

Key to map

- | | |
|-----------|--|
| 38 | Bus service number (with direction of travel if applicable) Monday to Saturday frequency of at least one bus an hour |
| 75 | Other bus service number |
| V2 | Limited stop bus service number |
| V4 | Limited stop and low frequency bus service number |

-
- The diagram illustrates the bus service logic for two types of stops: a Bus Station and a Bus terminal. Each stop is represented by a yellow box with a black border. The box is divided into three sections: a top section for the stop name, a middle section for the bus number (1, 20, or 30), and a bottom section for the bus number 40. Arrows indicate the bus service flow.
- Bus Station:** The bus service terminates at the station (indicated by an arrow from the top section to the text "Bus service terminates") and passes through the station (indicated by an arrow from the middle section to the text "Bus service passes through").
 - Bus terminal:** The bus service terminates at the terminal (indicated by an arrow from the top section to the text "Bus service terminates") and passes through the terminal (indicated by an arrow from the middle section to the text "Bus service passes through").
