021 - \$143.8 million) with repayment terms ranging from within one year to seven years and interest rates ranging from 2.9% to 4.6% (2021 - 2.8% to 5.4%). The fair value of investment-related liabilities approximates carrying value. Other liabilities consist of accrued interest payable and unsettled trades. All of these liabilities are classified as Level 3 under the fair value hierarchy.

Estimated principal repayments for investment-related and other liabilities are as follows:

(\$ THOUSANDS)		2022	2021
Up to 1 year	\$	716,406	\$ 123,604
Greater than 1 year, up to 5 years		616	15,697
Greater than 5 years	<u> </u>	4,755	32,598
	\$	721,777	\$ 171,899

9. Lease Liabilities

Lease liabilities are as follows:

(\$ THOUSANDS)	2022	2021
Up to 1 year	\$ 13,924	\$ 13,642
Greater than 1 year, up to 5 years	33,312	37,575
Greater than 5 years	 12,225	16,194
Total undiscounted lease liabilities balance, end of year	\$ 59,461	\$ 67,411
Total discounted lease liabilities balance, end of year	\$ 53,670	\$ 60,502
Current	\$ 13,445	\$ 13,106
Non-current	\$ 40,225	\$ 47,396

The fair value of lease liabilities is the present value of cash flows over the remaining term of the leases.

As at March 31, 2022, the Corporation did not have any leases committed to but not yet commenced. As at March 31, 2022, the Corporation had committed to facilities-related expenses associated with leased properties, over the next five years and beyond, at a net present value of 36.1 million (2021 – 31.1 million).

10. Management of Insurance and Financial Risk

As a provider of vehicle insurance products, effective risk management is fundamental in protecting earnings, cash flow, and ultimately the financial stability of the Corporation. The Corporation is exposed to various types of insurance and financial risks including risks of uncertainty resulting from COVID-19 and the Russian/Ukrainian situation (note 3).

a) Insurance risk

The principal risk that the Corporation faces under its insurance contracts is that the actual claims and benefit payments exceed the carrying amount of the insurance liabilities. This could occur when the frequency or severity of claims and benefits are greater than estimated. Insurance events have an element of randomness and the actual number and amount of claims and benefits will vary each year from the level established using statistical techniques. The resolution of the legal challenge to the minor injury cap (notes 3f and 15) represents a meaningful risk to the severity of claims incurred since April 1, 2019.

The introduction of the new care-based insurance model has increased the insurance risk as the insurance liabilities for new injury claims under the care model must be established in an absence of direct historical experience. The Corporation has considered relevant experience from other jurisdictions with similar products in determining the appropriate amount of the insurance liabilities. Actual results may be materially different and take many years to emerge.

Frequency is the average number of claims per policy, calculated by dividing the total number of claims by the total number of policies. Severity is the average cost of a claim calculated by

dividing the total cost of claims by the total number of claims. There are a number of factors that influence the frequency and severity of claims.

Some factors are affected by the actions of the Corporation and a number of strategies are used to try and reduce cost pressures created by these factors, including claims operational changes, road safety programs, programs to influence driver behaviour such as impaired driving and distracted driving programs, public awareness campaigns, auto crime reduction initiatives, and fraud detection and investigation.

There are other factors that the Corporation has little or no control over, including weather, demographics, court issued settlement awards, plaintiff legal fees, pandemic events, and economic changes, including vehicle parts/repair inflation, supply chain issues and medical expense inflation that influence the cost of claims.

Sources of uncertainty in the estimation of the provision for unpaid claims

To manage the uncertainty associated with estimating the provision for unpaid claims, the Corporation's Chief Actuary employs standard actuarial methods. The estimation of the provision for unpaid claims is determined in accordance with accepted actuarial practice in Canada and is based on reasonable assumptions and appropriate methods that are consistently applied (note 3c), giving appropriate consideration to relevant changes in circumstances such as the COVID-19 pandemic (note 3e), product reform (note 3g) and the new case-based insurance model (note 3g).

There is an inherent uncertainty regarding the assumptions to estimate the amount and timing of future claims payments that make up the provision for unpaid claims. The Corporation is liable for all insured events that occurred during the term of the insurance contract, even if the loss is reported after the end of the contract term. In addition, injury claims may take a long period of time to settle.

Injury claims include bodily injury, accident benefits, and enhanced accident benefits, which account for approximately 49% (2021-60%) of total claims costs. The timing of payments of injury claims can be extended due to delayed reporting, as well as extended recovery time required for severe injuries, and the timing and amount of injury payments can exhibit considerable uncertainty because of the complex bodily injury claims environment, including the legal environment.

The Corporation's provision for unpaid claims can be affected by the frequency and severity of claims, the discount rate, and actuarial methods and assumptions. The frequency and severity of claims are discussed above, while the discount rate and the actuarial methods and assumptions are discussed in notes 3 and 15.

Concentration of insurance risk

The Corporation has a diverse customer base as the sole provider of Basic insurance to all drivers in British Columbia. The Corporation operates in one provincial jurisdiction and provides vehicle insurance only, so there is a concentration of insurance risk with respect to geography, jurisdiction, and product type.

The impact of the concentration of insurance risk is quantified through Catastrophe modeling that the Corporation's reinsurance broker updates annually. This testing allows the Corporation to assess, monitor and manage these risks effectively. The concentration of insurance risk is also managed through an Automobile property damage catastrophe reinsurance treaty, a casualty catastrophe reinsurance treaty, and road safety programs such as road improvement strategies, the graduated licensing program, and the distracted driving campaign. As the sole provider of Basic insurance, the Corporation invests in and benefits the most from these programs.

Premium pricing risk

The Corporation is the sole provider of Basic insurance and is not subject to competitive risk for its Basic insurance product. Basic insurance rates are set to cover costs after considering investment returns. Because the insurance rates are determined based on forward looking estimates of costs, the unfavourable variance in costs, in particular claims costs, may result in Basic insurance premiums not being sufficient to cover costs.

The Corporation is subject to legislative requirements with respect to Basic insurance and applies to the BCUC for approval to change its Basic insurance rate. The Corporation is required to make Basic insurance rate applications and the BCUC is required to approve rates set according to accepted actuarial practice. These legislated requirements mitigate the underwriting risk associated with pricing for the Basic insurance product. For the 2020 policy year, the Province of B.C. exempted the Corporation from filing the revenue requirement application (note 24) and accordingly the BCUC approved a 0% rate change in February 2020. The Province of B.C. further exempted the Corporation from filing a revenue requirement application in 2021, and the rates for the 2021 policy year will remain in effect through March 31, 2023.

Regulations establish the rate smoothing framework for Basic insurance rates that allows for the use of capital to reduce volatility. As a result, Basic rates may be set below those required to cover costs, as constrained by the ceiling of the rate smoothing band. Product reform, implemented as part of Rate Affordability Action Plan and effective April 1, 2019, reduced claims costs. In fiscal year 2020, the Basic rate was established below the floor of the rate smoothing band as no rate change was made for policy year 2020, while BCUC had approved a 6.3% increase in Basic insurance rate for policy year 2019. On October 28, 2021, the BCUC approved a 15.0% decrease to Basic insurance rates. The Basic rate application includes a government-directed capital build provision, of 11.5 percentage points, which is expected to allow the Corporation to rebuild its depleted capital over the 23-month term of policy year 2021. To allow for a rate decrease, the rate smoothing framework was suspended for policy year 2021 (note 24).

The Corporation's Optional insurance products compete with other insurers and are subject to underwriting risk and competitive risk.

In fiscal 2021, the Province of B.C. passed legislation to remove the ability of the government to direct the Corporation to transfer capital to government from the Corporation's excess Optional insurance capital.

b) Financial risk

Concentration of financial risk

The Corporation establishes investment portfolio level targets and limits with the objective of ensuring that portfolios are diversified across asset classes and individual investment risks. The Corporation reviews investment positions and risk exposures for concentration risk.

