

Industrial Building: ESR Westlink Stage 2

Life Cycle Carbon - Global: Construction Materials

Construction	Resource	User input	Global warming kg CO <sub>2</sub> e	Biogenic carbon storage kg CO <sub>2</sub> e bio	Social cost of carbon	Comments
Building materials > Vertical structures and facade > External walls and facade						
		Section share	23.49 %	97.91 %	23.49 %	
Building materials > Vertical structures and facade > Columns and load-bearing vertical structures						
		Section share	0.02 %		0.02 %	
Building materials > Horizontal structures: beams, floors and roofs > Floor slabs, ceilings, roofing decks, beams and roof						
		Section share	76.45 %	2.09 %	76.45 %	
Building materials > Other structures and materials > Other structures and materials						
		Section share	0.03 %		0.03 %	
Building materials > Other structures and materials > Windows and doors						
		Section share	0 %		0 %	
Building materials > External areas and site elements > Materials and constructions for external areas						
		Section share	0 %		0 %
