

2025 Freedom Collection Books

A flexible, affordable option for essential ebook content

How Freedom Collection Books works

Meet your patrons' needs with the widest range of titles

Ensure you always have what your researchers, faculty and students are looking for by providing immediate access to the current year's Books on ScienceDirect as they are published, plus four years of previously published titles.

The 2025 Freedom Collection Books includes over 6,500 titles — the Frontlist at a deep discount plus four years of Backlist titles:

- As you renew your subscription, you keep your subscribed content while adding the new frontlist titles in subsequent years
- Annual renewal price is predictable and includes access to all five years of titles from the first subscription year plus new titles published in each year that you renew
- At the end of each year, choose titles based on actual usage and keep them forever (perpetual access)
- Option to add previous Freedom titles through the Freedom Backlist Collection add on

2025 Freedom Collection Books content

Libraries who choose to renew and continue their Freedom Collection Books subscription each year build a critical mass of authoritative content. We offer titles spanning all subject collections to meet your institution's current and evolving needs.