As at March 31, 2022, the equity and other financial investments portfolios were 21.9% (2021-0.2%) invested in the government sector, 22.1% (2021-19.3%) in the real estate sector, and 13.6% (2021-21.6%) in the financial sector. The bond portfolio was 49.8% (2021-69.2%) invested in the government sector and 23.7% (2021-14.2%) invested in the financial sector. See credit risk for a discussion of the government bonds.

Concentration of geographical risk

Geographical concentration risks arises when the investments are located in the same geographical region. The Corporation reduces geographical concentration risk by dispersing the investments in more than one geographical region. The Corporation has contracted external investment managers to manage its foreign investments in diversified global pooled funds. As at March 31, 2022, the investment portfolio was 79.7% (2021 - 76.6%) invested in Canada, 16.1% (2021 - 16.9%) invested in the United States, and 4.2% (2021 - 6.5%) was invested elsewhere around the world.

Price risk

General economic conditions, political conditions, and other factors affect the equity markets, thereby also affecting the fair value of the equity securities, fixed income funds, and other financial investments (including all pooled funds) held by the Corporation. Fluctuations in the value of these securities impact the recognition of both unrealized and realized gains and losses on equity securities and on the units of funds held. As at March 31, 2022, the impact of a 10% change in prices, with all other variables held constant, would result in an estimated corresponding change to OCI for AFS equities, fixed income funds and other financial investments of approximately \$1.19 billion (2021 – \$0.82 billion) and to profit or loss for FVTPL equities of approximately \$22.1 million (2021 – \$22.1 million).

The Corporation holds a widely diversified portfolio, diversified geographically, by sector, and by company, and has policies in place to limit and monitor total equity exposure and individual issuer exposure.

Interest rate risk

When interest rates increase or decrease, the market value of fixed-income securities will decrease or increase respectively with a larger market value impact on instruments with a long duration compared to instruments with a short duration. Fluctuations in interest rates have a direct impact on the market valuation of the Corporation's directly held fixed-income portfolio. The Corporation is also indirectly exposed to interest rate risk through its investments in fixed-income

pooled funds and fixed-income investments held through investment entities. The Corporation's investment yields, which include fixed-income portfolio, are used to derive the discount rate for the provision for unpaid claims (note 10a); therefore, the change in interest rate will also have an impact to the provision for unpaid claims.

The Corporation has policies in place to limit and monitor its exposure to interest rate risk in relation to the duration of its claims liabilities.

The carrying values reported in the consolidated statement of financial position for cash and cash equivalents, premiums and other receivables, accounts payable and accrued charges, and provision for premium rebates/refunds approximate their fair values and are not significantly impacted by fluctuations in interest rates.

In fiscal years 2022 and 2021, the Corporation did not use material derivative financial instruments to hedge interest rate risk on its investment portfolio.

	202	2	202	1
	Average Yield (%)	_		Duration (Years)
Bonds				
Canadian				
Federal	2.3	2.7	0.7	3.8
Provincial	2.6	2.8	1.3	4.8
Municipal	-	-	1.8	7.0
Corporate	3.0	3.0	1.4	4.4
Total bonds	2.7	2.7	1.1	4.2
Mortgages	4.0	1.2	3.8	1.4
Total bonds and mortgages	2.8	2.6	1.3	4.1

As at March 31, 2022, a 100 basis point change in interest rates would result in a change of approximately \$198.6 million (2021 – \$478.8 million) in fair value of the Corporation's bond portfolio and a corresponding impact of approximately \$198.6 million (2021 – \$478.8 million) to OCI. A 100 basis point change in interest rates would result in a change of approximately \$5.0 million (2021 – \$10.4 million) in fair value of the Corporation's directly owned mortgages, however there would be no impact to OCI or net income as the mortgage portfolio is measured at amortized cost. Interest rate changes would also result in a partial inverse change to the provision for unpaid claims and the corresponding claims costs (note 10a). With the increase in uncertainty given the current economic environment, there may be volatility in investment yields in the future, and any interest rate changes will have an impact on discount rates used by the Corporation.

Credit risk

Credit risk is the potential for financial loss to the Corporation if the counterparty in a transaction fails to meet its obligations. Financial instruments that potentially give rise to concentrations of credit risk include cash and cash equivalents, fixed-income securities, accounts receivable,

reinsurance receivables and recoverables, and structured settlements. The Corporation is also indirectly exposed to credit risk through its investments in fixed-income pooled funds and fixed-income investments held through investment entities. The total direct credit risk exposure is \$7.30 billion (2021 – \$8.95 billion).

Fixed-income securities

Fixed-income securities are comprised of investment grade bonds and corporate bonds, private debt and mortgages, which are directly held, or in pooled funds. The Corporation mitigates its overall exposure to credit risk in its fixed-income securities by holding the majority of its fixed-income portfolio in investment grade bonds, and by limiting fixed income credit investments to a maximum of 23.0% (2021 – 14.5%) of total investment assets. Credit risk in mortgages is mitigated by the security of the underlying mortgaged property.

The credit quality of financial assets that are neither past due nor impaired can be assessed by reference to external credit ratings, where available, or to historical information about counterparty default rates.

The maximum credit risk exposure for fixed-income securities pertain to directly held bond investments and to directly held mortgage investments; however, the Corporation considers Canadian government bonds to be risk-free. Therefore, the total carrying amount is \$5.16 billion (2021 – \$6.95 billion). There is minimal credit risk exposure to cash.

The counterparty risk associated with repurchase agreements for 2022 and 2021 is not material.

The Corporation's money market securities and bonds by credit quality according to Standard and Poor's are as follows:

(\$ THOUSANDS)	2022	2021			
Money market securities					
AAA	\$ 6,019	\$	3,498		
Bonds					
AAA	\$ 2,717,248	\$	5,369,042		
AA	730,958		1,421,292		
A	2,989,255		3,062,363		
BBB	 1,002,568		1,461,693		
	\$ 7,440,029	\$	11,314,390		

Premiums and other receivables

The Corporation has a diverse customer base as it is the sole provider of Basic insurance to all drivers in British Columbia. While there is no significant individual concentration of credit risk, the Corporation's premiums and other receivables are comprised of customers with varying financial conditions.

The credit risk for premiums receivables is mitigated as a customer's policy may be cancelled if the customer is in default of a payment. The maximum credit risk for all other receivables equals their carrying amount. As at March 31, 2022, the Corporation considered \$125.4 million (2021 – \$108.8 million) of its premiums and other receivables to be uncollectible and has provided for them. The allowance was determined by applying a percentage derived from six years of collection experience by receivable type to the total of current and prior periods' customer billings.

The following table outlines the aging of premiums and other receivables as at March 31, 2022 and at March 31, 2021:

(\$ THOUSANDS)							
	Current	_	Past Due – 30 davs	_	Past Due – 60 days	Over 60 days	Total
March 31, 2022	<u> </u>		20 days	<u> </u>	oo uays	oo unys	Iotai
Premiums and other receivables	\$ 2,009,31	7 \$	5,050	\$	5,452	\$ 172,228	\$ 2,192,047
Provision	(2,88	5)	(2,699)		(2,730)	(117,059)	(125,373)
Total premiums and other receivables	\$ 2,006,43	2 \$	2,351	\$	2,722	\$ 55,169	\$ 2,066,674
March 31, 2021							
Premiums and other receivables	\$ 1,930,01	7 \$	4,749	\$	4,768	\$ 154,395	\$ 2,093,929
Provision	(2,78	2)	(2,551)		(2,585)	(100,879)	(108,797)
Total premiums and other receivables	\$ 1,927,23	5 \$	2,198	\$	2,183	\$ 53,516	\$ 1,985,132

The movements in the provision for premiums and other receivables are as follows:

(\$ THOUSANDS)	2022	2021
Balance, beginning of year	\$ (108,797) \$	(93,701)
Charges for the year	(37,709)	(35,975)
Recoveries	6,531	7,008
Amounts written off	 14,602	13,871
Balance, end of year	\$ (125,373) \$	(108,797)

Reinsurance assets

Failure of reinsurers to honour their obligations could result in losses to the Corporation. The maximum credit risk exposure equals the carrying amount of \$43.6 million (2020 – \$28.4 million). The Corporation has policies that require reinsurers to have a minimum credit rating of A-. No single reinsurer represents more than 25% of the total reinsurers' share of the provision for unpaid claims and adjusting expenses in a contract year. Both these items mitigate the Corporation's exposure to credit risk. No amount owing from the reinsurers was considered impaired as at March 31, 2022 or March 31, 2021.

