Re: SSD – 47601708: Current Status of Development

Dear Joshua,

Regarding Development Consent Application SSD – 47601708, condition C14 requires the status of the development to be made available. Please see below details of the development's current status:

The development is reaching practical completion in early June 2024. Occupational Certificate is anticipated 31/05/24 after completion of the remediation, civil works and built form across four construction certificates.

If you have any clarifications required on the above, please contact me directly.

Kind regards

Simon Davis
Senior Project Manager
