

Comprehensive protection from digital risk

Digital risks move quickly, and you need a new kind of coverage that can keep up. Keep your business safe from cyber and digital threats with broad coverage from Coalition.

Far more than traditional insurance

Digital risk changes quickly, and businesses need more than traditional insurance to protect themselves. Coalition's **Active Insurance** provides policyholders with technology and expert support before, during, and after an incident occurs.

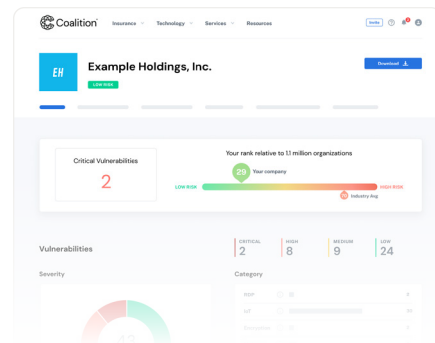

Active Protection

All policyholders get free active monitoring and alerting with Coalition Control to help prevent issues before they arise

Active Response

Our in-house expert claims and incident response teams responds quickly so you can recover faster

5 Minutes

Average response time to an incident

46%

Percentage of incidents handled at no cost to the policyholder

75%

Percentage of funds recovered by Coalition Claims team in 2021 (where recovery was possible)

The most innovative and comprehensive coverage available

Coalition covers more of the financial, tangible, and intangible exposures your business faces than any other insurance company.

Breach response costs

We'll cover the legal, incident response, forensics, and PR costs following a breach, as well as the costs to notify your customers and provide credit monitoring

Stolen funds

If social engineering leads to a fraudulent funds transfer or financial loss, we'll make you whole (and help recover the funds!)

Lost business income

We cover the financial losses when a security incident brings your business offline

Cyber extortion

We cover the costs to respond to a ransomware incident, including extortion payments, and we pay on behalf

Computer replacement

We'll replace your computer systems negatively impacted by viruses and malware

Bodily Injury & Property Damage

We'll replace your computer systems negatively impacted by viruses and malware
