Tuwharetoa ki Kawerau Health, Education and Social Services Trust

For the year ended 30 June 2022

1. Reporting Entity

The reporting entity is Tuwharetoa ki Kawerau Health, Education and Social Services Trust (The Trust), a charitable trust and a charitable organisation registered under the Charitable Trusts Act 1957 and the Charities Act 2005.

2. Statement of Compliance

The financial statements have been prepared in accordance with generally accepted accounting practice in New Zealand (NZ GAAP). They comply with PBE IPSAS and other applicable financial reporting standards as appropriate that have been authorised for use by the External Reporting Board for not-for-profit entities. For the purposes of complying with NZ GAAP, the Trust is a not-for-profit entity and is eligible to apply Tier 2 Not-for-Profit PBE IPSAS on the basis that it does not have public accountability and it is not defined as large.

The Board of Trustees has elected to report in accordance with Tier 2 Not-for-Profit PBE Accounting Standards and in doing so has taken advantage of all applicable Reduced Disclosure Regime (RDR) disclosure concessions.

3. Summary of Accounting Policies

The significant accounting policies used in the preparation of these financial statements as set out below have been applied consistently to both years presented in these financial statements.

Basis of Measurement

The financial statements have been prepared on an historical cost basis.

Functional and Presentation Currency

The financial statements are presented in NZD, which is the Trust's functional currency. All amounts have been rounded to the nearest dollar

Use of Estimates and Judgements

The preparation of financial statements requires the Board of Trustees to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected.

In particular, information about significant areas of estimation uncertainty and critical judgments in applying accounting policies that have the most significant affect on the amounts recognised in the financial statements are disclosed where applicable in the relevant notes to the financial statements.

Revenue

Revenue is recognised to the extent that it is probable that the economic benefit will flow to the Trust and revenue can be reliably measured. Revenue is measured at the fair value of the consideration received. The following specific recognition criteria must be met before revenue is recognised.

Revenue from exchange transactions

Government Grants Revenue

Revenue received from government grants is provided as funding for services the Trust provides in relation to health, education and social services. Amounts received in advance for services to be provided in future periods are recognised as a liability until such time as the service is provided.

Contract Revenue

Contract Revenue is received from community providers for the delivery of health and social services. The revenue is reported as Other Revenue. Amounts received in advance for services to be provided in future periods are recognised as a liability until such time as the service is provided.

Rental Income

Rental income is recognised in surplus or deficit on a straight-line basis over the term of the lease.

Interest Income

Interest revenue is recognised as it accrues, using the effective interest method.

Tuwharetoa ki Kawerau Health, Education and Social Services Trust

For the year ended 30 June 2022

3. Summary of Accounting Policies (continued)

Financial Instruments

Financial assets and financial liabilities are recognised when the Trust becomes a party to the contractual provisions of the financial instrument

The Trust derecognises a financial asset when the contractual rights to the cash flows for the asset expire, or it transfers the rights to receive the contractual cash flow in a transaction in which substantially all the risks and rewards of ownership of the financial asset are transferred. Any interest in transferred financial assets that is created or controlled by the Trust is recognised as a separate asset or liability.

The Trust derecognises a financial liability when its contractual obligations are discharged, cancelled or expire. The Trust also derecognises financial assets and financial liabilities when there has been significant changes to the terms and/or the amount of contractual payments to be received/paid.

Financial assets and liabilities are offset and the net amount presented in the statement of financial position when, and only when, the Trust has a legal right to offset the amounts and intends either to settle on a net basis or to realise the asset and settle the liability simultaneously.

Financial assets

Financial assets within the scope of NFP PBE IPSAS 29 Financial Instruments are classified as financial assets at fair value through surplus or deficit, loans and receivables, held-to-maturity investments or available-for-sale financial assets. The classifications of the financial assets are determined at initial recognition. Financial instruments are initially measured at fair value or directly attributable transaction costs.

The categorisation determines subsequent measurement and whether any resulting income and expense is recognised in surplus or deficit or in other comprehensive revenue and expenses. The Trust's financial assets are classified held-to-maturity or receivables. The Trust's financial assets include: cash and cash equivalents, short-term investments and receivables from exchange transactions.

Held-to-maturity

Non-derivative financial assets with fixed or determinable payments and fixed maturities are classified as held- to-maturity when the Trust has the positive intention and ability to hold them to maturity. Held-to-maturity assets comprise bank term deposits.

Receivables

Receivables are non-derivative financial instruments with fixed or determinable payments that are not quoted in an active market. After initial recognition, these are measured at amortised cost using the effective interest method, less any allowance for impairment. The Trust's cash and cash equivalents and receivables fall into this category of financial instruments.

Financial liabilities

Financial liabilities include trade and other creditors and employee benefits.

All financial liabilities are initially recognised at fair value and are measured subsequently at amortised cost using the effective interest method.

Impairment of non-derivative financial assets

A financial asset not subsequently measured at fair value through surplus or deficit is assessed at each reporting date to determine whether there is objective evidence that it is impaired. A financial asset is impaired if there is objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the asset, and that the loss event(s) had an impact on the estimated future cash flows of that asset that can be estimated reliably.