(\$ THOUSANDS)	2	2022	2021
Reinsurance recoverable (note 15)	\$	41,544 \$	25,963
Reinsurance receivable		2,052	2,478
Reinsurance assets	\$	43,596 \$	28,441

Liquidity risk

A significant business risk of the insurance industry is the uncertain ability to match the cash inflows from premiums and the investment portfolio with the cash requirements of the policy liabilities and operating expenses. The timing of most policy liability payments is not known, may take considerable time to determine precisely, and may be paid in partial payments.

Liquidity risk is the risk that the Corporation is unable to meet its financial obligations as they fall due. Cash resources are managed on a daily basis based on anticipated cash flows. The majority of financial liabilities, except for the provision for unpaid claims, pension and post-retirement benefits, lease liabilities, and investment-related, are due within one year. The Corporation generally maintains positive overall cash flows through cash generated from operations as well as cash generated from its investing activities. Where overall cash flows are negative, the Corporation maintains sufficient liquid assets (money market securities) to cover any shortfall from operations. In addition, the Corporation has a netting arrangement with its banks that permits positive bank balances to be offset against negative bank balances.

Liquidity risk is primarily controlled by holding government bonds and other highly liquid investments, which can be readily sold. In addition, the Corporation takes into account the overall historical liability settlement pattern and the historical cash in-flows as a basis to broadly define diversification and duration characteristics of the investment portfolio. The following table summarizes the maturity profile of the Corporation's fixed-income investments by contractual maturity or expected cash flow dates:

	Within One Year	One Year Five Years	After Five Years	Total	
March 31, 2022					
Bonds					
Canadian					
Federal	\$ 81,962	\$ 2,612,836	\$ -	\$	2,694,79

	\$ 564,216	\$ 7,364,525	\$ 4,148,482	\$	12,077,22

Currency risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates.

The Corporation has direct foreign exchange risk on its US pooled fund investments. A 10% change in the US exchange rate as at March 31, 2022 would change the fair value of the US pooled fund investments and result in a change to OCI of approximately \$20.1 million (2021 – \$14.0 million) and to profit or loss of \$22.1 million (2021 – \$22.1 million). However, this is mitigated by the use of forward contracts and swaps (note 7a). The Corporation does not have direct foreign exchange risk on its global equity portfolio, however the Corporation is exposed to indirect foreign exchange risk.

The Corporation has policies in place to limit and monitor its exposure to currency risks.

11. Investment Income

(\$ THOUSANDS)		2022	2021

The Corporation's intangible assets consist of externally purchased software and any directly attributable costs required to bring the software to a condition where it is available for use.

The balance of intangible assets includes \$9.4 million (2021 - \$79.3 million) in assets under development.

There were no indefinite life intangible assets as at March 31, 2022 and March 31, 2021.

15. Provision for Unpaid Claims

a) Actuarial methods and assumptions

The Corporation typically employs three standard actuarial methods to analyze the ultimate claims costs, augmented by more in-depth analyses as needed:

- The incurred development method;
- The paid development method; and
- The Bornhuetter-Ferguson method.

The standard methods call for a review of historical loss and count development patterns. As part of this review, the Corporation calculates loss and count development factors, which represent the period-to-period changes in a given loss year's incurred loss amount. Based on an examination of the loss development factors, the Corporation's Chief Actuary selects a best estimate of development factors that forecast future loss development.

A key assumption that the loss and count development factors rely on is a selected baseline. The baseline for the majority of the coverages is the average of the most recent four loss years. The use of a baseline helps maintain consistency in the loss and count development factors from one reserve review to another. Circumstances may arise when the standard methods are no longer appropriate to use. In these cases, and in accordance with accepted actuarial practice, modifications to the methods are made or alternative methods are employed that are specific and appropriate to the circumstances. Circumstances may include a change in the insurance product or claims settlement environment, a change in the handling or reserving of claims, or an emerging trend in the statistical data used in the analysis.

Because of the change in insurance coverages provided following the introduction of Enhanced Care on May 1, 2021, there is no direct historical information available for some of the coverages currently provided. Where possible, appropriate historical claims data has been selected to represent each of the future coverages, for example by separating claims that occurred within and outside of British Columbia, and accounting for hit-and-run and non-vehicle damage liability claims.

An additional method is employed to address the particularly complex injury claims environment, which includes shifts in the legal representation rate, the frequency mix of claims by severity of injury, and the settlement rate of claims. This additional method uses legal status and claim severity to separate bodily injury claims data into segments of similar complexity and is based on the Adler-Kline claim closure model. It has allowed the Corporation's Chief Actuary to capture changes in

the claim settlement rates within each segment, and changes in the mix of claims by segment, which impacts the bodily injury severity trend rate. The Adler-Kline claim closure model is also applied to medical payments on accident benefits claims to capture changes in the pending claims including a shift to longer term payouts.

The cost of injury claims associated with accidents occurring on or after April 1, 2019 but before May 1, 2021, are estimated from the methods described above. Severity estimates for bodily injury represented claims and accident benefits claims use assumptions consistent with the pricing model used to establish the premium rate for policies in effect at the time, which includes assumptions about classification of injuries as minor or non-minor, classification of costs by heads (categories) of damages, and classification of claims by size and legal complexity.

An additional method is used to estimate the cost of enhanced accident benefits claims, associated with accidents occurring on or after May 1, 2021. These claims fall under a new insurance model (note 3g), and are therefore expected to follow different patterns from the historical loss and count development patterns on which the three standard methods rely. The additional method uses assumptions for the severity of these claims that are consistent with the pricing model used to establish the premium rate for policies effective May 1, 2021, and with additional relevant information regarding inflation expectations and claim severity from other jurisdictions with similar products.

An additional method has been applied to estimate the cost of basic vehicle damage claims, associated with accidents occurring on or after May 1, 2021. The Corporation has observed a high rate of growth in the average cost of repair and total loss claims in the current fiscal year, concurrent with some delay in the ability of repair facilities to complete repairs, which affects the timing and development of losses. The additional method is based on the development of paid severities.

The timing of when the unpaid ultimate claims costs will be paid depends on the line of business. Injury claims generally take longer to settle than material damage claims and exhibit greater variability as to the timing and amount ultimately paid to settle a claim. Historical patterns of claims payment data are used to estimate the future claims payment pattern. Expected future paid amounts are then discounted, using the discounted cash flow method, to determine a present value as of the reporting date. The discount rate is based upon the expected return on the Corporation's current investment portfolio, the expected asset default risk of its investment portfolio, and assumptions for interest rates relating to reinvestment of maturing investments. These estimates are based on current market returns as well as expectations about future economic and financial developments.

A PfAD is then added to the estimate to recognize sources of uncertainty in the assumptions behind the provision for unpaid claims (note 3c). The PfAD is calculated according to accepted actuarial practice in Canada.

