# MAXIS+ YOUR ENHANCED SUITE OF HEALTH DATA INSIGHTS AND WELLNESS SERVICES

When it comes to global employee benefits (EB) multinationals like you need high quality, timely data to help manage your programme. Without this, tackling the biggest health problems facing your people and managing your medical claims costs in a strategic way is nearly impossible.

With medical costs rising at over 10%[1] and employees needing the support of their employers more than ever, data-driven insights have never been more important for informed decision-making.

## Introducing MAXIS+

That's why we created MAXIS+, our most advanced suite of health data insights and wellness services yet.

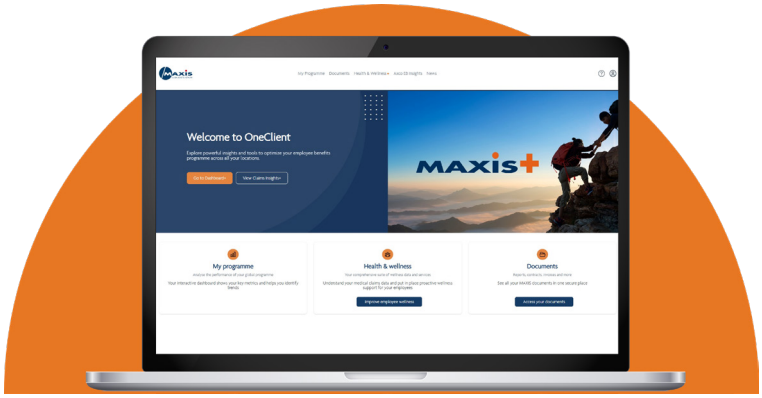

For more than a decade, we've been developing our capabilities to not only offer access to data in a timely manner but also provide clear insights that help you make the best decisions for your people and your programme.

We've drawn on our experience of creating compelling data and health and wellness products to create a new standard of services.

These are designed to help you drill even deeper into your claims to understand what is happening with your employee health.

MAXIS+ is designed for multinationals looking to make proactive, data-driven decisions about their EB programme.

You can find all your MAXIS+ services in our upgraded OneClient portal, helping you understand and manage your medical spend seamlessly.

**Existing MAXIS captive and pool clients can choose to upgrade to MAXIS+.**

**For more information, please contact your MAXIS GBN representative.**

MAXIS GLOBAL BENEFITS NETWORK

MAXIS+

## What's included with MAXIS+?

### Dashboard+

**Dashboard+** takes everything you already value about our paid claims dashboard and adds enhanced analytics and more sophisticated data. It includes the most up to date data across multiple years, helping you uncover trends and make the best strategic decisions. The high-level global view gives you the big picture quickly, while the detailed local view is perfect for reviewing the data in more depth.

The dashboard lets you track the metrics that are most important to you. Generate bespoke reports by creating your own graphs and charts in seconds. Advanced filters help you identify cost drivers, predict future trends and make proactive decisions about employee health.

Extracting the standardised data in both PDF and Excel format truly puts data in your hands, allowing you to combine with other data outside of MAXIS or input into your own dashboard.

### Claims insights+

Understand your claims data in a clear and simple format. **Claims insights+** summarises your medical claims data and gives guidance on how to tackle your most costly claims drivers. The claims analysis is broken down into a variety of categories, including: demographic, gender, benefit, disease and risk insights.

The cancer analysis illustrates the potential lives that could be saved and medical claims cost impact of increased screening, helping you get buy-in to introduce screening programmes.

### Country guide+

This comprehensive and interactive guide is designed to give you in-depth analysis of key markets using MAXIS country benchmark and public health data. **Country guide+** helps you identify major disease drivers, highlights gaps in public health systems and much more.

### Advisory+

Our Health & Wellness team has decades of experience assisting multinationals to understand their medical claims data and creating bespoke strategies to address their biggest cost drivers. **Advisory+** gives you ten hours of expert consultation and support from the team, who can advise on prevention and screening strategies, table of benefits reviews and much more.

### Toolkits+

Our health and wellness toolkits are ready-made communications campaigns that help you educate your people about different health risks. **Toolkits+** takes this to a new level – you will have access to up to three new toolkits every year and have access to our bank of existing toolkits in both English and Spanish languages.

**MAXIS+ is included for all MAXIS Global Captive Solution clients starting their programme on or after 1 January 2026.**

**Existing MAXIS captive and pool clients can choose to upgrade to MAXIS+.**