Objective evidence that financial assets are impaired includes default or delinquency by a counterparty, restructuring on an amount due to the Trust on terms that the Trust would not consider otherwise and indications that a counterparty will enter bankruptcy.

Financial assets classified as held-to-maturity and receivables

The Trust considers evidence of impairment for financial assets measured at amortised cost (receivables and held-to-maturity) at both a specific asset and collective level.

All individually significant assets are assessed for specific impairment. Those found not to be specifically impaired are then collectively assessed for any impairment that has been incurred but not yet identified. Assets that are not individually significant are collectively assessed for impairment by grouping together assets with similar risk characteristics.

An impairment loss in respect of a financial asset measured at amortised cost is calculated as the difference between its carrying amount and the present value of the estimated future cash flows discounted at the asset's original effective interest rate. Losses are recognised in surplus or deficit and reflected in an allowance against receivables or held-to-maturity financial assets.

When an event occurring after the impairment was recognised causes the amount of impairment loss to decrease, the decrease in impairment loss is reversed through surplus or deficit.

Individual receivables that are known to be uncollectible are written off when identified, along with associated allowances.

This statement is to be read in conjunction with the Audit Report.

Tuwharetoa ki Kawerau Health, Education and Social Services Trust

For the year ended 30 June 2022

3. Summary of Accounting Policies (continued)

Cash & Cash Equivalents

Cash & cash equivalents are short term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

Investments

Short-term investments comprise term deposits which have a term of greater than three months and less than twelve months and do not fall into the category of cash and cash equivalents.

Property, Plant & Equipment

Property, Plant and Equipment are measured at cost less accumulated depreciation and impairment loss.

Depreciation is charged using both the diminishing value and straight-line method over the useful life of the asset.

Freehold Land	0%
Property Improvements	4% - 10% DV
Buildings	0% - 20% DV
Office Equipment	0% - 67% DV
Motor Vehicles	30% DV
Software & Website	50% DV, 20% SL

Intangible Assets

Intangible assets are measured at cost less accumulated amortisation and impairment loss.

Intangible assets with an indefinite useful life are not amortised.

Amortisation is charged on a straight-line basis over the useful life of the asset. Amortisation is charged at rates calculated to allocate the cost of the asset less any estimated residual value over its remaining useful life.

Intangible assets that are classed as under development are not amortised until completed.

Intangibles under development	0%	

Leases

Payments on operating lease agreements, where the lessor retains substantially all of the risks and rewards of ownership of an asset, are recognised on a straight line basis over the lease term.

Employee Benefits

Liabilities for salaries and annual leave are recognised in surplus or deficit during the period in which the employee provided the related services. Liabilities are measured at the amounts expected to be paid when the liabilities are settled.

Income Tax

The Trust is a registered charity and is wholly exempt from income tax having fully complied with all statutory conditions for these exemptions.

Goods & Services Tax

All amounts are recorded exclusive of GST, except for receivables and payables which are stated inclusive of GST.

Nature and Purpose of Reserves

The Trust creates and maintains reserves in terms of specific requirements.

General Cash Surplus

This reserve was created by amounts transferred from retained surpluses and is a fiscal security reserve.

Funding Subsequent Year Activities

This reserve was created by amounts transferred from retained surpluses and is intended to be used for future year's activities not funded by revenue received in that particular year.

Changes in Accounting Policies

There have been no changes in accounting policies during the year.

12. Reserves

12. Neserves		
	2022	2021
General Cash Surplus		
Balance	120,281	120,281
Funding Subsequent Year Activities		
Balance	117,879	117,879
13. Operating Leases		
As at the reporting date, the Board of Trustees has entered into the	following operating lease commitments:	
	2022	2021
Not longer than one year	9,465	9,465
Later than one year but not longer than five years	18,930	28,396

18,930 28,395

14. Categories of Financial Assets and Liabilities

Later than one year but not longer than five years

The carrying amount of financial instruments presented in the statement of financial position relate to the following categories of assets and liabilities.

	2022	2021
Financial Assets		
Loans and Receivables		
Cash and Cash Equivalents	2,769,398	1,802,816
Receivables	710,842	462,625
	3,480,240	2,265,441
Financial Liabilities		
At amortised cost		
Trade and Other Payables	523,921	232,649
Employee Benefits	340,436	115,148
	864,357	347,797

15. Related Party Disclosure

PBE IPSAS 20 Related Party Disclosures requires disclosure of the numbers of individuals and aggregate remuneration for the members of the governing body and the Chief Executive Officer. The aggregate remuneration and the number of individuals on a full time equivalent basis is as follows:

	2022	2021
Total Remuneration	404,065	243,763
Total FTE's	1.5	1.1

This statement is to be read in conjunction with the Audit Report.

Tuwharetoa ki Kawerau Health, Education and Social Services Trust

For the year ended 30 June 2022

16. Capital Commitments

There were no capital commitments at the reported date (2021: \$Nil).

17. Contingent Assets and Liabilities

There were no contingent assets or liabilities at the reporting date (2021: \$Nil).

18. Events Subsequent to Balance Date

There were no material events subsequent to the reporting date that would materially affect the fair presentation of these financial statements.