Changes in Assumptions

Discount rate

The Corporation discounts its provision for unpaid claims using a discount rate of 3.7% (2021 – 2.5%). As a result of the increase in the discount rate, there was a favourable adjustment to both current and prior years' unpaid claims provision of \$403.2 million (2021 – unfavourable adjustment of \$218.8 million).

Change in loss development assumptions

Actuarial assumptions pertaining to loss and count development for all coverages were reviewed and revised in light of an additional year of actual experience. There were several material changes in development assumptions.

The Corporation has observed a return in reported claims for the majority of the fiscal year to relatively normal levels, following the substantial reduction in vehicle related accidents that had been observed during the course of the public health emergency declared by the Province of B.C. that was in effect from March 17, 2020 through June 30, 2021, related to the COVID-19 pandemic. As a result, claims development assumptions for crash-related claims have relied primarily on baseline assumptions, with no adjustments being required for ongoing impacts from the COVID-19 pandemic. This represents a change from fiscal year 2021, where two modifications were made to development assumptions in order to represent higher expected levels of future claims reporting and vehicle repairs. The change in assumptions to remove the expectation of higher future claims reporting has had an estimated favourable impact to the provision of unpaid claims of \$82.3 million, holding all other assumptions constant.

Development assumptions pertaining to bodily injury claims arising between April 1, 2019 and April 30, 2021 were adjusted to reflect the B.C. Court of Appeal decision related to the CRT. The Chief Justice delivered his reasons in May of 2022 and allowed the expanded jurisdiction of the CRT over motor vehicle claims for minor injuries under the vehicle insurance system in place during this period of time. This overturned a previous judgement that found the CRT jurisdiction over these claims to be unconstitutional. The change in assumptions for bodily injury claims to reflect this decision has decreased the provision for unpaid claims by \$98.5 million. This decrease also accounts for lower claims services expenses that will be required to service the outstanding claims.

Development assumptions pertaining to the number of large bodily injury claims have relied on the baseline factors (average of the most recent six fiscal loss years), which is considered to be consistent with the experience that has emerged in the current fiscal year. This represents a change from fiscal year 2021, where an average of the most recent eight fiscal loss years was used in order to put less weight on the recent historical experience at that time. This change in assumptions for large bodily injury claims has the effect of increasing the provision for unpaid claims by \$263.8 million.

The severity of represented bodily injury claims (both large and non-large) paid in fiscal year 2022 was low relative to prior fiscal years. The severity trend assumptions used to forecast future paid

severity for these segments of claims were revised to moderate the impact of the low fiscal year 2022 emergence and provide greater stability in the provision for unpaid claims. This revision has an unfavourable impact of \$280.8 million on the provision for unpaid claims, holding all other assumptions constant.

Development assumptions pertaining to bodily injury were adjusted to reflect the B.C. Supreme Court decision on July 8, 2022 regarding limitations on the reimbursement of expert report and plaintiff disbursements. As a result of this decision, the Corporation has included no savings in the provision for unpaid claims on account of the affected *Disbursements and Expert Evidence Regulation*. This represents a change from fiscal year 2021, in which savings of \$261.4 million were included on account of these regulations.

b) Sensitivity Analysis

The sensitivity to significant assumptions is outlined below. The analysis is performed for possible changes in the assumptions with all other assumptions held constant, showing the impact on the provision for unpaid claims and net income in the table below. Movements in these assumptions may be non-linear and may be correlated with one another.

(\$ THOUSANDS)		2022	2021
Assumption	Sensitivity		
Discount rate	+ 1ppt ¹	\$ (370,000)	\$ (387,100)
Discount rate	- 1ppt	\$ 405,600	\$ 409,400
Severity of unpaid bodily injury claims	+ 1%	\$ 111,800	\$ 137,400
Future emergence of large bodily injury claims	+ 1%	\$ 41,900	\$ 50,900
Severity of unpaid enhanced accident benefit claims	+ 1%	\$ 12,800	n/a
¹ ppt = percentage point			

c) Provision for Unpaid Claims

The movements in the provision for unpaid claims and reinsurance recoveries and their impact on claims incurred for the year are as follows:

(\$ THOUSANDS)				2022			2021								
				nsurance					isurance

d) Claims development table

The top half of the table illustrates how the Corporation's estimate of total undiscounted claims costs for each loss year has changed at successive year-ends. The bottom half of the table reconciles the cumulative claims to the amount appearing in the consolidated statement of financial position.

As a result of the change in year-end in fiscal 2017, there are two claims development tables: one as at March 31, 2022 and one as at December 31, 2015. The Corporation changed from a December 31 to a March 31 year end in fiscal 2017, and therefore there are six years of historical data in the first table as at March 31, 2022.

Claims development table as at March 31, 2022:

(\$ THOUSANDS) Fiscal Loss Year*		2013	_	2014	_	2015	_	2016	_	2017	_	2018	_	2019	_	2020	 2021		2022	_	Total
Estimate of undiscounted		2013		2014		2013		2010		2017		2010		2017		2020	2021		2022		Total
ultimate claims costs:

*Figural Lago Vocamento - + + +1-		n andad M	L 2																		
*Fiscal Loss Year refers to the	e y ea	r ended M arc	п 3.	1																	

The table above reflects the total discounted provision for unpaid claims of \$13.70 billion (2021 – \$15.52 billion) before the amount for reinsurance recoverable. The total discounted provision for unpaid claims after the amount for reinsurance recoverable of \$0.04 billion (2021 – \$0.03 billion) would be \$13.66 billion (2021 – \$15.49 billion). The cumulative payments of fiscal loss year 2022 for the year ended March 31, 2022 are \$1.48 billion (2021 – \$1.19 billion).

The history for four prior periods ending December 31 is shown in the below claims development table as at December 31, 2015 due to the Corporation's change in year end in fiscal 2017:

(\$ THOUSANDS)						
Accident Year	2012	2013	2014	2015		
Estimate of undiscounted ultimate claims costs:						
- At end of accident year	\$ 3,030,779	\$	3,146,388	\$ 3,372,304	\$	3,765,040
- One year later	3,065,562		3,194,080	3,518,858		-
- Two years later	2,985,690		3,200,324	-		-
- Three years later	3,024,045		-	-		-

The expected maturity of the provision for unpaid claims is analyzed below (undiscounted and gross of reinsurance):

(\$ THOUSANDS)								
	Less than One Year	One to Two Years	Two to Three Years		ree to r Years	our to e Years	Over Five Years	Total
March 31, 2022	\$ 3,804,457	\$ 2,852,081	\$ 2,186,46	52 \$	1,508,783	\$ 929,311	\$ 2,145,161	\$ 13,426,255
March 31, 2021	\$ 3,824,991	\$ 3,079,536	\$ 2,587,98	33 \$	1,915,443	\$ 1,263,540	\$ 1,965,746	\$ 14,637,239
March 31, 2021	\$ 3,824,991	\$ 3,079,536	\$ 2,587,98	33 \$	1,915,443	\$ 1,263,540	\$ 1,965,746	\$ 14

The unpaid claims for future payment years except for the current year is \$9.62 billion (2021 - \$10.81 billion).

The weighted-average term to settlement of the discounted provision for unpaid claims as at March 31, 2022 is 2.8 years (2021 - 2.6 years).

16. Unearned Premiums

All unearned premiums are earned within 12 months of the reporting date. The movements in unearned premiums net of reinsurance and the impact on premiums earned for the year are as follows:

(\$ THOUSANDS)	2022	2021
Balance, beginning of year	\$ 2,396,658	\$ 2,954,508
Premiums written net of premium rebates/refunds during the year	4,830,110	4,819,140
Premiums earned net of premium rebates/refunds during the year	 (4,783,713)	(5,376,990)
Balance, end of year	\$ 2,443,055	\$ 2,396,658

Net premium written before rebates/refunds (note 7) includes \$10.7 million (2021 – \$14.0 million) of temporary operation permit policy, \$36.9 million (2021 – \$41.1 million) of garage policy and \$586.0 million (2021 – \$634.1 million) of fleet policy.

