

MEEGID XVII

17th International Conference on Molecular Epidemiology
and Evolutionary Genetics of Infectious Diseases

18-21 November
2025

ADAMAS UNIVERSITY
KOLKATA, INDIA

Organized by Elsevier, the **17th International Conference on Molecular Epidemiology and Evolutionary Genetics of Infectious Diseases (MEEGID XVII)** will give special emphasis to health problems of specific interest to the present world: COVID-19, the spread of transmissible diseases linked to climate and ecological disorders, antimicrobial resistance, tuberculosis, AIDS, malaria, to name a few.

Attending this conference will enable you to learn about the latest developments in infectious diseases and epidemiology research from experts in the field, present your latest research to your peers and network with an interdisciplinary group from around the world - including academics and researchers, as well as health and industry professionals.
