## 1. Introduction

1.1 The Greater Manchester Authorities require high quality data on the travel behaviour of residents in Greater Manchester (GM) to inform transport policy, modelling and appraisals and to provide a robust measure of how travel behaviour may change in response to changes in population characteristics, land use and investment in transport. To obtain this data, Transport for Greater Manchester (TfGM) commissioned AECOM to administer a programme of Household Travel Diary Surveys (GMTRADS) with households from Greater Manchester selected to a geographically stratified random probability sample.

Initially, the aim was that surveys would be carried out on a rolling basis over a six year period. This period was recently extended by a further three years. The survey involved 2,000 household interviews conducted as a rolling programme of surveys: February 2017 to January 2018 in Year Six.

1.2 This technical report provides a record of how the survey was conducted in the sixth year of surveying.

1.3 The methodology and survey instruments were kept largely the same as in previous years to allow comparison between data. There were however, four new questions added to the person questionnaire and an amendment made to two of the questions on the travel diary for the Year Six survey. (See Section 4 for further details)

1.4 In this document we describe the approach taken for the Year Six survey, including:

- Questionnaire and survey instruments;
- Sampling of addresses;
- Survey methodology;
- Data processing;
- Outcome of the survey including response rates; and
- Fieldwork issues and lessons learnt.

## 2. Survey Materials

2.1 Copies of each of the documents used for the survey can be found in Appendix A. The survey instruments included the following:

- An **introductory letter** providing information about the survey that was delivered to each household sampled (Document A);
- A **contact record sheet** recording household size, interview record details, i.e. date of interview, travel date and contact details for respondent (Document B);
- A **household questionnaire** recording information about the whole household, e.g. composition, age, gender, ethnicity, access to vehicles, income, etc. (Document C);

- A **person questionnaire** completed for each household member aged five or over recording information on personal travel behaviour (Document D);
- A **travel diary** recording details of trips made in a 24-hour period, the day before the interview was conducted (Document E); and
- A set of **show cards** (Document F) relating to Documents C, D and E.

2.2 Records of the contact(s) made at each sampled household were recorded on the **contact record sheet** (Document B), including when interviews were secured, number of calls required to make contact and outcomes following contact, e.g. reasons for refusals.

### 3. Sampling

3.1 The sampling was conducted to a random probability design. The main output of the sampling process was a randomly generated list of pre-selected addresses for inclusion in the survey. In total, 4,205 addresses were sampled as the basis for achieving 2,000 interviews.

3.2 A geographically stratified random probability sample approach was used, as opposed to selecting a purely random sample of addresses for interview across Greater Manchester, to ensure a balance of interviews across all population densities. The sample was stratified by district and ACORN profile.

3.3 The first stage in sample selection was to specify the number of interviews to be achieved in each district. If sampling had been in proportion to the number of households in each district then a relatively small number of interviews in the less populated districts would have been achieved, e.g. 136 interviews in Bury.

3.4 A proportional approach would have limited the reliability of the data in less populated districts, therefore a disproportionate sampling approach was taken to increase the sample rate in those areas. The approach was to set a minimum sample size (in terms of achieved interviews) in each district. The minimum sample size was then applied in the relatively less populated districts, such as Bury, with the sample rate in the most populated districts such as Manchester being decreased to provide more robust data at this level.

3.5 Secondly, within each district the sample was stratified by ACORN profile to ensure the sample accurately represented each type of household, namely:

- Affluent Achievers;
- Rising Prosperity;
- Comfortable Communities;
- Financially Stretched; and
- Urban Adversity.

3.6 **Table 1** shows the number of addresses sampled in each district and the target number of interviews to be achieved in each district during 2017/18. As in previous years, the minimum sample size was set at 170 interviews per district to allow for a reasonable degree of confidence in the data for less populated districts.

3.7 The total number of addresses to be sampled (and target interviews to be completed) slightly exceeded the agreed numbers in each year to allow for practical allocation of the sample.

**Table 1 Target Sample Size by District (2017/18)**

District	All Households (2011)	Addresses in Postal Address File (PAF)	No. of Addresses Sampled	Target No. of interviews
Bolton	116,371	122,374	410	197
Bury	78,113	76,263	358	170
Manchester	204,969	219,159	762	362
Oldham	89,703	94,753	357	170
Rochdale	87,552	92,535	358	170
Salford	103,556	112,600	358	170
Stockport	121,979	126,859	418	199
Tameside	94,953	100,717	358	170
Trafford	94,484	97,010	359	170
Wigan	136,386	141,923	467	222
<b>Total</b>	<b>1,128,066</b>	<b>1,184,193</b>	<b>4,205</b>	<b>2000</b>

*Note: Addresses in PAF exceed households as the data from 2011 is not up to date, and includes deadwood (typically 4%-22%).*

- 3.8 The sample was drawn from the 2017 small users Postal Address File (PAF) as this forms the most comprehensive listing of residential addresses available. The sampled addresses were mapped to verify the sample distribution and approved by TfGM.
- 3.9 The randomly sampled addresses in each district formed the interviewer allocations, i.e. the addresses interviewers needed to approach to conduct the interviews.