17. Reinsurance

The Corporation maintains casualty and catastrophe reinsurance to protect against significant losses.

During fiscal year 2022, the Corporation renewed the casualty reinsurance contract beginning May 1, 2021, for a 12-month term. On December 31, 2021, the Corporation terminated the renewal contract and entered into a 12-month contract beginning January 1, 2022. The Corporation also entered into a 12-month catastrophe reinsurance contract beginning January 1, 2022 as follows:

- a) For individual catastrophic occurrences, portions of losses up to \$275.0 million (2021 \$250.0 million) in excess of \$25.0 million (2021 \$25.0 million); and
- b) For individual casualty loss occurrences, portions of losses up to \$44.0 million (2021 \$44.0 million) in excess of \$6.0 million (2021 \$6.0 million).

These reinsurance arrangements do not discharge the Corporation's obligation as primary insurer. The Corporation evaluates the financial condition of its reinsurers to minimize the exposure to significant loss from reinsurer insolvency.

18. Pension and Post-Retirement Benefits

Plan information

The Corporation sponsors a defined benefit registered pension plan for its current and former management and confidential employees (the Management and Confidential Plan). Subject to the terms of the plan, the Management and Confidential Plan provides benefits to members based on their length of service and eligible earnings in the best five years of plan membership. Employees are required to contribute to the Management and Confidential Plan. Effective January 1, 2019, all Management and Confidential employees contribute 50% of the current cost benefits.

In addition, the Corporation sponsors two supplemental pension plans for certain employees. The Corporation is the legal administrator of the Management and Confidential Plan and the two supplemental pension plans. Subject to the terms of the plans, pensions are indexed in line with increases in the Consumer Price Index (CPI) up to fixed or sustainable maximums for certain periods of service.

The Corporation also contributes to two other defined benefit pension plans for which it is not the sole sponsor. Current and former employees of the Corporation who are or were members of the Movement of United Professionals are members of the MoveUP/Insurance Corporation of British Columbia Pension Plan (MoveUP Plan). Half of the Trustees of the MoveUP Plan are appointed by the Corporation and the other half by MoveUP. The Board of Trustees of the MoveUP Plan is the legal plan administrator. The MoveUP Plan provides benefits to members based on their length of service and eligible earnings in the best five years of plan membership. MoveUP employees are required to contribute 50% of the cost of benefits to the MoveUP Plan. Subject to the terms of the plan, pensions are indexed in line with increases in the CPI. The Corporation's former Motor Vehicle Branch employees participate in the BC Public Service Pension Plan. The Corporation has no fiduciary responsibility for, or role in the governance of, the MoveUP Plan or the BC Public Service Pension Plan.

The Management and Confidential Plan, MoveUP Plan, and the BC Public Service Pension Plan are subject to the statutory requirements (including minimum funding requirements) of the British Columbia *Pension Benefits Standards Act* (PBSA) and the *Income Tax Act* (Canada). Each plan's pace of funding is set out in their respective funding policies.

The Corporation pays life insurance premiums, extended healthcare, and dental costs as post-retirement benefits for its qualifying retirees. The benefits are not prefunded. Benefit entitlements differ for management and confidential and bargaining unit employees, as stated within the terms of the plans.

The Corporation measures its defined benefit obligations and the fair value of plan assets for accounting purposes at the end of the Corporation's fiscal year. Defined benefit obligations are extrapolated from the most recent actuarial valuation date for each of the plans. The Management

and Confidential Plan and the MoveUP Plan actuarial valuations are as at December 31, 2019 and the post-retirement benefits actuarial valuation is as at January 1, 2019. Updated actuarial valuations for the Management and Confidential Plan and the MoveUP Plan are expected to be no later than December 31, 2022. These results will be reflected in the financial statements in the year immediately following their preparation.

On its consolidated statement of financial position, the Corporation does not recognize its portion of any surplus assets held by the MoveUP Plan because it cannot realize a future economic benefit in respect of those assets.

An additional liability may be recognized in some instances if minimum future funding requirements are expected to generate a future surplus. These instances are ones where the Corporation would not be able to access or realize a future economic benefit from the future surplus. The Corporation has determined that no additional liability is required to be recognized in respect of solvency funding payments made to the Management and Confidential Plan. This is because the British Columbia PBSA permits the Corporation to secure these payments with a letter of credit in lieu of cash solvency payments or to deposit them in the Plan's Solvency Reserve Account (SRA), for which any surpluses in this account would ultimately be refundable to the Corporation. Furthermore, the Corporation may realize an economic benefit related to future current service cost, in respect of the Corporation, exceeding minimum funding requirements.

The weighted-average durations of the pension plans and post-retirement benefits are shown below, along with the approximate proportions of the defined benefit obligation by membership category:

	Pension P	lans	Post-Retiremen	t Benefits
	2022	2021	2022	2021
Weighted-average duration	20 years	21 years	14 years	17 years
Proportion of obligation in respect of:				
- Active members	48.3%	50.2%	38.4%	50.1%
- Deferred members	7.5%	7.6%	0.0%	0.0%
- Retired members	44.2%	42.2%	61.6%	49.9%

Since pensions are adjusted to changes in the CPI, the pension plans are exposed to changes in levels and volatility in Canada's inflation rate.

In addition, the plans' obligations are exposed to interest rate risk and changes in the life expectancy for pensioners. As the plan assets include significant investments in quoted equity shares, the Corporation is also exposed to equity market risk.

Contributions to all pension and post-retirement benefit plans

Total contributions for employee future benefits for 2022, consisting of cash contributed by the Corporation to all of the funded pension plans and in respect of benefits paid from its unfunded pension and post-retirement benefits, were \$43.3 million (2021 – \$41.6 million). Estimated

employer contributions for the year ending March 31, 2023 are \$47.5 million (2021 – \$46.2 million). The estimate is based on the plans' most recent actuarial funding valuations.

As at March 31, 2022, the Corporation secured certain solvency funding requirements through payments made into the SRA totalling \$0.5 million (2021 – \$0.7 million). The SRA is a separate account, established to hold solvency and transfer deficiency payments made under a defined benefit component of a pension plan. The only funds that may be deposited to the SRA are payments made in respect of a solvency deficiency. As at October 1, 2020, the Management and Confidential Plan no longer required a letter of credit given the Plan does not require any solvency funding following the filing of the December 31, 2019 valuation report on August 26, 2020.

Financial information

These consolidated financial statements include the assets and liabilities of all plans, excluding the BC Public Service Pension Plan, sponsored by the Corporation. The amounts recorded on the statement of financial position are as follows:

(\$ THOUSANDS)	Pension	ı Pla	ıns	Post-Retireme	nt Benefits	Tot	al	
	2022		2021	2022	2021	2022		2021
Assets								
Accrued pension benefits	\$ 245,213	\$	89,511	\$ - 5	\$ -	\$ 245,213	\$	89,511
Liabilities								
Pension and post-retirement benefits	 (37,958)		(275,101)	(148,223)	(182,612)	(186,181)		(457,713)
Net total asset (liability)	\$ 207,255	\$	(185,590)	\$ (148,223)	\$ (182,612)	\$ 59,032	\$	(368,202)

One of the pension plans is in a net asset position and, as a result, that plan is required to be reported as an asset on the consolidated statement of financial position. The net total asset for all of the Corporation's pension plans and post-retirement benefits as at March 31, 2022 is \$59.0 million (2021 – \$368.2 million liability), which is reflected in the consolidated statement of financial position as a \$245.2 million asset and a \$186.2 million liability as illustrated in the table above.

