COMPANY

- Business Interruption
- Bodily Injury and Property Damage

Thank you for your quick response to this claim. Less than two hours, and you've already set up and assigned the claim and made contact with the insured –amazing! I don't think I have ever seen a quicker response to a claim.

One of Coalition's policyholders, a manufacturer that produces industrial components, experienced a cyber attack on their industrial control systems (ICS). The company's system controlled their production line, and when the hacker gained remote control of the ICS, they inflicted significant damage on the production equipment and destroyed the in-process components.

Thankfully, the company was insured by Coalition, and their Bodily Injury and Property Damage and Business Interruption coverages went into effect. Even better, the Coalition Incident Response (CIR) team helped them regain control of their systems and secure their network to prevent another attack from occurring. Coalition's industry-leading policy provides coverage for the real exposures businesses face and that other carriers don't cover. With the broadest coverage and proactive cybersecurity tools, you're safer with Coalition.

Coalition brings together active monitoring, incident response, and comprehensive insurance to solve cyber risk. To learn more, visit coalitioninc.com.