#### 4. Fieldwork Methodology

- 4.1 As in previous years the approach was a household interview survey, conducted face-to-face with all members of the sampled households aged five or over.
- 4.2 The survey materials have been kept the same since Year Two. There were however, four new questions added to the person questionnaire. New questions to the person questionnaire included:
  - Frequency of using different modes;
  - Use of 'Get me there' card;
  - Registered on the 'Get me there' app; and
  - Use of contactless payment.

The travel diary was amended to allow recording of the tickets used for each journey and to record where more than one bus/train/tram used during a journey.

- 4.3 At the start of Year Six, all interviewers attended a one day training session which included:
  - **Results:** feedback on how the team have performed in the previous year, including targets met, etc;
  - **How TfGM use the data:** representatives from TfGM attended the briefing and provided details of how the information is used;

- **Differences in interviewer performance:** details of each interviewer’s performance were presented to the group, so each interviewer could see how they compare with other interviewers. This allowed for open discussion and advice from peers on how to deal with situations which cause some interviewers more difficulties than others, e.g. gaining access to flats;
- **Re-Brief:** re-run through the key points of the initial training to remind interviewers of the key points of the survey;
- **Common issues:** a run through any mistakes that have been made and a discussion on how to avoid them. This included feedback from the interviewers on how mistakes occur to establish if any amendments need to be made to the survey material or training material;
- **Tricky diary scenarios:** the completion of the diary is often the most difficult part of the survey, particularly as people have very complicated lives. We ran through examples of where uncommon situations have arisen and discussed how these scenarios should be dealt with in the future. We also included a refresher on how to deal with bus, taxi and HGV drivers and other professions such as salespeople and district nurses whose travel habits are often complicated and provided examples of how to complete the diary; and
- **New Questions:** the new questions on the person questionnaire and amendments to questions on the travel diary were explained to interviewers. TfGM administered a short quiz to help interviewers understand how to identify the correct ticket(s) used by respondents in line with recent ticketing changes in Greater Manchester.

- 4.4 In addition to the survey instruments shown in Appendix A, each interviewer was also issued with a laminated copy of the **introductory letter** to show to respondents if the delivered letter had been mislaid. Interviewers also left a **thank you leaflet** at the close of the interview which provided contact details should the respondent have required further information or reassurance about the survey.
- 4.5 Interviewers also carried street-map books of Greater Manchester (Street A-Z Atlas). This was used to assist respondents in identifying places visited on the Travel Day and record a grid square if no precise address could be given.
- 4.6 Interviewer assignments were compiled based on lists of 10 addresses. Assignments were allocated such that surveys would be conducted in each district every month, with the number of addresses issued per week approximately equal through the year.
- 4.7 Around 350 addresses were issued each month. From August some addresses were re-issued where no contact had initially been made.
- 4.8 The above approach ensured a rolling programme of interviews every month in broadly equal proportions by district relative to sample size.
- 4.9 On all interviewer allocations a kish grid was provided adjacent to each sampled address. This was used to randomly select a household when interviewers encountered multiple properties resident at one address on the PAF.
- 4.10 The interview was conducted with all household members aged five or above, so no random selection of respondents was required. The survey was with residents in GM at the time of interview, with visitors excluded from the surveys. Students were included at their term time address for interviews undertaken in term time and their vacation address for interviews undertaken during vacations. Students visiting the parental home or any address other than their ‘home’ during term time were classed as visitors and excluded from the interview.

- 4.11 The interviews were conducted in broadly equal proportions over seven days in each survey week in order to provide data on weekday and weekend travel behaviour. The surveys continued through all holiday periods with the exception of bank holidays.
- 4.12 The travel diaries were required to collect all trips made by the household in a single 24 hour period 4am to 3:59am, i.e. the travel day. Where all respondents were present at the time contact was made, the interview was conducted at that time. Where individuals from a household were absent, appointments were made at a time when all people could be present to ensure that the travel day was consistent for all. As a last resort, if one member of the household could not be present interviewers left a memory jogger and collected those persons' trips at a later date.

