Our 'Connected Thinking' approach to forecasting and analysis means we integrate political, macroeconomic and industry expertise into all of our research so students and researchers benefit from understanding how each has an impact on the other in their chosen markets.

Access to crucial intelligence, fresh perspectives and comprehensive financial data

Country Risk

Enhance your learning programs with expert political risk and macroeconomic insights on the trends and themes shaping industries and economies

- Quarterly Country Risk reports for 120+ markets. Daily analysis of data releases, currency movements, elections, policy changes and interest rate decisions.
- Expert political, economic, and operational risk indices ranking the investment attractiveness of 200+ markets.
- Independent 10-year forecasts for more than 100 key macroeconomic indicators, standardised across 200 markets.
- 30 years of accurate, standardised and comparable historic data across global markets.
- Analyst-hosted on-demand webinars covering trending topics, plus special reports on major themes.
- Country views and risk indices underpinned by GeoQuant's award-winning, high-frequency political risk data.

Industry Research

Boost your industry analysis across emerging and frontier markets with comprehensive independent research, data and forecasts for 20+ industries

- Thorough quarterly industry overviews, plus event-driven daily analysis and views on the latest developments and industry trends.
- Comprehensive short- and long-term industry risk/reward indices which rank industry investment attractiveness in multiple markets.
- Consistent and robust forecasting offering a clear view of future industry trends for the next 5-10 years.
- 30 years of robust historic data across 20 sectors and price forecasts for 35 commodities.

Fitch Ratings Credit Research

Enhance your academic research with Fitch Ratings comprehensive credit market insights and robust analytics. The timely research supports rigorous analysis and evidence-based conclusions in your studies.

- Gain deeper insight into the factors behind individual credit ratings.
- Access annual and event-driven reports with key rating drivers, sensitivities, adjusted financials, and peer comparisons.
- Utilize Rating Navigator, Fitch's analytical tool that explains rating construction using quantitative and qualitative factors
- Analyze issuer strengths and weaknesses within specific sectors and peer groups.
- Explore reports on thematic issues, sector trends, and macro topics with potential credit impact.

Fundamental Financial Data & Analytics

Fuel your financial analysis with our award-winning fundamental financial data set for more than 37,500 private and public banks across the world, covering over 35 years of historical data. Academic institutions and business schools get access to the same standardised and granular data that is used by Fitch's analysts as a basis for their credit ratings.

- Leverage over 150 pre-calculated ratios including the Common Equity Tier 1 Capital Ratio, Basel III Leverage Ratio, Liquidity Coverage Ratio and Net Stable Funding Ratio.
- Data is available within days of annual and interim financial statements filings.
- Unrivalled quality data which undergoes rigorous data integrity process to identify defects, including over 160 validation checks, independent audit sampling and root cause analysis.

Enhance your Teaching Programs and Research Tools

- Support your curriculum with our authoritative, in-depth coverage of 200 markets and over 20 industries with frequently updated, consistent data and comparative analysis.
- Our independent insight and Connected Thinking inspires your curriculum and supercharges your research, with daily analysis, country specific reports, interactive charts, analytical tools and multimedia.
- Dive deep with our web portal into our rich research, forecasts and proprietary indices.
- Easily export large volumes of data into our custom-built Excel Add-In, specially designed for business schools and academic users.
- Your Fitch subscription gives you access to our expert data specialists, and a customer support team focused on helping you deliver outstanding teaching and research.

Boost Library Resources and Efficiencies

- Information is power, and with access to deep information on countries, industries and the banking sector from just one source, you can rest assured you can meet any stakeholder request, quickly and easily.
- Our easy-to-use platform helps you to confidently drill down into markets and economies, and efficiently provide information for coursework and recommended reading lists. It also means you can streamline your providers, processes, and manage costs.
- Our web portal and custom-built Excel Add-In both offer intuitive interfaces that let users focus on getting the content they need. In addition, our Research API and Data API offer customisable integration in your intranets.
- All delivery channels are backed up by a dedicated team of experts and specialists to help smooth implementation, onboarding, and ongoing usage of your subscription. Our mission is to help you maximise your investment in Fitch Solutions.

Real World Insight For Students

- Leading business organisations, banks and governments worldwide rely on Fitch Solutions to support their wide-ranging business intelligence and research needs.
- Give your students access to the comprehensive and independent research, data and forecasts that are already part of the workflow of thousands of professionals, preparing them for their future careers.

Working together

We are here to help you deliver outstanding teaching and research – whether you're a lecturer looking for engaging real world topics and accurate data to support your curriculum, a researcher developing ground-breaking new ideas, or a librarian tasked with providing the best information across your organization.

Our research and data are offered in partnership with InCommon, JISC, NERL, and federated identity management services to suit your preferred procurement and delivery mechanism.

We have a dedicated customer service team to support your implementation of the platform, detailed onboarding and ongoing support to make sure you get the most of your investment in this comprehensive resource.

About Fitch Solutions

You're under pressure to provide the critical guidance your organisation needs to protect its interests and grow its profits. Fitch Solutions can help inform your investment strategies, strengthen risk management capabilities, and identify strategic opportunities. We provide robust, granular, and in-depth information, plus differentiated perspectives, especially in markets where information is hard to find and difficult to interpret.

With decades of specialised experience, our teams offer in-depth views that help clients easily understand markets and risk, so they can protect their organisations' interests.
