# Explore our Journals in Earth and Planetary Sciences 2023

**Publishing with Elsevier's Earth and Planetary Sciences journals offers you:**

## THE WIDEST CHOICE

All 73 journals in our growing collection of Earth and Planetary Sciences titles enable open access publishing, and 15 of them are fully open access. Together, they cover a broad array of research areas in this field and related disciplines.

## RIGOROUS PEER REVIEW

The comments offered by our reviewers have one goal – to help you publish the best work possible. Our editorial teams work with a global community of active, high-profile researchers in your field to provide you with support and constructive feedback.

## HIGH QUALITY PUBLICATION

Articles published in Elsevier's Earth and Planetary Sciences journals enjoy an average field-weighted citation impact (FWCI) of 1.30, higher than the average FWCI in this field.\*

## MAXIMUM VISIBILITY

Articles accepted for publication in Elsevier's journals feature on Science Direct, the world's leading research platform, which receives 1.6 million unique visitors a day and 57 article downloads per second.

## OUR PLEDGE TO THE COMMUNITY:

- We're committed: we put diversity and inclusion at the heart of our activities
- We champion change: we're working to increase the percentage of women, early career researchers and researchers from the Global South as editorial board members
- We're inclusive: we strive to build an inclusive environment where everyone will flourish