## 5 Maximising Response

- 5.1 A number of mechanisms were applied to ensure a high response rate, including:
- A prize draw;
  - A minimum of four call backs to addresses to achieve contact;
  - An introductory letter sent in advance; and
  - Interviewer training.
- 5.2 There was a prize fund of £900. Prize draws took place on a monthly basis. Once all sample points for a month were completed all participating households were entered into the prize draw. Twelve draws were carried out in total with respondents having an approximately 1 in 200 chance of winning.
- 5.3 For each draw, a sequential number was assigned to each household ID and using a random number function in Excel, one household was randomly selected. Each winner was contacted, either by phone (where a contact telephone number was available), or in writing, informing them that they had been successful. £75 of Love to Shop vouchers were posted to respondents.
- 5.4 Feedback from interviewers suggests that the prize draw made a small positive difference to the response rate in enlisting respondents who may otherwise have refused to participate.
- 5.5 Call backs to selected households where no contact was made initially were conducted on different days and at different times to allow for working patterns and short term absences.
- 5.6 An **introductory letter** bearing the address of each selected household were delivered to households, usually in advance of the interviewer's first call. However, if on delivery of the letters, there was clearly someone at home, the interviewer would attempt to secure an interview at that time, highlighting the information regarding data protection and contact information to verify the bona fide of the survey.
- 5.7 Interviewers carried visually evident ID in addition to carrying a laminated version of the **introductory letter**.
- 5.8 Interviewer training included practice sessions to encourage respondent participation. Advice to interviewers included maintaining a smart, casual appearance, and varying the times and days of calling.

## 6 Data Processing

- 6.1 Completed questionnaires were returned to AECOM where the following procedures were conducted for quality control:
- A visual check to ensure complete interview present (i.e. all forms completed fully and accurately);
  - Telephone back-checks on 10% of completed interviews (n=208);
  - Data input to bespoke data entry programme;
  - Address data verified and coded either to postcode or OS grid reference;
  - Validation checks using SPSS; and
  - Validation checks using TfGM's validation tool.
- 6.2 Data was processed every two weeks regardless of the number of completed questionnaires. This allowed for continuous data to be supplied to TfGM. Each batch of data contained between 69 and 101 households (average 86). When a batch of data successfully met all the validation checks, the paper questionnaires and the output files were securely supplied to TfGM in comma separated variables (CSV) files.
- 6.3 Back-checks took place on a fortnightly basis to ensure they were conducted soon after the survey to aid respondent recall and to enable prompt feedback to the interviewers. The back-check procedure was to ask the respondent to confirm that the interview took place satisfactorily and to verify the responses recorded for three or four questions from the survey.
- 6.4 The visual checks to the survey forms included the following procedures and checks:
- Verifying that all the sections of the questionnaire bore the sample ID;
  - Verifying that the number of person interviews matched the household size;
  - Verifying that all the sections of the questionnaire bore the correct travel date;
  - Verifying that the person number was on the relevant diary sheets and that trips were sequentially numbered;
  - Checking that all routing was properly followed and responses were in range;
  - Checking employment / education addresses were fully recorded and coded where applicable;
  - Checking the new questions had been completed correctly;
  - Verifying the main mode used for trips;
  - Checking that responses were consistent with age/ employment status/ health etc.;
  - Cross referencing diary trips with the diary summary;
  - Checking that whole trips and any sequence of trips was logical and consistent with age/ employment status/ car available/ ticket /health, etc., including:
    - Fully recorded and legible destinations;
    - Times in 24 hour format, sequential for depart and arrive, and subsequent/ previous trips; and
    - For those driving, consistency with driving licence and car availability.
  - Checking that the new ticket questions had been completed correctly.

- 6.5 At the data entry stage, destination information was coded as either a postcode or a full grid reference. In many cases, respondents were unable to provide a full postcode for their destination address, but could give sufficient information for it to be found, for example supermarkets and the road/area.
- 6.6 Following feedback from TfGM an additional check was introduced during Year Four interviewing; for each address with a grid reference given, the Grid Reference Finder website (<http://gridreferencefinder.com>) was used to look up the eastings / northings given for the postcode found by Data Entry staff.
- 6.7 Postcodes could not be recorded in many cases. This included destinations where a postcode did not exist, for example, local parks. Some respondents could not remember postcodes of unfamiliar addresses, and some were not comfortable giving other people's postcodes. Where people were unable to give precise destination information interviewers recorded a grid square using the Street A-Z Atlas which could then be used to give grid references to within 100m. For destinations outside of Greater Manchester with no given or specific destination, e.g. London, a central postcode was added.

**7 Outcome of the Survey**

- 7.1 A total of **2,062** interviews were recorded with households. A further **10** addresses commenced an interview that was not subsequently completed. This occurred when one or more household members refused to take part after one person had participated. These have not been included in the final sample.
- 7.2 A subsample of the **4,205** addresses drawn were held in reserve and not issued until other addresses had been exhausted; a total of **3,869** addresses were actually issued through the year. **410** addresses that had resulted in non-contact in the first few months of the survey were issued a second time later in the year. **Table 2** below shows the final outcome for these addresses.

