## Elevate your advisory capabilities

Broker resources available in our portal help you advise clients on evolving cyber and digital risks. Explore cyber claims calculators, limits estimates, educational webinars, and more.

## Far more than traditional insurance

Digital risk changes quickly, and businesses can benefit from Coalition's Active Insurance, which provides policyholders with cybersecurity technology and expert support before, during, and after a cyber incident occurs.

### Active Risk Assessment

Underwriting, quoting, renewals, and digital risk scores\* powered by real-time data

### Active Protection

All policyholders get access to active monitoring and alerting to identify and help prevent risk **before** it strikes\*

### Active Response

In-house expert claims and incident teams\* and coverage if an incident occurs

**70%**

Of all FTF losses result in successful recovery by Coalition<sup>3</sup>

**52%**

Of reported events handled at no additional expense to the policyholder<sup>1</sup>

**64%**

Fewer claims compared to the broader cyber market<sup>2</sup>
