**Fulfilment of Conditions B28 for Stage 1 Trunk Drainage Corridor at Westlink –
Abbotts Rd, Kemps Creek (SSD-9138102)**

Dear Grace,

Thank you for the collaborative work over the past months between ESR, JWP and Sydney Water to resolve the Stage 1 Trunk Drainage Design and satisfy the requirements of Conditions B28.

Sydney Water has reviewed the final Detailed Concept Design drawings package submitted by JWP (WESTLINK - ABBOTTS RD, KEMPS CREEK, TRUNK DRAINAGE STAGE 1 DRAINAGE CHANNEL WORKS, submitted 07.07.2023) and associated Landscape Drawings submitted by Site Image (Proposed Industrial Estate - Trunk Drainage, submitted 03.07.2023) for the Westlink development Stage 1 Trunk Drainage Corridor.

As the Regional Stormwater Authority, Sydney Water are satisfied that the trunk drainage has been designed in accordance with the clauses of Consent Condition B28. Sydney Water recommend that earthworks can commence on site, after approval from the Planning Secretary, as per Consent Condition B29.

ESR have agreed to continue working with Sydney Water through detailed design of the Trunk Drainage and we look forward to continuing work with you to further refine the design

Yours sincerely,