**Table 2 Response Rates**

	Addresses
Issued addresses	3,869
Deadwood	232
<b>Remaining addresses</b>	<b>3,637</b>
Non-Contact	1,109
Refusals	456
Partial/aborted interviews	10
Achieved Sample	2,062
<b>Response Rate</b>	<b>57%</b>

- 7.3 Of those that refused to take part in the survey, 'too busy' (30%) and 'never do surveys' (32%) were the most common reasons given.
- 7.4 Fieldwork commenced on 1<sup>st</sup> of February 2017 and continued to 31<sup>st</sup> January 2018. **Table 3** shows the number of interviews conducted each month.

**Table 3 Interviews by Month**

Month	Count	Percent (%)	Cumulative Percent (%)
February 2017	215	10	10
March 2017	198	10	20
April 2017	166	8	28
May 2017	190	9	37
June 2017	205	10	47
July 2017	178	9	56
August 2017	164	8	64
September 2017	118	6	70
October 2017	145	7	77
November 2017	158	8	84
December 2017	131	6	91
January 2018	194	9	100
<b>Total</b>	<b>2,062</b>		

7.5 Targets were set for the sample to ensure that days of the week were adequately represented in the **travel diary**. **Table 4** shows that 59% of all travel days were on a weekday, 13% on a Friday and 28% were completed over the weekend.

**Table 4 Travel Day**

	Target (%)	% achieved
Monday to Thursday	55-59	59
Friday	12-16	13
Sat / Sun	26-30	28

In each of the districts the target for the sample was exceeded, as shown in **Table 5**.

**Table 5 Sample by District**

	Target	Achieved Sample
Bolton	197	203
Bury	170	184
Manchester	362	369
Oldham	170	171
Rochdale	170	175
Salford	170	173
Stockport	199	205
Tameside	170	174
Trafford	170	185
Wigan	222	223
<b>All</b>	<b>2,000</b>	<b>2,062</b>

7.6 **Table 6** shows the response rates by district for the sample.

**Table 6 Response Rates by District**

	Issued addresses	Deadwood	Remaining addresses	Non-contact	Refusals	Partial/aborted interviews	Achieved sample	Response rate %
Bolton	398	22	376	106	64	3	203	54
Bury	324	19	305	81	40	0	184	60
Manchester	719	62	657	217	69	2	369	56
Oldham	330	13	317	88	57	1	171	54
Rochdale	329	16	313	113	25	0	175	56
Salford	327	41	286	86	27	0	173	60
Stockport	361	13	348	91	51	1	205	59
Tameside	320	16	304	75	53	2	174	57
Trafford	308	18	290	81	23	1	185	64
Wigan	453	12	441	171	47	0	223	51
<b>All</b>	<b>3,869</b>	<b>232</b>	<b>3,637</b>	<b>1,109</b>	<b>456</b>	<b>10</b>	<b>2,062</b>	<b>57</b>

7.7 The number of trips recorded in the sample was 10,710, from 4,573 people aged five or over, giving an overall trip rate of 2.3 trips per person per day.

## 8 Fieldwork Issues

8.1 Accompaniments were undertaken with interviewers. This was a valuable exercise in understanding various difficulties faced by interviewers and these were similar to those encountered in previous years. These included:

- Flats and gated properties becoming an increasing issue as interviewers cannot gain access to even post the **introductory letter**.
- Where there was clearly someone at home but no-one answered the door, either because they were unable to hear the interviewer’s knock, unable or unwilling to come to the door.
- Householders unwilling to admit interviewers into the house, resulting in a large number of interviews being conducted on the door step.
- Young people with no adult present and not being able to provide information on when to contact the household/adult.
- Refusals.

8.2 The trip rate per interviewer was monitored and fed back to interviewers monthly through the **interviewer feedback forms**. Those interviewers whose trip rate was lower than average were reminded about encouraging respondents to recall all trips, for example, asking if those who had been at work had been out at lunchtime.

- 8.3 The new Greater Manchester map books (2016 edition) were introduced in Year 5. These have helped reduce the number of inaccurate grid references and enabled interviewers to more accurately pinpoint locations that respondents do not have postcodes for.
- 8.4 Travel day: our monitoring procedures highlighted that half way through the year, more interviews were taking place on a weekend rather than a weekday or Friday. This was contrary to previous years, where interviewers tended to favour weekday interviewing. To address this, from July onwards, interviewers were given maximum targets for weekend interviews. In December, weekend interviews were temporarily suspended in some districts, to redress the imbalance in travel days and ensure that weekday targets would be met.
- 8.5 Concessionary passes and season tickets: there was confusion where concessionary passes also require ticket purchases, e.g. IGO, Scholars Pass (16-19). This was addressed in the re-brief session at the end of Year Six.

