## THE LICENSE AGREEMENT

### License of publishing rights

I hereby grant to *Journal Owner* an exclusive publishing and distribution license in the manuscript identified above and any tables, illustrations or other material submitted for publication as part of the manuscript (the “Article”) in print, electronic and all other media (whether now known or later developed), in any form, in all languages, throughout the world, for the full term of copyright, and the right to license others to do the same, effective when the Article is accepted for publication. This license includes the right to enforce the rights granted hereunder against third parties.

### Supplemental Materials

“Supplemental Materials” shall mean materials published as a supplemental part of the Article, including but not limited to graphical, illustrative, video and audio material.

With respect to any Supplemental Materials that I submit, *Journal Owner* shall have a perpetual worldwide, non-exclusive right and license to publish, extract, reformat, adapt, build upon, index, redistribute, link to and otherwise use all or any part of the Supplemental Materials, in all forms and media (whether now known or later developed) and permit others to do so.

### Research Data

“Research Data” shall mean the result of observations or experimentation that validate research findings and that are published separate to the Article, which can include but are not limited to raw data, processed data, software, algorithms, protocols and methods.

With respect to any Research Data that I wish to make accessible on a site or through a service of *Journal Owner*, *Journal Owner* shall have a perpetual worldwide, non-exclusive right and license to publish, extract, reformat, adapt, build upon, index, redistribute, link to and otherwise use all or any part of the Research Data in all forms and media (whether now known or later developed), and permit others to do so. Where I have selected a specific end user license under which the Research Data is to be made available on a site or through a service, the publisher shall apply that end user license to the Research Data on that site or service.

### Scholarly communication rights

I understand that I retain the copyright in the Article and that no rights in patents, trademarks or other intellectual property rights are transferred to the Journal. As the author of the Article, I understand that I shall have: (i) the same rights to reuse the Article as those allowed to third party users of the Article under the CC-BY-NC-ND License, as well as (ii) the right to use the Article in a subsequent compilation of my works or to extend the Article to book length form, to include the Article in a thesis or dissertation, or otherwise to use or re-use portions or excerpts in other works, for both commercial and non-commercial purposes. Except for such uses, I understand that the license of publishing rights I have granted to the Journal gives the Journal the exclusive right to make or sub-license commercial use.

### User rights

The publisher will apply the *Creative Commons Attribution-Noncommercial-NoDerivative Works 4.0 International License* (CC-BY-NC-ND) to the Article where it publishes the Article in the journal on its online platforms on an Open Access basis. For further information, see <http://www.elsevier.com/about/open-access/open-access-options>.

The CC-BY-NC-ND license allows users to copy and distribute the Article, provided this is not done for commercial purposes and further does not permit distribution of the Article if it is changed or edited in any way, and provided the user gives appropriate credit (with a link to the formal publication through the relevant DOI), provides a link to the license, and that the licensor is not represented as endorsing the use made of the work. The full details of the license are available at <https://creativecommons.org/licenses/by-nc-nd/4.0/>.

### Reversion of rights

Articles may sometimes be accepted for publication but later rejected in the publication process, even in some cases after public posting in “Articles in Press” form, in which case all rights will revert to the author (see <http://www.elsevier.com/locate/withdrawalpolicy>).

### Revisions and addenda

I understand that no revisions, additional terms or addenda to this License Agreement can be accepted without *Journal Owner*’s express written consent. I understand that this License Agreement supersedes any previous agreements I have entered into with *Journal Owner* in relation to the Article from the date hereof.

### Copyright Notice

The publisher shall publish and distribute the Article with the appropriate copyright notice.

### Author Representations/Ethics and Disclosure
