

Obtaining permission to use content on ScienceDirect

If the content you wish to re-use is on [ScienceDirect](https://www.sciencedirect.com), you may request permission using the Copyright Clearance Center's RightsLink® service. Simply follow the steps below:

1. **Locate your desired content on ScienceDirect.** Subscribers will be able to view all content and guest users can view open access content and abstracts for free simply by clicking on the article or chapter title.
2. **Determine if the content is open access or subscription access.** If you are reading an Elsevier published article online, you need to look out for the "Open Access" orange label located under the article's title and author information. You will also be able to identify any relevant open access articles in your search results by looking for the same label. To find out how you can reuse an open access article, look underneath the title and click on the license hyperlink for exact details on the user license selected by the author. If your reuse is not covered by the user license, please proceed to the next step.
3. **Click on the 'Get rights and content' button located under the author details, adjacent to the DOI.**

The screenshot shows the ScienceDirect website interface. The main content area features the article title 'A socio-economic analysis of biomethane in the transport sector: The case of Italy' from the journal 'Waste Management', Volume 95, 15 July 2019, Pages 102-115. The authors listed are Idiano D'Adamo, Pasquale Marcello Falcone, and Francesco Ferella. A yellow 'Get rights and content' button is visible next to the DOI link. On the left side, there is an 'Outline' section with links for 'Highlights', 'Abstract', 'Keywords', and 'Nomenclature for the economic model'. On the right side, there is a 'Recommended articles' section with three article recommendations, each with a 'Download PDF' button and a 'View details' link. At the bottom right, there are sections for 'Citing articles (9)' and 'Article Metrics'.