**9 Trip Rate Analysis**

- 9.1 The trip rate, i.e. the number of trips per person per day for the survey overall was 2.3, with 39% of trips made as the car driver as the main mode and 28% on foot. This is shown in **Table 7**.

**Table 7 Trip Rate by Mode**

	<b>Trip Rate</b>	<b>%</b>
Walk	0.65	28%
Cycling	0.05	2%
Motorcycling	0.00	0%
Car Driver	0.92	39%
Car Passenger	0.45	19%
Train	0.02	1%
Tram	0.03	1%
Bus	0.16	7%
Taxi	0.04	2%
Other	0.01	0%

9.2 **Table 8** compares the trip rates between respondent types. Respondents in employment had a trip rate of 2.7, compared to a trip rate of 2.1 amongst respondents that were not. Similarly, respondents with a full driving licence for a car or van had a higher trip rate than respondents with no licence (2.7 and 1.9 respectively).

**Table 8 Trip Rates**

		Trip Rate
Employment Status	Employed	2.7
	Not Employed	2.1
Age Group	5-15	2.3
	16-17	1.9
	18-24	2.2
	25-34	2.6
	35-44	2.9
	45-54	2.5
	55-59	2.4
	60-64	2.2
Licence	65+	1.9
	Full Licence for car/van	2.7
	No Licence	1.9
Mobility	Yes, limited a lot	1.2
	Yes, limited a little	1.9
	No	2.5
Number of Cars in Household	None	2.0
	One	2.4
	Two	2.5
	Three or more	2.2

**10 Survey Sample**

10.1 While random probability samples are generally perceived as providing the most representative data statistically, they can never be wholly representative as refusals can never be eliminated, and in spite of repeated call backs, all potential respondents cannot be contacted. The behaviour of non-respondents therefore can never be known and compared with that of respondents. Single person households and those who are economically inactive are likely to be over represented in a random survey compared with one where quotas are set to ensure minimum numbers of employed people, etc.

10.2 The sample composition for the survey is summarised in **Table 9**.

**Table 9 Sample Composition**

		<b>N</b>	<b>%</b>	<b>2011 Population Stats %</b>
Age	5-15	690	15	14
	16-17	89	2	3
	18-24	416	9	11
	25-34	637	14	15
	35-44	620	14	15
	45-54	583	13	14
	55-59	287	6	6
	60-64	236	5	6
	65+	1,005	22	16
	<b>Total</b>	<b>4,563</b>		
Employment Status	Employed	1,933	42	
	Not Employed	2,640	58	
	<b>Total</b>	<b>4,573</b>		
Number in Household	Single Person	621	30	
	Two	717	35	
	Three	314	15	
	Four	257	12	
	Five	93	5	
	Six or more	59	3	
	<b>Total</b>	<b>2,061</b>

www.tfgm.com

*Household Address*

*Reference No: Sample ID  
Month and Year*

*Your Interviewer:  
Interviewer Name*

Dear Householder,

**Help us with a local Travel Diary Survey with a chance to win £75 in Shopping Vouchers**

I am writing to ask for your help with an important survey that is taking place across Greater Manchester. This study, for Transport for Greater Manchester (TfGM), gathers information about where, when and how residents travel whether it is by car, public transport, walking, cycling or wheelchair. Whether you travel a lot, a little, or not at all, your views are important to us.

We cannot interview everyone in Greater Manchester, and so a sample of addresses is selected. Your address is one of those selected at random from the Royal Mail's list of addresses. Your participation is, of course, voluntary, but by taking part, along with 200 other households every month, you can help us to provide an accurate picture of demand for travel and transport facilities in your area. This will enable TfGM and the local authorities to plan more effectively for the future.

Any information you and other members of your household provide will be treated in complete confidence in accordance with General Data Protection Regulation (the "GDPR").

The survey is being carried out in your area on behalf of TfGM by AECOM under the Code of Conduct of the Market Research Society.

Your interviewer (shown above) will call to arrange a convenient time to visit when everyone is at home. They will need to collect travel data for all people in the household aged 5 or over.

Please ask to see the interviewer's ID badge before admitting them to your home. The information collected will be treated in the strictest confidence and only used for transport planning purposes. More information including a telephone number for any queries can be found overleaf.

As a thank you for taking part, your household will be entered into one of our monthly Free Prize Draws and you could win £75 in High Street shopping vouchers.

Yours faithfully

A handwritten signature in black ink that reads 'Simon Warburton'.

