Major reference works

- Build fundamental knowledge and confidence in new subject areas.
- Bridge disciplines with comprehensive insights that connect the dots across subject areas.
- Are written and edited by leading experts to provide trusted, authoritative knowledge.
- Are aligned with other content types on ScienceDirect, ensuring your researchers are making the most of your content and can easily get the full picture of a subject area.
- ScienceDirect Topics seamlessly surfaces critical insights from major reference works (MRWs), delivering the knowledge your users need, exactly when they need it.

MRWs continue to deliver value for decades

The lifetime usage of MRWs is greater over a longer period of time than other content types demonstrating the enduring value of this critical foundational content.

A recent study shows **60% of MRWs** usage is still generated 10 years after publication*
