In total, the retail chain operates around 1,000 stores across 11 European countries. At MediaMarkt, the customer is at the center. Every year, more than 100 million consumers visit MediaMarkt, either in-store or online. Through its omnichannel proposition, customers are served via multiple channels and can decide how, where, and when they choose, purchase, and receive electronics: via the store, webshop, app, or Marketplace. At the Smartbar, available in every MediaMarkt store, customers receive comprehensive support with advice and additional services, such as unique TV calibration and getting laptops, tablets, and smartphones ready for use. Customers can also choose from a wide range of TV and mobile subscriptions, as well as various green energy providers. With BetterWay, our sustainability proposition, we help consumers make more sustainable product choices and adopt more sustainable behavior. The retail chain was founded in 1979 and is part of the MediaMarktSaturn Retail Group. More information: [www.mediamarkt.nl](http://www.mediamarkt.nl)