Simon Warburton  
Transport Strategy Director

## **Frequently Asked Questions**

### ***Why has my household been selected?***

By chance. As it is not possible to interview everyone, households have been randomly selected from all addresses in Greater Manchester in the Postal Address File.

### ***What will I be asked?***

Nothing difficult or intrusive. You will be asked some questions on who lives in the household, car availability, your usage of travel tickets, and questions about any trips you made on the day before the interview takes place. We will ask for some personal details, for example ethnicity and disability, to assess whether transport policies are fair to everyone. You will also have the opportunity to tell us what you think the priorities are for transport in Greater Manchester.

### ***Do I have to take part?***

Participation is entirely voluntary. But your assistance would be greatly valued, and will benefit all residents (and visitors to) Greater Manchester. If you are unable to participate in the survey, please call the Freephone number (0800 652 8646). Or alternatively, call the AECOM field manager on 0161 927 8248.

### ***How long will it take?***

It takes about 10-20 minutes (depending on how many people there are in the household, and how much they travel).

### ***What will happen to the data?***

The answers you provide will be treated in accordance with the General Data Protection Regulation (the "GDPR"). The information will be stored on computer and grouped with information supplied by other people from your area, so you can no longer be identified. All the information collected will be treated in the strictest confidence and will only be used for transport planning purposes by Transport for Greater Manchester and third party organisations acting on our behalf; no information that could identify you will be made available. You will not be contacted again unless you give your permission for this. Further details about the GDPR and your rights will be given to you by your interviewer.

### ***What do I get for taking part?***

As well as getting the chance to tell Transport for Greater Manchester your views, there is a Prize Draw. The survey is being conducted throughout 2017 with up to 200 households each month. Every month, all those who completed the survey in that month will be entered into a Prize Draw, for High Street Shopping Vouchers worth £75, so you have a 1 in 200 chance of winning. Good Luck!

### ***Where can I get more information?***

For more information on the survey you can call the AECOM Freephone number 0800 652 8646. Out of normal office hours there is an answerphone service – we will call you back if you leave your name, contact number and reference (see top right of this letter).

Alternatively visit the Transport for Greater Manchester website: <http://www.tfgm.com/trads>

**GREATER MANCHESTER Travel Diary Survey**  
**PART A: HOUSEHOLD QUESTIONNAIRE**

Good morning/afternoon/evening

We are carrying out a survey on behalf of Transport for Greater Manchester. You should have received a letter about this? (*show letter*).

*If yes. Go to X0*

*If no, give letter, and read out*

This study, for Transport for Greater Manchester (TfGM) gathers information about where, when and how residents travel whether it is by car, public transport, walking, cycling or wheelchair. Whether you travel a lot, a little, or not at all, your views are important to us.

We cannot interview everyone in Greater Manchester, and so a sample of addresses is selected and your address has been selected at random from the Royal Mail's list of addresses. Your participation is of course, voluntary, but by taking part, along with 200 other households every month, you help us to provide an accurate picture of demand for travel and transport facilities in your area and this will enable Transport for Greater Manchester and the local authorities to plan effectively for the future.

The survey is being conducted by interviewers from AECOM on behalf of Transport for Greater Manchester and under the Code of Conduct of the Market Research Society. *SHOW BADGE.*

**X0 READ TO ALL**

The answers you provide will be treated in accordance with the 1998 Data Protection Act. Information will be stored on computer and grouped with that supplied by other people from your area, so you can no longer be identified. All information collected will be treated in the strictest confidence and will only be used for transport planning purposes by Transport for Greater Manchester and third party organisations; no information that could identify you will be made available.

As a thank you for taking part, your household will be entered into a Prize Draw and you could win £75 in High Street vouchers in our monthly draw.

QH1	I will need to speak to all people CURRENTLY living in the household, aged 5 or over; it should take no more than 10-20 minutes. Is every one aged 5 or over at home now?		
	Yes	1	▶ Go To QH2
	No	2	▶ make appointment for when everyone in household aged 5 or over will be available

QH2	Would now be a convenient time to do this survey? At the end of the interview you will have the opportunity to give suggestions for improving transport.		
	Yes	1	▶ Go To QH3,
	No	2	▶ make appointment

**When would be a convenient time to do this survey?**

Record time and date for appointment \_\_\_\_\_

QH3	<b>Including yourself, how many people USUALLY live in this household?</b>			
	<p>A household is a single person living alone or a group of people who share cooking facilities and share a living room, sitting room, kitchen or dining room. <i>INCLUDE STUDENTS, WHETHER AT HOME DURING VACATION OR AWAY AT COLLEGE/UNIVERSITY</i>  <i>Don't forget to include the respondent</i></p>			
	WRITE IN NUMBER	<table border="1" style="display: inline-table; vertical-align: middle;"> <tr> <td style="width: 30px; height: 20px;"></td> <td style="width: 30px; height: 20px;"></td> </tr> </table> <p><b>If single person household ► Go To QP1a</b></p> <p><b>Otherwise ► Go to QP1</b></p>		

