

Why cycle?

- To save money**
Cycling costs 85% less than driving.
- To save time**
For journeys from 3 to 5 km cycling is often the quickest form of transport.
- For health and fitness**
Cycling helps to reduce high blood pressure and your chance of having a stroke.
- For enjoyment**
Cycling is an easy and enjoyable activity with friends and family.
- For the environment**
Cycling produces virtually no atmospheric pollution or noise.

Cycle Training

Whatever your level, we can help you get the best from riding your bike. We offer a range of courses across Greater Manchester, led by expert instructors to get you up-to-speed whether that be learning to ride, building skills and confidence, looking after your bike or becoming a ride leader.

Visit the website beenenetwork.com/cycle-training to find out more.

Please note that this mapping shows location and type of infrastructure. It is not an indication of any particular standard of infrastructure, or for whom the infrastructure may be suitable (beginner cyclist, experienced cyclist etc). In Greater Manchester we have now adopted a clear standard of route provision for which all new active travel infrastructure in GM must comply, as articulated through our Design Guide. This standard is intended that it is suitable for an unaccompanied 12 year old, following completion of level 2 Bikeability, which is offered in most Greater Manchester schools during Year 6. Future versions of this mapping, to be published during 2023, will include an indication of where infrastructure comes up to this adopted standard.