Information regarding the pension plans and post-retirement benefits is as follows:

(\$ THOUSANDS)		Pension Plans			Post-Retireme	ent Benefits
		2022		2021	2022	2021
Plan assets						
Fair value, beginning of year	\$	2,736,804	\$	2,432,395 \$	- :	\$ -
Interest on plan assets		90,200		94,569	-	-
Actuarial gain on assets		41,403		224,298	-	-
Employer contributions		37,838		36,627	5,432	4,959
Employee contributions		36,249		35,011	-	-
Benefits paid		(94,407)		(85,196)	(5,432)	(4,959)
Non-investment expenses		(600)		(900)	-	-
Fair value, end of year	_	2,847,487		2,736,804	-	-
Defined benefit obligation						
Balance, beginning of year		2,922,394		2,426,961	182,612	161,210
Current service cost		115,569		89,069	6,268	5,078
Interest cost		98,935		96,462	6,143	6,389
Remeasurements on obligation						
- due to changes in financial assumptions		(402,341)		336,155	(41,368)	14,894
- due to changes in demographic assumptions		-		15,157	-	-
- due to participant experience		82		43,786	-	-
Benefits paid		(94,407)		(85,196)	(5,432)	(4,959)
Balance, end of year		2,640,232		2,922,394	148,223	182,612
Funded status – plans in deficit		(37,958)		(275,101)	(148,223)	(182,612)
Funded status – plan in surplus		245,213		89,511	-	-
Net total asset (liability)	\$	207,255	\$	(185,590) \$	(148,223)	\$ (182,612)

The net total expense for the pension plans and post-retirement benefits is \$101.1 million (2021 - \$68.3 million). In addition, the Corporation contributed \$0.3 million in 2022 (2021 - \$0.4 million) to the BC Public Service Pension Plan.

Assets

The pension plans' assets consist of:

	Percentage of	Plan Assets
	2022	2021
Cash, cash equivalent and accrued interest	1.2%	1.5%
Equities		
Canadian	22.0%	25.4%
United States	21.5%	18.8%
Global	29.7%	23.1%
Fixed income		
Government	14.8%	19.1%
Corporate	10.8%	12.1%
	100.0%	100.0%

All bonds have quoted prices in active markets and all bonds are rated from BBB to AAA, based on rating agency ratings. All equity securities other than infrastructure, real estate and mezzanine debt funds have quoted prices in active markets.

Pension plan assets generated a return of 4.8% (2021 - 13.1%) for the year ended March 31, 2022.

For the Management and Confidential Plan, the administrator compares the investment performance of the fund against the median investment performance of a peer group of comparable pension funds at least quarterly. In addition, there are monthly and quarterly asset allocation reviews performed to ensure compliance with investment policies. For the MoveUP Plan, the long-term objective is to obtain an investment return that will exceed the investment return assumption used in the actuarial valuation and to provide positive real growth. The Trustees have outsourced the Chief Investment Officer (CIO) who reviews the fund managers' performance on a quarterly basis. The outsourced CIO invests funds based on the Trustees' approved Statement of Investment Policy.

As at March 31, 2022 and March 31, 2021, the Corporation's pension plans did not hold any of the Corporation's securities or assets nor were any of the plans' assets used by the Corporation during these years.

Assumptions

The significant actuarial assumptions adopted in measuring the Corporation's defined benefit obligation are as follows (weighted-average assumptions):

	Pension	n Plans	Post-Retiren	nent Benefits
	2022			2021
Discount rate	4.11%	3.30%	4.07%	3.30%
Rate of compensation increase	2.77%	2.77%	n/a	n/a
Pension inflation rate	1.75%	1.75%	n/a	n/a

Mortality assumptions are significant in measuring the obligations under the defined benefit plans. Future longevity improvements have been considered and included where appropriate. The following table summarizes the life expectancy for members, in years, based on the mortality assumption used:

20	22	2021						
Life expectancy at 65 f	or a member currently	Life expectancy at 65 f	or a member currently					
Age 65	Age 45	Age 65	Age 45					
23.9	25.3	23.9	25.3					

As at March 31, 2022, the extended healthcare trend rate is assumed to be six per cent per annum for the first year, decreasing linearly over six years to four and a half per cent per annum thereafter. As at March 31, 2021, the extended healthcare trend rate is assumed to be six and a quarter per cent per annum for the first year, decreasing linearly over seven years to four and a half per cent per annum thereafter.

The Plans' sensitivity to significant assumptions is shown below:

(\$ THOUSANDS)	Pension Plans]	Post-Retire m	Benefits	
		2022		2021		2022		2021
Estimated increase in defined benefit obligation - end of year due to:								
1ppt ¹ decrease in discount rate	\$	518,442	\$	608,710	\$	21,296	\$	31,274
1ppt increase in salary increase rate	\$	84,888	\$	103,769		n/a		n/a
1ppt increase in pension inflation rate	\$	385,089	\$	458,770		n/a		n/a
1ppt increase in healthcare trend rate		n/a		n/a	\$	8,651	\$	10,235
1 year increase in life expectancy	\$	76,872	\$	92,528	\$	2,909	\$	3,913
¹ ppt = percentage point								

The sensitivity to the significant assumptions has been determined assuming all other assumptions remain unchanged. If multiple assumptions were to change at the same time, there may be correlations between assumptions that could result in different impacts than simply adding the individual sensitivities above.

19. Operating Expenses by Nature

(\$ THOUSANDS)		2022	2021
Operating expenses – by nature			
Premium taxes and commission expense (note 18)	\$	690,890	\$ 821,434
Employee benefit expense:

Non-insurance		34,306		-		34,306
	\$	579,460	\$	241,974	\$	821,434

21. Related Party Transactions

ICBC is a wholly-owned Crown corporation of the Province of B.C.

All transactions with the Province of B.C.'s ministries, agencies, and Crown corporations occurred in the normal course of providing insurance, registration, and licensing for motor vehicles, which is representative of fair value unless otherwise disclosed in these notes. The Corporation has

elected to apply the exemption for government-related entities under IAS 24 Related Party Disclosures.

All transactions with the Corporation's subsidiary companies occurred in the normal course of investing in investment properties (note 2k) and pooled funds (note 6a).

The Corporation acts as an agent for the Ministry of Finance regarding the collection of provincial taxes on imported and privately sold used vehicles and motor vehicle-related debts. The Corporation is the sole provider of Basic insurance (note 1) in the Province of B.C. and, therefore, insures, at market rates, vehicles owned or leased by the Province of B.C. and its controlled entities. As a consequence of these relationships, the Corporation has, at any time, amounts owing to or from various government departments or ministries in the ordinary course of business.

The Corporation is also responsible for collecting and remitting in full to the Province of B.C. all driver license fees as well as vehicle-related fees for acquiring and distributing licence plates and decals including permits and other fees and fines. These collections are not revenue to the Corporation. The costs associated with the licensing and compliance activities conducted on behalf of the Province of B.C. are borne by the Corporation. These collections on behalf of and payments to the Province of B.C. are disclosed in the consolidated statement of comprehensive income under non-insurance operations.

The Corporation has defined key management as members of the Board of Directors and management employees at the Senior Director and equivalent level and above. The compensation for key management is shown below:

(\$ THOUSANDS)	2022	2	021
Key management compensation			
Compensation and other employee benefits	\$ 5,418	\$	5,579
Pension and post-retirement benefits	 609		572
	\$ 6,027	\$	6,151

As at March 31, 2022, \$0.6 million (2021 – \$0.7 million) was payable to key management.