QP1	<p><b>I am now going to ask you a few questions about the people in your household.</b></p> <p><i>Complete QP1a, b and c for anyone who usually lives at the address (as QH3).</i></p> <p><i>If there are more than eight people in household (inc. respondent) use 'household continuation sheet'</i></p>
-----	--

QP1a	Person ID:	Person 1	Person 2	Person 3	Person 4	Person 5	Person 6	Person 7	Person 8

QP12	<b>How many ONE WAY trips do you typically make in an average week using this pass or ticket?</b>	INSERT ESTIMATE  <input type="text"/>
	<p><i>Examples:</i></p> <p><i>If travel to and from work five days a week number of trips = 10</i></p> <p><i>If travel to child minder on public transport and then child minder to work on public transport and from work to child minder and child minder to home this is 4 trips per day, 20 trips per week.</i></p>	

**PART C: TRAVEL DIARY SUMMARY QUESTIONNAIRE**

READ OUT:

To get a better understanding of the travel you make, I would now like to ask about the trips made by you yesterday (/ on <TRAVEL DAY>)

Travel Day	D	D	/	M	M	/	Y	Y
------------	---	---	---	---	---	---	---	---

Please tell me about all trips which started on this day, between 4am and 4am the following day. Even short trips like walking to the post box, going next door, from work to a shop and back are important.

INTERVIEWER NOTE:

A trip is a one-way movement to achieve a single purpose. If the respondent describes a round trip, (which starts and finishes at the same location) e.g. walking the dog around a local park, record it as two trips: 1. home to park (or the place of furthest distance away from their house), 2.park to home

All details must be collected for travel made on the TRAVEL DATE, for all household members. If travel date is not yesterday, please ask questions referring to the TRAVEL DAY (e.g. "Monday").

QT1	<b>Did you make a trip yesterday in the UK (on &lt;TRAVEL DAY&gt;)?</b>	<i>SINGLE CODE</i>	
	Yes	1	▶ Go to QT3
	No - (stayed indoors the whole day)	2	▶ Go to QT2a
	No - Abroad (i.e. outside Great Britain for the whole of the travel day)	3	▶ Go to Part D

QT2a	<b>Was there a particular reason you didn't go out? (/ on &lt;TRAVEL DAY&gt;?)</b>	<i>MULTI-CODE</i>	
	<i>UNPROMPTED</i>		
	Rested because unwell / housebound	1	▶ Go to Part D
	Household jobs	2	
	Leisure at home	3	
	Worked at home	4	
	Stayed in because of weather conditions	5	
	Studying / revising / coursework etc (education related)	6	
	Caring for others / maternity leave / babysitting	7	
	Had no need to go out	8	
	Had no access to transport	9	
Other (SPECIFY) <input type="text"/>	10		

QT3	<b>When you made your first trip of the day yesterday (on &lt;TRAVEL DAY&gt;) did you start this at home?</b>		
	<i>SINGLE CODE</i>		
	Yes	1	▶ Go to QT6
	No (somewhere else)	2	▶ Go to QT4

QT4	<b>If QT3 = no (not at home), what is the address of your place from where you started your first trip of the day yesterday? (on &lt;TRAVEL DAY&gt;)</b> Probe for postcode details <b>WRITE IN ADDRESS DETAIL</b>			
	Company / shop / place name:	<input type="text"/>		
	Number and Street name:	<input type="text"/>		
	Town / area	<input type="text"/>		
	Postcode	<input type="text"/>	<input type="text"/>	<input type="text"/>
	If postcode not known, record A-Z	Page	<input type="text"/>	<input type="text"/>
	Grid Letter	<input type="text"/>	Grid Number <input type="text"/>	

QT5	<b>[Showcard T4] Why were you there?</b>		<i>SINGLE-CODE</i>
	Home	1	
	Usual place of work	2	
	Education (as pupil/ student)	3	
	Visit friends/ relatives	4	
	Shopping - Food	5	
	Shopping - Non food	6	
	Escorting – place of work (pick-up/ drop-off)	7	
	Escorting –place of education (pick-up/ drop-off)	8	
	Accompanying or giving lift to other person (not school, or work)	9	
	Use Services/ Personal Business (bank, hairdresser, library etc)	10	
	Health or medical visit	11	
	Social (Entertainment/ recreation/Participate in sport, pub/ restaurant)	12	
	Work - Business/ other	13	
	Worship or religious observance	14	
	Round trip – walk, cycle, drive for enjoyment	15	
	Unpaid /voluntary work	16	
	Tourism/sightseeing	17	
	Staying at hotel/other temporary accommodation	18	
	Other (SPECIFY) <input type="text"/>	19	
	Childcare – taking/collecting child to/from babysitter, nursery etc	20	
Moving people or goods in connection with employment	21		

## TRAVEL DIARY OVERVIEW

**OBTAIN A SUMMARY OF ALL TRIPS MADE BY COMPLETING THE TRAVEL DIARY OVERVIEW GRID BELOW. USE THE OVERVIEW GRID AS A MEMORY JOGGER WHEN COMPLETING THE FULL TRAVEL DIARY USING TRIPSHEETS.**

- COLLECT INFORMATION ABOUT ALL TRIPS STARTED DURING THE TRAVEL DAY (I.,E. BETWEEN 0400 ON THE TRAVEL DAY TO 0359 THE FOLLOWING DAY
- ALL TRIPS STARTING OR ENDING IN GREAT BRITAIN MUST BE INCLUDED
- ESTABLISH APPROX DESTINATION AND THE PURPOSE OF EACH TRIP
- MAKE SURE YOU HAVE ALL THE TRIPS IN THE CORRECT ORDER
- REMEMBER A TRIP IS A ONE WAY MOVEMENT TO ACHIEVE A SINGLE MAIN PURPOSE

### Travel Diary Overview Grid

TRIP NO.	START TIME	JOURNEY TIME	PURPOSE and /or DESTINATION
TRIP 1			
TRIP 2			
TRIP 3			
TRIP 4			
TRIP 5			
TRIP 6			
TRIP 7			
TRIP 8			
TRIP 9			
TRIP 10			

#### CHECK – HAVE YOU GOT ALL TRIPS

- |   |   |
|---|---|
| <ul style="list-style-type: none"> <li>- Did they go to local shop/ post box</li> <li>- Did they walk the dog</li> <li>- Did they leave work at lunch time to run errand/ get a sandwich</li> <li>- Did they go somewhere on way home from work eg gym</li> </ul> | <ul style="list-style-type: none"> <li>- Did they take the kids to swimming/ club / friends</li> <li>- Did they give friend or relative a lift</li> <li>- If town centre trip are all trips recorded for change in purpose e.g. shop, lunch, personal business</li> </ul> |
|---|---|

<i>I confirm I have probed for and recorded all trips my by the respondent.</i>	
---	--

QT6 INTERVIEWER WRITE IN THE NUMBER OF TRIPS MADE, AS RECORDED ABOVE.

WRITE IN NUMBER

--	--

#### NOW COMPLETE THE TRAVEL DIARY – RECORD FULL TRIP DETAILS USING ‘TRIP-SHEETS’

CHECK THAT THE NUMBER OF TRIPS RECORDED IN THE TRAVEL DIARY OVERVIEW GRID (above) AND TRIP-SHEETS EQUALS THE NUMBER OF TRIPS RECORDED IN QT6. IF, DURING THE COURSE OF THE TRAVEL DIARY INTERVIEW THE RESPONDENT REMEMBERS MORE TRIPS PLEASE RECORD THESE ON THE TRIPS SHEETS AND UPDATE QT6 TO REFLECT THIS.

**REMEMBER, ONCE YOU HAVE COMPLETED THE TRAVEL DIARY TRIP SHEETS, COMPLETE PART D**

## HOUSEHOLD SURVEYS

## SHOWCARD QH6

We need a general idea of household income to gain a better understanding of why people travel the way they do.

	<b>Annual</b>	<b>Or Monthly</b>	<b>Or Weekly</b>
<b>D</b>	less than £5,000	less than £400	Less than £100
<b>X</b>	£5,000 - £9,999	£400 - £799	£100 - £199
<b>R</b>	£10,000 - £14,999	£800 - £1,199	£200 - £299
<b>S</b>	£15,000 - £19,999	£1,200 - £1,599	£300 - £399
<b>Z</b>	£20,000 - £24,999	£1,600 - £1,999	£400 - £499
<b>Y</b>	£25,000 - £34,999	£2,000 - £2,999	£500 - £699
<b>A</b>	£35,000 - £49,999	£3,000 - £4,199	£700 - £999
<b>W</b>	£50,000 - £74,999	£4,200 - £6,199	£1,000 - £1,499
<b>H</b>	£75,000 or more	£6,200 or more	£1,500 or more

Please take into account *all* sources of income such as:

- Wages/salary, income from self-employment
- Pensions, child benefit, mobility/disability allowances
- Other state benefits such as family credit, unemployment benefit, housing benefit, sickness/invalidity benefit, maternity benefit, income support etc.
- Saving/investment interest, income from rent, capital gains tax etc
- Other income such as alimony, annuity, grants etc