The Corporation contributes to several defined benefit pension and post-retirement plans. Transactions with these entities are disclosed in note 18. During the year ended March 31, 2022, the Corporation incurred \$2.5 million (2021 – \$4.6 million) in administrative expenses and investment management fees on behalf of these plans interest-free. In addition, the Corporation provides certain administrative, investment management, and office services to the plans at no charge. Effective August 1, 2020, investment management fees are paid by the Management and Confidential Plan and other administrative and governance costs are paid by the Corporation and recorded as incurred. As at March 31, 2022, \$1.2 million (2021 – \$1.0 million) was payable to these plans for employer contributions.

22. Capital Management

The Corporation's capital is comprised of retained earnings and other components of equity. The Corporation's objectives for managing capital are to maintain financial strength, including the management of ongoing business risks and protection of its ability to meet the obligations to policyholders and others.

The Corporation operates two lines of insurance business, Basic and Optional. As prescribed in *Special Direction IC2 to the British Columbia Utilities Commission* (IC2) for Basic insurance, and in line with federally regulated insurers competing for Optional insurance, the Corporation has established capital targets based upon the capital management framework of the Office of the Superintendent of Financial Institutions Canada (OSFI), and OSFI's Guideline for the minimum capital test (MCT). The MCT is a ratio of capital available to capital required, and utilizes a risk-based formula to assess the capital adequacy, including financial risk and long-term financial stability, of an insurance company.

For the Basic insurance business, IC2 requires the Corporation to determine capital targets in accordance with a capital management plan approved by the BCUC (note 24) and to set Basic insurance rates in order to maintain an MCT ratio of at least 100%. On February 26, 2018, the Province of B.C. amended IC2 to suspend the requirement for BCUC to fix rates to allow the Corporation to maintain at least 100% Basic MCT up to and including fiscal year 2022 (or policy year 2021). In December 2020, the Province of B.C. amended IC2 to suspend the rate smoothing framework to allow a rate decrease and enable a capital build provision for policy year 2021. Since the amendment, the Corporation filed a revenue requirement application and received approval from BCUC to rebuild its depleted capital over the 23-month term of policy year 2021 while still providing a significant rate decrease for Basic insurance policyholders (note 24).

For the Optional insurance business, the Corporation determined a capital management target that is calculated based on the MCT guideline and the Guideline on Regulatory Capital and Internal Targets issued by OSFI. In prior years, when Optional capital was in excess of the management target, that amount, less any Treasury Board approved deduction, was to be transferred to the Province of B.C. by July 1 of the following year (note 24). In fiscal years 2020 and 2019, there were no excess capital amounts to be transferred. The government passed the legislation on August 14, 2020 to remove these requirements. As a result, going forward, the Corporation's Optional capital cannot be transferred to the Province.

The Corporation's capital was under pressure due to worsening claims trends and Basic insurance rate increases that were insufficient to cover costs in years prior to fiscal 2021. The Corporation has implemented steps to reduce claims cost pressures (note 3f and 3g) and to rebuild Basic capital levels while still providing a significant rate decrease for Basic policyholders (note 24). For fiscal year 2021, the Corporation experienced favourable claims trends that contributed to begin rebuilding capital. For the current fiscal year, in addition to benefiting from the capital build provision in Basic insurance rates, the Corporation had higher than expected investment income, which has enabled the Corporation to approve a \$396.0 million relief rebate (note 7) to policyholders while continuing to grow capital.

23. Contingent Liabilities and Commitments

a) Structured settlements

Certain injury claims are settled through the use of various structured settlements which require the Corporation to provide the claimant with periodic payments.

The Corporation purchases an annuity from an approved life insurance company to make these payments. In the event the life insurance company fails in its obligation, the risk to the Corporation is mitigated as the claimant will continue to receive payments, up to certain limits, from a not-forprofit organization that is funded by the insurance industry and designated by the Federal Government under the Insurance Companies Act (Canada). The Corporation is only responsible for making payments for the excess, if any, between the claimant's annuity payments and the payment from the not-for-profit organization. At present, three federally licensed life insurance companies are used by the Corporation. An insurance company is approved based on an ongoing analysis of total assets, credit rating analysis, and past service history. The present value of these structured settlements as at March 31, 2022 is approximately \$1.08 billion (2021 – \$1.14 billion), which are not recorded in the consolidated financial statements of the Corporation. Management does not believe any provision for credit risk is required in relation to these annuities as at March 31, 2022, as all approved life insurance companies are rated investment-grade and outstanding balances are backed by the not-for-profit organization. The not-for-profit organization provides guarantees of up to \$2,000 a month or 85% of the promised monthly income benefit, whichever is higher. The Corporation's exposure to credit risk beyond the guarantee is insignificant. To date, the Corporation has not experienced any losses resulting from these arrangements.

b) Other

The Corporation has committed to participating in the future funding of multiple investment programs and the timing of the funding and related acquisition of investments is uncertain, as it is dependent on appropriate investing opportunities identified by the investment manager:

- In 2022, the Corporation increased the commitment to invest \$859.9 million to a global real estate program. As at March 31, 2022, \$544.8 million (2021 \$232.7 million) of the commitment was funded.
- In 2022, the Corporation increased the commitment to invest \$427.7 million to a renewable resources and infrastructure program. As at March 31, 2022, \$388.7 million (2021 \$347.0 million) of the commitment was funded.
- In 2022, the Corporation increased the commitment to invest \$321.8 million to a private debt pooled fund. At March 31, 2022, \$140.7 million (2021 \$35.6 million) of the commitment was funded.
- In 2022, the Corporation increased the commitment to invest \$661.8 million to a private equities program. As at March 31, 2022, \$174.6 million (2021 \$0.1 million) of the commitment was funded.
- In 2022, the Corporation increased the commitment to invest in \$1.27 billion to a mortgage program. As at March 31, 2022, \$850.7 million (2021 773.7 million) of the commitment was funded.

In 2017, the Corporation made a commitment to invest \$150.0 million USD in a limited partnership for mezzanine debt over a period of 10 years. As of March 31, 2022, \$90.3 million USD (2021 – \$82.6 million USD) of the commitment was funded.

In 2019, the Corporation committed to a five-year software services agreement totalling \$16.0 million. As at March 31, 2022, \$12.7 million (2021 – \$9.4 million) of the commitment was funded.

c) Pending Litigation

A civil claim was filed in April 2019 against the Province of B.C. regarding legislation amendments over the Corporation's Basic insurance product that became effective on April 1, 2019 (note 3e). The plaintiffs were successful in bifurcating the hearing of the challenge of the CRT and the challenge to the minor injury legislation. The constitutional challenge of the CRT was ruled unconstitutional in March 2021 but the decision was appealed successfully in May 2022 which resulted in a favourable impact on the Corporation's provision of unpaid claims (note 15). With respect to the challenge to the minor injury cap, this remains outstanding with the plaintiffs taking no further steps to date to advance the claim. If the plaintiffs are successful, there will likely be a material financial impact on the Corporation.

A notice of civil claim was filed in March 2020 against the Corporation and the Province of B.C. The proposed class action alleges the Corporation has been making payments to the provincial Medical Services Plan contrary to law. It is further alleged that the payments have cost ratepayers hundreds of millions of dollars, driving up insurance costs and have also caused accident victims to receive fewer benefits. A certification hearing took place on April 26 to 28, 2021 and June 28 to 30, 2021. The presiding judge reserved the decision. During the hearing, the Judge was advised of Bill 12, which has received Royal Assent and as a result the Insurance (Vehicle) Act now requires the Corporation to reimburse the government for costs of health-related services arising out of vehicle accidents. These legislative amendments provide retroactive authorization to the existing agreements. Despite this, the plaintiffs are taking the position that these amendments do not prevent them from pursuing their allegation that the agreements/legislation is an unconstitutional tax. The continuation of the certification hearing was heard on February 11, 2022. The Court dismissed the application for certification of the ratepayer claim, but certified the class action for the accident victim claim. At this stage of the proceedings, the probability of success on the accident victim claim cannot be determined and the financial impact can vary depending on the outcome.

On August 13, 2021, a Petition was filed by the Trial Lawyers Association and individual plaintiffs (who have personal injury actions against ICBC insureds) against the Attorney General of British Columbia. The Corporation was not named in the Petition but the Corporation has standing on behalf of our named insureds in the personal injury actions. The Petitioners sought to overturn the provisions of the *Disbursements and Expert Evidence Regulation*, which placed restrictions on recovery of disbursements in vehicle injury actions at 6% of a settlement or court award, subject to limited exceptions. On July 8, 2022, the B.C. Supreme Court struck down section 5 of the *Disbursements and Expert Evidence Regulation*. As a result of this decision, the Corporation has included no savings in the provision for unpaid claims on account of the affected regulation (note 15). On July 12, 2022, the Attorney General of B.C. filed a notice of appeal of the B.C. Supreme

Court's decision. At this stage of the proceeding, the financial impact cannot be determined and can vary depending on the outcome.

24. Regulation over Basic Insurance

As discussed in note 1, the Corporation is subject to regulation by the BCUC. The BCUC has jurisdiction over the Corporation's rates and services for Basic insurance, and responsibility for ensuring that the Basic insurance business does not subsidize the Corporation's Optional insurance business.

For the regulation of the Corporation's Basic insurance rates, the BCUC is required to ensure that the rates are just, reasonable, not unduly discriminatory, and not unduly preferential. The BCUC is required to approve rates set on the basis of accepted actuarial practice allowing the Corporation to collect sufficient revenue, to pay for costs allocated to the Basic insurance line of business using the BCUC approved financial allocation methodology, ensure the Corporation maintains and/or builds the required Basic insurance capital, ensure rates are not based on age, gender or marital status, and to ensure increases or decreases in rates are phased in, in a stable and predictable manner.

The BCUC initiates regulatory processes upon application by the Corporation but may also do so on its own initiative. It uses oral and written hearings, or negotiated settlement processes to review applications and subsequently issues legally binding decisions. The Corporation is required to reimburse a portion of the BCUC's general operating expenses as well as its costs associated with each proceeding. The BCUC can also order the Corporation to reimburse other proceeding participants for specified costs such as legal and expert witness fees.

As required by the regulatory framework, the Corporation maintains a Basic insurance capital management plan that is reviewed and approved by the BCUC. The rate smoothing framework limits Basic insurance rate increases to a range of allowable rate changes, and uses Basic insurance capital to smooth the volatility in Basic insurance rates (note 10a).

Amendments to IC2 in calendar year 2016 suspended the capital build and release provisions of the existing capital management plan and kept the capital maintenance provision stable with no impact on the Basic insurance rate change.

On February 26, 2018, the Province of B.C. amended IC2 to suspend the requirement for the BCUC to fix rates necessitating the Corporation to maintain at least 100% Basic MCT for years up to and including fiscal year 2022. In December 2020, the Province of B.C. defined the period of time spanned by the 2021 policy year as 23 months instead of the regular 12 months period. This effectively suspends the requirement for the Corporation to maintain at least 100% Basic MCT for years up to and including fiscal year 2023.

Amendments to IC2 in December 2020 also suspended the rate smoothing framework to allow a rate decrease and enabled a capital build provision for policy year 2021. On December 15, 2020, the Corporation filed a revenue requirements application with BCUC requesting a 15% decrease in Basic insurance rate for the policy year 2021 (commencing May 1, 2021 for 23 months ending March 31, 2023), which is the net result of a larger decrease in costs which includes a 11.5

percentage points provision to rebuild Basic capital levels. This application was approved by BCUC on October 28, 2021.

Allocation of Basic and Optional amounts

The Corporation operates its business using an integrated business model. The majority of premium revenues and costs are specifically identifiable as Basic or Optional (see note 1).

The Corporation also delivers non-insurance services on behalf of the Province of B.C. Non-insurance activities include driver licensing, vehicle registration and licensing, violation ticket administration and government fines collection all of which are reported as Basic costs.

BCUC requires the Corporation to follow an approved financial allocation methodology with respect to allocating costs between the Basic insurance business, the Optional insurance business, and non-insurance services. For those revenues and costs that are not specifically identified, a prorata method is used to allocate to each line of business based on the drivers of those revenues and costs, the degree of causality, and any BCUC directives. BCUC directives have been applied on a prospective basis.

	\$	1,889,318	\$ 240,291	\$ 28,505	\$ 2,158,114

26. Subsequent Events

In April 2022, the Corporation completed the sale of three investment properties which were classified to assets held for sale this fiscal year 2022 (note 6) for a sale price of \$112.5 million. This resulted in a gain of \$53.1 million.

On July 4, 2022, a claim was filed against the Attorney General of B.C. challenging Enhanced Care. The claimants argue that the Enhanced Care legislation is a violation of equality rights under s. 15 of the *Canadian Charter of Rights and Freedoms* and grants the CRT power that violates the jurisdiction of the B.C. Supreme Court and as a result is unconstitutional. At this stage of the proceeding, the probability of success cannot be determined.

Corporate Governance

ICBC is governed by a Board of Directors, CEO and management team. They are guided by the public sector guidelines for corporate governance and must act in accordance with the provisions of the *Insurance Corporation Act*, the *Insurance (Vehicle) Act*, the *Motor Vehicle Act* and other legislation applicable to ICBC.

Changes to ICBC's Basic insurance rates are regulated by the BCUC to ensure that Basic insurance rates are justified and reasonable.

For additional information, please refer to the Corporate Governance section of ICBC's website.

Schedule of Guarantees and Indemnities

As at March 31, 2022

There were no guarantees or indemnities provided by the Corporation during the fiscal year 2022.

Schedule of Debts

As at March 31, 2022

There were no long term debts secured by the Corporation at March 31, 2022.

Financial Information Reconciliation

For the year ended March 31, 2022

(\$ THOUSANDS)

Amounts paid per	Financial	Information	Schedules
------------------	-----------	-------------	-----------

Total Remuneration – Board of Directors	\$	308
Total Remuneration – Employees		499,759
Total Remuneration Paid		500,067
Reconciling items:		
Amounts paid to Board of Directors	\$	(308)
Amounts capitalized or recovered		(21,610)
Severance		1,131
Benefits paid on behalf of employees		32,518
Timing and other differences		(15,128)
		(3,397)
Total Compensation and Other Employee Benefits per Note 19 (page 65)	\$_	496,670

Note: A reconciliation of amounts reported in the Financial Information Act Return and the audited consolidated financial statements has not been prepared for amounts paid to suppliers for goods and services due to the significant volume and complexity of reporting for supplier payments. ICBC prepares its financial statements on an accrual basis while amounts reported in the Financial Information Act Return are based on cash payments in the year. This results in timing differences between amounts recorded in the financial statements and amounts paid in the year. In addition to timing differences, the operating expenses in the financial statements differ from the amounts paid to suppliers for goods and services due to non-operating and capital payments, and amounts paid to claims suppliers for goods and services.

Notes:

¹ Information provided is based on Payment Date recorded where the law firm is acting as Plaintiff Counsel and includes only amounts where the law firm is the Payee or Payee (in trust), and includes all payments for all claims coverages, for all open and closed claims. Amounts paid directly to claimants or other third party service providers are not included in the table above.

² Plaintiff Costs and Disbursements include sales taxes.

³ In-Trust Settlement Payments include amounts paid to Plaintiff Firm on behalf of claimants. A portion of the Settlement Payments is retained by firms as part of their fees and costs for legal services.

⁴ Payments made to law firms when acting on behalf of ICBC as defense counsel are not included in the table above.
